THE HOUR IS STRIKING.

The hour is striking. The day if the "Home Community" is here. The same hour that strikes the doom of the congested metropolis strikes also the nation-wide slogan of "Back to the Home Town." The hour is striking. And the people of ten thousand communities know it. YOU cannot fail to hear it. And you will do YOUR share in helping to usher in the greatest era of prosperity this continent has seen. YOUR co-operation is needed to make this prosperity complete—to make it go ALL the way round.

GERMAN EMIGRATION TO CANADA

Society Formed in Germany to Help Teutons Settle in Dominion.

A despatch from London says:—Germany, having had little success against the Canadians on the western front, is going in for peaceful penetration of the Dominion itself after the war. A society for the encouragement of Teutonic emigration to Canada has been formed in Berlin, and its secretary has naively written to the Canadian immigration authorities in London to ask when operations may begin. Until the peace treaty was ratified by the Canadian Parliament, German immigration was forbidden as was all other Continental immigration, in fact.

That a large influx of German emigration to Canada may be looked for is to be inferred from a statement made by Sir George McL. Brown, of the Canadian Pacific Railway. As a result of a visit to the Continent, he predicts that Canada may have as large an influx of selected German immigrants as she desires if she wants them. The same is also true of France, and more still, of Belgium. Holland and Scandinavia also offer many prospective settlers. Such immigration would no doubt be encouraged, but a delicate question that Canada will have to consider will be that of the recruitment of her citizenship from Southern Europe, which also, says Sir George Brown, promises to be very large.

CANADA WILL INVITE BELGIAN KING AND QUEEN

A despatch from Ottawa says:—The Canadian Government will extend an official invitation to the King and Queen of Belgium to visit Canada incident to their forthcoming visit to the United States.

There are 782 varieties of Arctic flowers that have but two colors, white and yellow.

LUXURIES OF AERIAL JOURNEY

British Government Gives Capitalists a Trip in R-33.

A despatch from London says:—The airship R-33, sister ship of the R-34, returned on Thursday night from a tour to Amsterdam and Paris and over the French and Belgian battlefields.

The ten passengers on the R-33 when she left Palham included Gen. Maitland, representative of the Air Ministry; a French attache, Holt Thomas, Benjamin Guinness, James Dunn, and other capitalists, whom the British Government hope to interest in the commercial side of aviation as possible purchasers of airships.

The menu aloft consisted of a breakfast of eggs and bacon, hot coffee and tea with toast. For luncheon, cold lobster, roast partridge, potatoes and French beans with iced pudding. For dinner hot soup, salmon trout, roast lamb, beans, potatoes, jam, omelet and coffee. The meals were served from a small electric stove. For the capitalists making the voyage, extra blankets and coats were provided.

Nov. 11 League of Nations Day In Britain and the Dominions

A despatch from London says:—David Lloyd George, the British Prime Minister, in a speech to be delivered in the Guildhall, October 1st, on behalf of the League of Nations Union, will inaugurate a campaign which is to be carried on throughout the country during the Autumn, ending November 11th, with demonstrations in every town and city in the United Kingdom. It is expected by the promoters that the movement will extend to other countries, and that November 11th will be made League of Nations Day, which also is "Armistice Day."

Mirth is a paying investment—because its stock is never watered with tears of regret.

Make Cheap Woods Durable.

Danish scientists have perfected a process for treating cheaper woods producing the effect of several years that makes them more durable, chemical action in twenty-four hours of drying.

Another source of bearing knock is the flanges of the crank shaft bearings, which are flattened by crank shaft thrust. In this case it does not pay to try to fix the old bearing flanges. It is better to get a new bearing.

TURN ON THE HOSE.

