Madrid, Oct. 12.—The following is the substance of what was said on both sides at the interview between the American Minister and the Duke de la Torre. Mr Hall, addressing the Duke in the name of the United States, congratulated the Provisional Junta and the people of Spain on a success so marked in a revolution of such grand proportions. He was happy to return the greeting which Spain gave to the United States on their entrance into the family of free and sovereign peoples. The relations between Spain and the United States had always been friendly. Under the present circumstances all his efforts would be exerted to augment the friendship between both peoples. The Duke de la Torre in the course of his reply said that that amid the ruins of the old rule, a structure would be formed which he believed would merit the approval and sympathy of the United States. Spain now desired and needed the support of all free nations, and that of the American government was highly esteemed.

To the Electors of the County of Frontenac—

GENTLEMEN: The death of your late member, Sir Henry Smith, having rendered vacant the representation of the County of Frontenac in the Legislative Assembly of Ontario, I am induced to think that the offer of my services might be acceptable to the Electors. Long identified with the County interests, and having as an old member of the County Council, and as Warden, become thoroughly conversant with your local affairs, I am, I think, in a position to be of service to you in the Legislature. Many of you too have had knowledge of me in my business transactions, and you can thus in both respects form an opinion of my fitness for the honour which I seek at your hands.

Agriculture will have in me a warm and active friend, and I shall always be ready to lend my aid to all measures having its advancement in view.

The promotion of the settlement of the country I shall endeavour to further by seeking to have the Back Roads completed, by endeavouring to secure the passage of a generous Homestead Law, and the adoption of a more liberal policy with respect to Free Grants of Public Lands.

Education has been greatly fostered in Canada for many years past by grants of public money. I believe that most good can be done with such grants by adopting the channels which the various denominations of Christians among us have selected for the expenditure of their own means, and I will advocate the continuance of the grants to the several Colleges in Ontario which they have hitherto received.

The present Government of Ontario has met the just expectations of the people in the economical administration of public affairs, and is entitled to my cordial support.

I shall endeavour to see you as far as time will permit, between now and the Election, and will be ready to explain my views on all public questions.

ART OF ADVERTISING.—Horace Greeley, of New York, says:—The most successful business men in this city are those who have advertised liberally and constantly. A small advertisement constantly appearing is better than a display column occasionally.

EFFECT OF ADVERTISING.—It is amusing at times to observe the stores of the merchants who don't advertise; to see the anxious proprietors looking into the streets and see the people go by, wondering why they don't come in, while the stores of their neighbours who do advertise are thronged with customers. Some people will learn by observation, others will not.—*Daily Palladium.*
