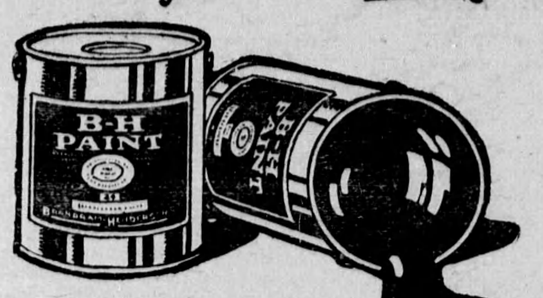
"Save the surface and you save all" Paint & Varnish



Economical—

Because It Covers More

EVEN if this paint were sold at a price half as high again as any other—it would still be the economical paint to use on your house. In sheer covering capacity it has no equal. A gallon of it goes so far that you'll buy less of it and yet do more with it.

B-H "ENGLISH" PAINT 70% Pure White Lead (Brandram's Genuine B.B.) 30% Pure White Zinc 100% Pure Paint

This paint is guaranteed to possess as its important basis the above formula which we inscribe on every can.

The result of such a formula is all that you could ask in brilliance of color and in proper "body"—a paint which gives a fine lasting finish, excelling all others in "covering capacity" and in durability. Paint with B-H "English" Paint—and your house is protected for years, where a coat of ordinary paint will last but a few months.

(Last Week's Items)

Mr. and Mrs. Walter Allen of Toronto are visiting the latter's sister, Mrs. W. Acheson.

Mr. Elmer Stevens visited his brother, Mr. Albert Stevens.

Mr. George Ludlow, sr., of New Liskeard, is visiting his daughter, Mrs. A. Stinson, and his son, Mr. George Ludlow, jr.

Mr. and Mrs. George Moore, Mr. and Mrs. Will Moore and Mr. Chas. Moore motored to Hawkeston to attend the wedding of Mr. Moore's niece.

Miss Violet Stevens is home for the summer.

Our garden party last Monday evening was a success. We were pleased to see such a crowd.

DUNDALK

A disastrous fire in town was narrowly averted on Saturday, when smoke was seen coming from the cellar of Russell Bros. hardware store. A couple of little 5 year old lads found some matches and tested them on some rubbish at the rear of the store. The fire worked its way through a cellar window and was burning close to a large coal oil tank in the cellar when discovered. It was caught just in the nick of time. An impressive caution would be good for the boys.

The signing of the Peace Treaty was fittingly observed on Sunday evening in Dundalk when at the call of Reeve Russell a Thanksgiving service was held in the town hall attended by a large number of citizens. The Band gave a short sacred and patriotic program from the balcony before the opening of the meeting.

A hearty welcome home was given at the depot on Wednesday night to bandsmen W. L. Rundle and W. Claridge, and on Monday night to Bandsman Vern Russell. Dundalk's newly organized Citizen's Band was at the station on both nights and also a large number of citizens. These boys were formerly members of the local band and enlisted in the 134 h battalion (Kilties) band Toronto, and were overseas nearly three years.

Hon. Dr. Mitchell and wife arrived from Weyburn, Sask, to spend the hot months at their summer home at Wasaga Beach. They motored a distance of 2209 miles, coming east through the States.—Herald.

SOURCES OF PLATINUM.

Ninety-five Per Cent. Came From Russian Before the War.

The state of affairs in Russia makes the discovery of platinum in the Serrania de Ronda, in the south of Spain, announced in a special memoir issued by the Geological Institute of Spain, specially interesting. The rocks in this region were studied because of their similarity to the platinum-bearing rocks in the Ural Mountains. The Ural deposits yielded in pre-war days about 300,000 ounces (troy) per annum—about 95 per cent. of the world's yearly output. In 1916 this figure had fallen to 86,000 ounces. Platinum has also been found in some quartz deposits in the Ober Rosbeck district of the Taunus Mountains, Germany, and these deposits are being worked. The chief source of the Entente supplies is now presumably the mines in Columbia, where the metal was first discovered in 1735. Their output is comparatively small; in 1916 it was 25,000 ounces, rather more than double what it was before the war. Other possible sources of supply are the river gravels in Southeast Borneo, where further prospecting is required, and various districts in North America, more especially Sudbury, Ontario, and the stream placers in Alaska, which are being investigated by the United States Geological Survey. Considerable activity is also reported in the Similkameen and Tulameen districts in British Columbia, which are the chief localities of platinum production in Canada. New South Wales has produced some 2,000 ounces in the course of the last five years.—Science Progress.

Advertizing His Creed.

A vegetarian whose family was out of town went to breakfast at a restaurant and took a seat next to a stranger. The vegetarian took occasion to advertise his creed by telling the stranger that the human diet should be strictly vegetarian. "But," replied the stranger, "I seldom eat meat." "You just now ordered eggs," said the vegetarian. "An egg is practically meat, because it eventually becomes a bird." "The kind of eggs I eat never become birds," answered the stranger. "Impossible!" cried the vegetarian. "What kind of eggs do you eat?" "Principally boiled eggs," said the stranger.

T FISHER - -PROPRIETOR

Do your share in the "Brighten Up—Paint Up" Campaign.

We want to have the cleanest, neatest and best looking town in the Dominion, and so we hope that every citizen will do his share to fix things up around his own place. Clean up back yards and front yards; remove all old rubbish; keep the grass tidy and well cut; paint your house if it needs it; paint the fences and outbuildings. Take a keen personal pride in your own property and by so doing help your town to look its best.

The regular use of paint is an economy. Properly painted buildings keep in good condition and save expensive repairs as the paint protects them from the wear and injury of the weather. Well painted buildings are a source of pride to the owner and add greatly to the selling value of the property.

We are headquarters for all "Clean Up—Paint up" materials as well as paint. Drop in and see us and we will take care of your requirements. Our goods are right in quality and right in price.