H.R.H. Took a Flyer in Oats; Lost $375 on Grain Exchange

A despatch from Winnipeg says:—While watching the large blackboards with their hundreds of ever-changing figures, and listening to the bedlam of the many traders endeavoring to sell on the Grain Exchange, H.R.H. the Prince of Wales purchased 50,000 bushels of October oats at 83½ cents. Immediately the deal was closed, the market fell off ⅛ cent to 83⅜, October delivery eventually closing at 82¼, making a drop of ¾ cent after the Prince had made his speculation, which proved a temporary loss to himself of $375. The broker who sold to His Royal Highness promised him a profit of at least $2,000 on his return from the West.

And So On.

The fond parents had striven valiantly for some considerable time to teach little Effie to say the letter "A." At last the father, giving up in disgust, left the room.

"Now, why don't you say 'A'?" inquired the mother, as she took the child upon her knee.

"Because after I say 'A' father and you will expect me to say 'B.' " was the unexpected reply.

The wise use of cover crops will conserve the fertility of the soil and better its physical condition in many cases. Every farmer should consider their possible advantageous use at this season of the year.

Every cent we pay out for feed for creatures that do not give it back in good, honest service, is so much toward the fare on the road to the poor house.

PRINCE RIDES BUCKING BRONCO

Cheered to the Echo by the Cowboys and Cowgirls of Saskatoon.

A despatch from Saskatoon says:—For the first time in the history of Saskatoon, the Heir to the Throne visited here on Thursday and was accorded a welcome which has never before been witnessed in the district, fully 50,000 people, farmers from the districts for miles around, journeying in to pay honor to their future King.

After being publicly received by Mayor F. R. McMillan, his Royal Highness decorated a number of returned soldiers with medals for gallantry. A visit was then paid to the University, where an address was delivered by Sir Frederick Haultain.

Again passing through cheering crowds, his Royal Highness was driven out to the Exhibition grounds, where he witnessed a stampede, something which the Prince had never seen before. A tremendous cheer from fully 20,000 people greeted the Royal party, who witnessed the performance from an espcially erected Royal box. Riding bucking bronchos, steer throwing, wild horse riding, lassooing wild horses, all kept the Prince greatly interested. When the performance was over and his Royal Highness was about to leave, he asked permission to ride one of the bucking broncos, and, amid the wildest cheers, the Prince rode down the track, surrounded by cowboys and cowgirls. He then had his photograph taken on the horse, surrounded by his bodyguard.

ORGANIZE FARMERS' CLUB IN TORONTO

Institution Similar to One in London, England, Being Established.

A despatch from Toronto says:—Farmers, live stock men and those connected with allied industries are to have a club in Toronto. It is to be located in the centre of the city, and is to be known as the Yeoman's Club. It is to be conducted along the lines which have made a success of the Farmers' Club, in London, England, which is the centre that farmers and breeders in England, as well as from all parts of the world, when in the old country, gravitate to.

Plans are at present under way to form the company, which will be capitalized at $50,000. There is to be $10,000 of paid-up stock, and upwards of $4,000 worth of stock has already been sold. Shares are to be $25 each, and no member will be permitted to purchase more than five shares.

Leaders in the agricultural life of the Province have felt for some time the need of such a club in the capital of Ontario, which will be a social as well as a business centre. It is intended that it shall have a complete agricultural library, including herd and crop books, a committee room for the use of its members, and a lounge room.

As far as is known the only club of the kind anywhere in the world is the one in London, England. It has proven a real boon, not only as a social centre, but it is the meeting place for live stock buyers and sellers from all parts of the world.

