"Breezy music" to help you keep cool

"Keep your mind off the heat," say the doctors. "That's the way to keep cool."

With a Victrola on your porch and some happy-hearted, light-footed music playing, it is quite possible to forget all about the heat.

Victrola Easy Terms

If you say the word, we will send a Victrola to your house today on such easy terms that you will never miss the money.

Victor "HIS MASTER'S VOICE"

—but what Sugar?

MANY women, when they think of Sugar, are inclined to let their interest dwell upon the matter of price rather than upon quality. But we who make Sugar, and the grocer who sells it, know there is something more important about Sugar than the price. We want *you* to learn about Sugar Quality. The best way to obtain a realization of how good a sugar can be, is to try a dollar's worth of

DOMINION CRYSTAL SUGAR

Grocers will substantiate all we say about its quality—they will tell you it is a matter of pride with them to be able to offer a Sugar so good. Most grocers have it in the popular 20-pound bag, as well as in barrels. Specify "Dominion Crystal" next time you order Sugar.

We are sending samples of our sugar, together with a few Exceptional Recipes, to many of the homes in this vicinity. If you have failed to receive a sample, write our Chatham office, and one will be promptly sent to you.

DOMINION SUGAR COMPANY, LIMITED, CHATHAM, ONTARIO

REFINERIES AT WALLACEBURG, CHATHAM AND KITCHENER

When it became definitely known that H.R.H. the Prince of Wales would open the Canadian National Exhibition this year the management at once got into touch with the official photographers in London and requested a profile photograph of him for reproduction on the Victory Year Medal to be awarded to the winners in the Agricultural and other sections of the Big Fair. The photo shown above was received after considerable delay, and immediately a cable was rushed back to this effect:

"A mistake has been made. An official picture is desired. One you sent shows the Prince without hat or coat and with khaki shirt collar turned in. Charming deshabille, but hardly dignified enough."

Then came the answer:

"Sorry you dislike it. It's the Prince's favorite picture, taken with the Canadians in France and in every sense official."

And that is the reason why the People's Prince will appear on the Canadian National Exhibition 1919 medals, hatless, coatless and in the careless attire of the Fighting Man in France. He will open the Big Fair on Monday, August 25th.

The Canadian Pacific Railway Company has entered suit against the Cataract Electric Light & Power Company, Ltd., for an injunction restraining defendants from permitting an electric current to be conducted across the C. P. R.'s right of way at or about mileage 27.2, Orangeville subdivision. The Railway Company seeks to have the wire removed and are also suing the defendants for damages for trespass.

Master Ed Lucas, who lives with Mr. L. A. Matthews, had his head badly cut last Thursday afternoon. The young lad was leading a cow when the animal turned quickly and threw him from his feet. His head struck a stone and a bad gash was the result. Fortunately Mr. Matthews was close at hand and rushed the boy to Dr. McCullough's office where the wound was dressed. Sixteen stitches were required to close the wound.—Chatsworth News.

SEE The surrender of the German Fleet Versailles Castle—Victory Arch. Allenby's entry into Jerausalem.

And a score of other extraordinary features
THE GREATEST EXHIBITION OF ALL TIMES

Trimming and Staking Tomatoes.

This method of handling tomatoes has come into very extensive use in the past few years among the commercial market gardeners, owing to the high price of land and backyard gardens. The plants as a rule are set two feet apart each way and after planting are given one cultivation. The sticks are then set, driving them down about a foot into the ground and leaving from five to five and a half above the ground. These sticks may be made from mill edgings, saplings or anything else of a similar nature about one and a half inches square and strong enough to hold the plants when the fruit is fully grown. After driving the sticks and tying the plants to them the ground should be covered from four to six inches thick with very strawy manure, as a mulch. This mulch will keep the moisture in the ground and, at the same time, remove any necessity for cultivation and other disturbance of the roots. In growing tomatoes on the single stem, such as is used in this method, all side branches which appear where leaf stems join the main stem of the plant are removed as quickly as possible. If they are allowed to grow it will take away very valuable plant food from the growing plant. The plant should be tied every eight or twelve inches to the stake and when they have reached the top are cut off.—A. H. MacLennan, Ontario Vegetable Specialist.

SOLID LEATHER PLOUGH BOOTS

Just the kind for hard wear and solid comfort for spring and summer wear. TRY THEM.
