W. H. THURSTON, EDITOR

Last fall a flock of turkeys was stolen from the farm of Angus Lang of the 12th con. of Eldersle. The theft was made during the night and it seemed as though the guilty party would escape the law. However, the police have been working on the case, and on Wednesday of next week at Chesley 18 persons have been summoned to appear before the magistrate in connection with the stealing. The case promises to be an interesting affair—Tara Leader.

At the Durham Council meeting on Monday night a grant of $500 was made towards the erection of a monument for soldiers. This is to supplement the private subscriptions already secured fo that puapose. Councillor Saunders opposed the grant without submitting the matter to a vote of the people, and he aed Councillor Murdock voted against the motion. The monument, Reeve Calder told the Council, had practically been arranged for and would cost in the neighborhood of $4000.—Chronicle.

Jazzerizing the Buzzer.

A newly designed triple tone electric bell yields a clear ring from one push button, a buzz from the second and a combined ring and buzz from the third. The buttons may be placed on three different doors of a house, or in office or shop the signals may be used for calling three different persons.—Popular Science Monthly.

He Knew Papa.

Bernice was just recovering from an attack of the flu and the first day she was able to sit up she said: "Mamma, I'm going to ask daddy to buy a tricycle." Her brother, who was playing in the room, spoke up: "Well, you'd better strike him for it right away, for if you wait till you gets well you mightn't get it."

Dolls Long Popular.

There is ample evidence that the use of dolls as an assistance to the operations of the young mind dates from the most remote times. Among the native tribes of Africa it was the custom of married women to carry a doll with them until they had a child, when the doll was discarded.

Can Absorb Much Poison.

Dogs and horses can take 10 times as much morphine in comparison to their body weight as man can. The pigeon can take 500 times as much, while a frog is unhurt by a dose a thousand times greater, weight for weight, than one which will kill a human being.

Got Him Guessing.

"I got my troubles," replied the new waiter. "When men have a friendly scrap about paying the check I can spot the right man to hand it to every time. But with women I make all kinds of fool mistakes."—Louisville Courier-Journal.

Listening In.

A western man after eleven years of experiments has invented a device that enables a user of a party telephone line to identify any other subscriber who may be listening to his conversation.

Agreed.

"We want more honest men in politics," exclaimed the reformer. "That's right," agreed the practical politician. "The more honest men we have in politics the less politics will cost."