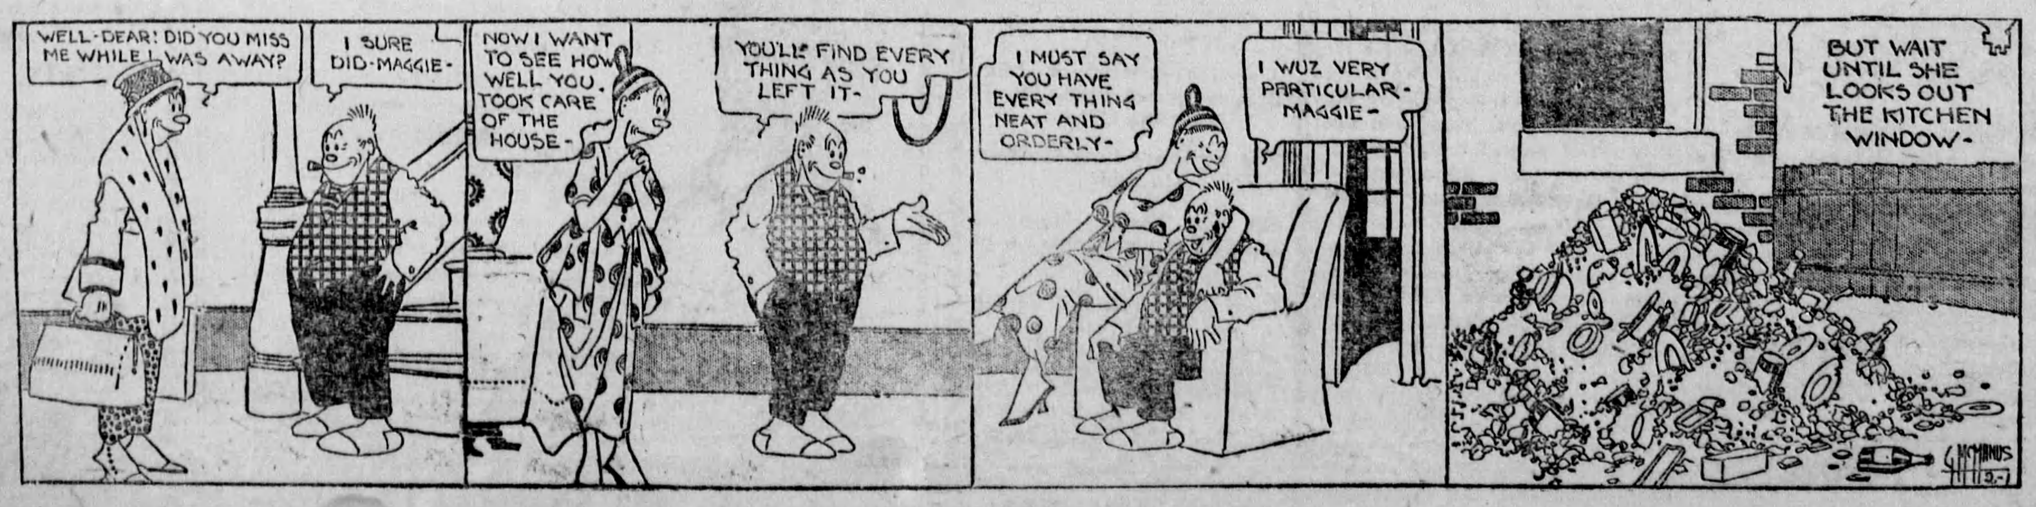
GIVES ORGAN RECITAL ON EIGHTIETH BIRTHDAY

A despatch from Sandy, Bedfordshire, says:—Mrs. Mary Kemp, the oldest woman church organist in England, and probably in the world, celebrated her eightieth birthday by giving a recital in the parish church.

Her fingers are flexible, her eyesight marvellous, and she played the great masters with the vim of a woman half her age.

Her grandfather, Sam Taylor, the village saddler and harnessmaker, taught singing to the countryside, also the clarionet and 'cello. She was a favorite pupil of James Turle, late organist and choirmaster of Westminster Abbey.

CANADIAN PARLIAMENT APPROVES PEACE TREATY

A despatch from Ottawa says:—The House of Commons has formally approved the terms of the treaty of peace between the Allied and associated powers and Germany and of the League of Nations covenant. The approval of both Houses of Parliament has thus now been given and the Government is in a position to advise the King to ratify the pact in the name of the Dominion.


BRINGING UP FATHER
