W. H. THURSTON, EDITOR

A WORD TO THE WOMEN.

Two votes will be taken on the 20th of October—one on the temperance referendum and the other to elect members to the Legislature. This is the first election in Ontario when all women may vote. It is important for every woman to remember when voting on election day that she should receive the referendum ballot and the ballot for members to the Legislature. Answer every question on the referendum ballot and mark the legislative ballot for your choice of candidates.

PORTLAW

Victor, the little son of Mr. and Mrs. George McMaster, met with a bad accident. He was standing behind one of their horses in the stable when the animal kicked him full in the face breaking his jaw and inflicting other severe injuries. The little fellow is doing as well as can be expected.

While Charley Wilkinson and two sisters were leaving home in a buggy, recently, one of the lines became detached from the bit, when the horse, becoming unmanageable, turned around, upsetting the buggy and throwing the occupants out. Charley sustained a severely sprained ankle but his sisters luckily escaped with little injury.

Mr. and Mrs. Thomas Wauchob of Toronto visited over Sunday with the former's sister, Mrs. Lewis Sheardown.

The following persons were up from Toronto and spent Thanksgiving at their respective homes : Pearl Watson, Viola Cornfield and lady friend, Mary Cornfield and Will Taylor.

Mr. and Mrs. E. Montgomery and two sons of Toronto visited at F. H. Thompson's.

Mr. and Mrs. R. McMaster of Flesherton visited recently with Mr. and Mrs. George McMaster.

Thomas Taylor raised a large barn lately on a cement basement. J. W. Haney and Robert Black were captains. Nobody hurt.

Thanksgiving service at Mount Zion church last Sunday was conducted by Mrs. Eagle in the absence of her husband preaching elsewhere. Her stirring, practical address was much enjoyed. While the collection was being received Mrs. L. Badgerow sprang a pleasant surprise by presenting as her thankoffering a beautiful individual communion service, which, it is needless to say, is fully appreciated by a grateful congregation.

Preparations are being made for the anniversary services to be held next Sunday, when Rev. Peter Campbell will preach.

Mr. and Mrs. D. L. Davidson and two children, Miss Agnes Bell and Mr. W. H. Pearson and Mr. T. Bell motored up from Toronto and visited at T. R. McKenzie's. All the party except Mr. Bell expect to leave for Modesta, Cal., next Wednesday, and were bidding adieu to friends here and in the Orange Valley Messrs. Pearson and Davidson are going into partnership in business in Modesta.

Better Stables for Bigger Profits
Cleanliness and order pay in any stable. Pay in healthy cattle. Pay in work done twice as quickly. Toronto Stable Equipment lightens chores, takes a lot of the nastiness out of stable work. Keeps cattle contented and in good shape. Lasts longer, too, because made properly.
Toronto Litter Carriers are of special importance. They make stable cleaning an easy, every-day job. Do the work in a fraction of the time, too.
Our book on stable equipment gives the correct ideas on stable fittings. Covers every phase of the subject completely. You will find both text and illustrations valuable. Write for this free book.

How to say "No!"
Mark Your Ballot with an X after Each Question under the word "No"

		YES	NO
1	Are you in favour of the repeal of the Ontario Temperance Act?		X
2	Are you in favour of the sale of light beer containing not more than two and fifty-one one-hundredths per cent. alcohol weight measure through Government agencies and amendments to The Ontario Temperance Act to permit such sale?		X
3	Are you in favour of the sale of light beer containing not more than two and fifty-one one-hundredths per cent. alcohol weight measure in standard hotels in local municipalities that by a majority vote favour such sale and amendments to The Ontario Temperance Act to permit such sale?		X
4	Are you in favour of the sale of spirituous and malt liquors through Government agencies and amendments to The Ontario Temperance Act to permit such sale?		X

Above is an exact reproduction of the Referendum ballot, showing the correct way to Vote in order to sustain the Ontario Temperance Act as it stands.
Everybody should study the four questions and realize exactly what they mean. Do not be misled by the insidious demand for "light" beer.
The beer of the ballot is 118% stronger than the Ontario Temperance Act now allows, and over five times as strong as the limit allowed for beer defined as non-intoxicating in Great Britain and the United States.
Answer Each Question
1. Unless you vote on every question your ballot is spoiled.
2. You must mark your answer to each question with an "X" only. Anything else would spoil your ballot.
3. Unless a majority vote "No" on question 1 the bars will be restored and the sale of all kinds of intoxicants permitted.
4. Unless a majority vote "No" on questions 2, 3 and 4 the Ontario Temperance Act will become almost worthless.
5. The only SAFE course is to mark your ballot as shown above.
"No!"—Four Times—"No!"
No repeal; No government beer shops; No beer saloons; No government whiskey shops.—Four X's, each under the word "No."
Ontario Referendum Committee
JOHN MACDONALD, Chairman D. A. DUNLAP, Treasurer ANDREW S. GRANT, Vice-Chairman and Secretary

Let—
Ontario's Golden Era
Continue
PROGRESS—PERFORMANCE—PROMISE
IF we have given worthy service during the trying time of war, may we not be relied upon to serve the nation faithfully and well in hastening the time of still greater prosperity and happiness? As we have begun, so we will continue; fearless in the discharge of duty and ever alert in the service to the people. Conscious of our shortcomings, and grateful for the opportunities we have had to serve our Province, we submit our record with confidence to the electors for their consideration and approval, and ask from a united people a mandate to carry on the Government of this Province.

