HARDWARE - DEPART.

Sporting Requisities—
Shot Guns, Rifles and
Ammunition of all Kinds.

Two prominent Ontario politicians have passed away during the past week in the persons of H. Cargill of Bruce and Dr. Landerkin of Hanover. The latter had endeared himself to very many by his genial, laughing disposition which was his strongest point during the many political campaigns through which he passed. As a matter of fact the Dr. had no political enemies—only opponents. His recent appointment to the Senate was recognized by all as a fitting tribute to a long and valuable life in the field of politics, and the regret is universal that he did not live longer to enjoy the honor and more remunerative, though less active, life of a Senator. The Dr. was a welcome visitor at all newspaper offices within his constitueney, irrespective of party, and his death is regretted by all as that of a friend.

The Sault troubles will, we have no doubt, be straightened out in time, but the tangle is a bad one. All the workmen, however, have been paid off, public sentiment making it necessary that the government should take action by guaranteeing payment of wages. In this connection we will say that it is a great pity Canadian capital cannot find a way of taking over this great plant and making of it the great Canadian institution it ought to be. The sole, or at least most important, cause of failure was too much developement without waiting for plants already erected to earn sufficient to aid in further developement. Everybody now knows that Mr. Clergue as a promoter stands in the front rank, but the knowledge that he is a poor manager came too late to save the shareholders in one of the most magnificent industrial concerns that has ever found footing on this continent. Every person who has seen these works and knows their possibilities exercises strong faith in their ultimate success as moneymakers for those who own stock in the to-be reorganized company. Again we say, it is a great pity if Canadians cannot retain it for themselves.

Township Council

Artemesia Council met in the town hall on Monday, all members present, the reeve in the chair. Minutes of last meeting read and confirmed. The several bonds of collectors for 1903 were presented, as also renewal receipt of the London Guarantee Company for treasurer's security.

The R. T. of T. had a Royal time at their last meeting. Mr. W. Mulholland, of Toronto, who has charge of the propagation of the insurance department, was present and enlightened the council on many points. His racy remarks were timely and much appreciated. The debate, "Resolved that the cow is of more benefit to mankind than the horse," was an interesting feature of the evening. The affirmative was upheld by Mrs. H. Wood, Miss Lila Love and your humble servant, while the merits of the horse were expatiated upon by Messrs. Fred Pedlar, John McKee and S. Sheardown, jr. The judges were Mrs. W. H. McNally, Miss Annie Sheardown and Mr. Richard Allen, who gave their decision in favor of the affirmative.

P., a week ago last Saturday with resisting a constable in the seizure of a threshing outfit, was up on demand before the same magistrate last Saturday evening. Shand was committed to stand his trial in Owen Sound and was taken by Constable Sharp to the County gaol that evening. At the depot the crowd gave him an encouraging cheer as he boarded the train. There is considerable sympathy felt for Shand in the neighborhood where he has been threshing season after season.—Herald.
