The Advance had a pleasant call on Tuesday from Mr. W. J. Wadsworth, foreman in the C. P. R. shops, Toronto Junction. Mr. and Mrs Wadsworth were on their way home from a holiday visit with friends in Osprey and Artemesia. By the way, Mr. Wadsworth takes The Advance and says, although he takes a number of papers none are so prompt in arrival as The Advance. It never fails to reach him at the appointed hour on Thursdays.

No serious depredations were committed in town on Hallow'en. The worst incident we have heard of was a case where a number of ladies flocked together at a certain residence to indulge in a taffy feed. It seems that they placed the taffy outside on the verandah to cool without taking into consideration the diffusive power of taffy odor. Anyway some young men whose olfactories are in the pink of condition followed up the scent, found the taffy and heartlessly "swiped" it. After cleaning the dish it was placed on the door sill and the bell was rung. Curtain.

Mr. W. R. Dyson, a well known and highly respected resident of this township, passed away on Monday afternoon after an illness of only four weeks' duration from tuberculosis. The deceased gentleman was born in London, Eng., in 1836, and was consequently 66 years of age. He came to this country about the year 1858 but returned to England in 1866. Later on, in 1888, he came to Canada with his family and settled on the fourth line, where he has since lived. He leaves a widow and three sons—Arthur in Australia, Herbert and Harman at home. Deceased was a consistent member of the Methodist church, and a man of strict integrity in all his business dealings. The The funeral took place to Flesherton cemetery yesterday, Wednesday.

Mr. Deagle's contract for lighting the village called for the lights being on by the first of November. Difficulty, however, has been experienced in getting the dynamo, which has not yet arrived, although it should have been here about the twelfth of last month. The line is all ready for work, and it is certainly most annoying to Mr. Deagle to be delayed in this manner. We do not think the town has any desire to hold the contractor to the strict letter of his agreement. We are willing to put up with a little delay, but if the machine does not come very soon it might hurry matters for the police trustees to communicate with the manufacturers and hint to them that damages may be demanded if they do not, in the vernacular, "get a move on."

On Sunday, November 2, Mr. J. G. Shearer, Field Secretary of the Lord's Day Alliance, delivered an address in the Presbyterian church in the interests of that association. He took as the basis of his remarks the statement of Jesus Christ, "The Sabbath was made for man," and endeavored to show how that greed and selfishness were endeavoring to break the law of the Sabbath by Sunday labor, Sunday excursions, Sunday sports, etc. These, he pointed out, are growing to alarming proportions and many towns and cities that were hitherto peaceful and law-abiding in regard to the Sabbath were having introduced Sunday labor, Sunday excursions and sports. The work of the Alliance was to prevent this in every possible instance and was very successful. To prove the truth of this statement Mr. Shearer enumerated several instances. In one community, Chatham, a number of American capitalists in erecting an immense beet sugar factory employed men to do building on the Sabbath. The facts were at once communicated to the head men of the Lord's Day Alliance and the factory capitalists at once received a curt letter to the effect that such work was to cease. This was refused and the case was immediately put into the hands of the law and the sugar men were tried and fined. There was no more building on Sabbath. Another instance was cited where a baseball match was held in Grand Forks, B. C., a mining town. Through the influence of a young minister the ball game was not repeated. Not only have the Lord's Day Alliance prevented provincial desecration but by interviewing the Minister of Customs they have secured it on international lines as well. In one instance where an excursion from Buffalo or Syracuse entered Kingston on Sunday and were promptly met by customs officers and informed before landing that they were forbidden to land and if they landed they would remain till Monday morning. The vessel left as quietly as she came in. Of course there are still many instances of Sunday labor such as the large railways and steamship lines that carry on Sunday labor but which may in the near future be compelled to cease the desecration of the Sabbath as the Alliance are doing their best and have the aid of the trade and labor unions. Canada is not yet as bad as the United States because they have some four or five millions of laboring men who have no Sabbath. It is to be hoped that our fair Dominion may never sink so low and now is the opportune moment when the evil has but a slight footing. A collection was taken up at the end of the service to aid the cause. The address by Mr. Shearer was very interesting and much appreciated by a large audience.
