CABLE NEWS.

London, Nov. 25.—The Olympus, which left Liverpool for Boston to-day, took $100,000 in bullion.

The steamship Sarmatian has been chartered by the British Government to convey a regiment to the Gold Coast.

Southampton, Nov. 25.—The steamer Weser, from New York, has arrived.

London, Nov. 26.—Later despatches have been received from Gen. Wolsely, commanding the Ashantee expedition. They condemn the native auxiliaries as worthless. The Ashantees are in full re-retreat. Their main column, however, is within easy march of the British advance, yet the General is unable to overtake and attack them, owing to the tardiness and cowardice of his native allies. He complains of the humiliating position in which he is placed, in consequence of being obliged to depend on such help.

The *Times* this morning speaks hopefully of a pacific solution of the Virginius question

The *Daily News* says the rumored *ultimatum* of the United States would appear to be equivocal to a declaration of war.

Moville, Nov. 26.—Arrived, the steamship California, from New York.

Queenstown, Nov. 26.—Arrived, the steamship Spain, from New York.

FINANCIAL AND COMMERCIAL.

London, Nov 26, p.m.—Consols, for money, 93; for account, 93⅛. 1865, old, 93½; new fives, 51¾. Erie, 37¼.

London, Nov. 26.—Two hundred and fifty thousand dollars in bullion was shipped from Southampton for New York yesterday by the steamship Mozelle.

NEW YORK DESPATCHES.

New York, Nov. 24.—A Washington special represents Admiral Polo, the Spanish Minister, as saying, in an interview last evening, that there has been no insult done or intended to the American flag, because the Virginius was no more entitled to it than to the flag of Venezuela; that for three years never for once during all that time having been in an American port; that there is ample proof that she is owned by the Cubans; that she obtained her papers on fraudulent pretensions, therefore they are void; that it was no mere assumption on the part of the Santiago authorities that the Virginius prisoners were filibusters, as they knew it to be a fact; that General Burriel simply carried out the sentences of a regularly constituted Council of War. Admiral Polo further expressed the opinion that while the situation was grave, there would be no war unless it was brought on by the senseless clamor of a few.

Philadelphia, Pa., Nov. 25.—So far as the Philadelphia Navy Yard is concerned no orders have as yet been received for a suspension of work. On the contrary, the work on hand is not only being pushed to completion, but fresh orders have been received. To-day Admiral Porter made a tour of inspection among the vessels at the yard. A despatch was received ordering the despatch boat Pinta to proceed immediately to sea.

New York, Nov. 26.—The *Herald's* Washington correspondent who yesterday telegraphed that orders had been issued to stop all extra work in the navy yards now telegraphs that the information imparted to correspondents in Washington during the past week has been but a series of positive statements contradicted by positive denials of what the warlike purpose of the government really meant. It is now beyond concealment that every effort is being put forth in anticipation of actual hostilities with Spain. The secretary of the navy last evening received information which quickened if possible the activity of his department in preparing for the crisis. Orders, particularly and plenary were issued by the secretary to the chief of the bureaus to at once put the navy in the best possible condition.

Per contra, a *Times* double-leaded editorial, which reads as if it were semi-officially inspired says: "We have reasons to believe that the negotiation with Spain has assumed a shape which places the prospect of war at a much greater distance than was the case yesterday. The Spanish Government has, we believe, made known its willingness to surrender the Virginius and salute the flag and deliver up the survivors among the crew and passengers. In short, to comply substantially with the demands of the United States Government, but it thinks that the question whether or not the Virginius was really an American vessel should be decided first. Upon this latter point the Government is not likely to recede from its original position, namely, that the fact of the Virginius carrying duly certified papers and sailing under the American flag must be accepted as *prima facie* proof that she was an American vessel.

New York, Nov. 25.—Arrived, the steam ships Freiza, from Hamburg, Olymphia, and Victoria, from Glasgow,

Commercial.

Chicago, Nov. 25.—Receipts hogs, 45, 673 shipments 5,767.

The Grits had a meeting at Riversdale on Wednesday, to make preparations, we suppose, for the reception of Mr Blake. We hope they agreed to submit g few questions to him about his change of views in regard to the number of ministers required to form the Dominion Government, his frequently repeated statement that he would not take office, and what the Dominion Government purposed doing with Riel. It is very impertinent, we know, to even suggest the putting of questions to the great Mr Blake as if his actions were to be governed by those of common people. Still he might for once lay aside his egotism and answer such questions as he himself put to the late Government.—*Bruce Herald.*