WAR WORK
Ontario gave in men 232,895; in contributions $54,532,188; to Victory loans $540,465,550. Ontario provided 50 per cent. of Canada's war effort. The Ontario Government spent in war work over $10,000,000; maintained in England the most efficient military hospital in Europe; furnished club houses for the soldiers in London and Paris; made gifts of food and guns to the Mother Country; made large grants to the British Red Cross, Belgium, Serbian relief and other worthy patriotic objects. Ontario's war effort has made the name of Ontario resound in every corner of the world.

EDUCATION
Ontario's educational system is designed to provide the most efficient training possible for the boys and girls who are to become the future citizens of the state. Under the leadership of the Minister of Education no expenditure has been denied to accomplish this purpose. Generous grants have been made for agricultural, technical and vocational training; returned soldiers are encouraged to enter the teaching profession; teachers' salaries have been raised and a superannuation scheme inaugurated. This year nearly $4,000,000 will be spent on education in Ontario.

HYDRO-ELECTRIC
Hydro is to-day the most extensive public-ownership enterprise of its kind in the world. Since its inception Hydro-Electric has saved to the consumers of electric power in Ontario over fifty millions of dollars. Hydro displaces annually 5,000,000 tons of coal. Hydro develops and distributes 350,000 horse power to over 230 municipalities, 175,000 domestic consumers and 6,000 customers for power. The Queenston-Chippewa undertaking will provide an economical development of 400,000 horse power, and the prospective ultimate development in the whole Province is over 1,000,000 horse power.

AGRICULTURE
The agricultural industry in Ontario is in a prosperous and thriving condition. Appropriations in 1904 amounted to $475,000; in 1919, $1,675,000. Last year the value of the farm products of Ontario was $550,000,000, and the value of the combined farm assets was one and a half billion dollars. Within the last three years ten thousand farm mortgages have been paid off. Encouragement has been extended to every branch of the industry, education has been fostered, and social conditions have been improved. Agriculture has receive the "earnest and unremitting attention of the Government."

FINANCE
In 1904 the income of Ontario was $4,464,000; in 1913 it was $11,188,302; in 1918 it was $19,270,123. This has been accomplished without resorting to direct taxation—apart from the war tax, which has been repealed. Out of this revenue the Government has returned to the people in larger grants, $3,807,000 for Education; $1,676,235 for Agriculture. The public services have been enlarged and ample grants have enabled important public duties to be undertaken.

HIGHWAYS
Good roads add wealth and comfort to rural life. The highway improvement programme of the Ontario Government is applied to both urban and rural districts. A complete system of roads, including provincial roads, provincial county roads, county roads and township roads with a mileage of 12,500 miles, has been worked out and will be constructed. The entire motor license revenue, with a large amount added, will be spent annually on this work.

LABOR
Ontario's industrial leadership in Canada has been maintained by broad and effective labor laws. Under the Workmen's Compensation Act $10,000,000 has been paid out in awards. Special safeguards have been provided for female and child labor. A minimum wage in Ontario is assured, and a direct representative of Labor will sit in the Cabinet. Free employment agencies have been established, and technical education has been encouraged.

HEALTH
Ontario's public health service is not excelled on the continent. Public health education, child welfare, sanitary engineering service, and the free distribution of antitoxins and serums have conserved life and prevented epidemic. A scheme of pensions for mothers is to be established. The Provincial Board of Health supplied all the typhoid vaccine used by the Canadian troops in the war. This feature of the work has brought about a saving of over $100,000 a year to the people of the Province.

As a war measure the Ontario Temperance Act was so passed, suspending for the duration of the war the retail sale of liquor. The promise was given that as soon as the war was over the whole question of the character of the liquor legislation of Ontario would be submitted to the people by Referendum, and the will of the people would prevail. *This promise is now being fulfilled.*

PROMISE
Greatest possible assistance to Agriculture—Faithful enforcement of the Referendum—Support of Hydro-Electric; cheap light and power for the farmer—Convert railway branch lines into Hydro radials—Good roads in every part of Ontario—State pension fund for mothers—Direct representation of Labor in the Cabinet—A minimum wage—Housing accommodation—Legislation implementing the findings of the National Industrial Conference—Consideration to returned soldiers with Cabinet representation—Educational progress, technical and agricultural instruction—Improved transportation in Northern Ontario—Timber conservation—Encouragement in mining development—Enlargement of Ontario's free public health service.
