EXCELSIOR MINERAL

FIRE PROOF PAINT!

Manufactured by J. F. Brown, Litchfield, Herkimer Co., N. Y., and sold by HOLLAND, BROTHERS, sole Agents in Kingston.

THIS Paint is found in a gulf about six hundred feet below the surface of the surrounding country. When taken from its bed it presents a beautiful color, resembling mahogany, and is pronounced by the best judges of Paint to be far superior to the Ohio, or any other Paint in use. One of its important components being red oxyd of iron, the public will readily see that different colors are more readily brought out by mixing a less quantity of other Paints than if it were black oxyd, getting a livelier color at less expense, forming a perfect cement body. A large portion being silicia, it bids defiance to the action of the weather, and is a great protection against fire. All the colors may be got up from this composition, from a beautiful lead to jet black, with less than half the expense of the usual way, forming a harder coat, which is susceptible of a high polish, and may be used for the finest kind of ORNAMENTAL PAINTING.

This Paint is warranted proof against fire, water and weather, for painting on wood, brick, stone, iron, tin, or any substance exposed to the weather or water, and unchangeable in its color. It mixes readily with oil or composition, and is a beautiful dark brown. The longer and more severe the exposure, the harder the coating becomes, and the more perfect the shield against fire and water.—This Paint cannot be separated from the substance it covers when once dry, and is superior to any other for painting decks of vessels and roofs of buildings, only needs a trial to convince any one of its good qualities of protection against fire and water.

Certificate of analysis as follows: Silica 66, alumina 14,30, red oxyd of iron 9·11, lime 7,41, magnesia 1,87, potassa water and loss 1,31.

CERTIFICATES.—I hereby cetify that I have used J. F. Browne's Excelsior Mineral Paint, and cheerfully recommended it to the public as the most valuable Paint in use; being in its native state, a beautiful color for all outside painting, which may be changed to almost any other color, forming a harder coat than any other Paint in use, and I find it much cheaper than other Paint, as it requires less oil, and covers better.

H. W. LYMAN Painter.

German Flatts, July, 23, 1851.

This certifies that I have used J. F. Browne's Excelsior Mineral Fire Proof Paint, and tested its quality, and fifteen years' experience in painting I never have found any Paint that I could more cheerfully recommend to the public for painting all outsides of buildings, bridges, or railroad depots, or any other buildings exposed to weather, water or fire.

A By-Law.

To Provide for taking Stock in the Wolfe Island Railway and Canal Company.

WHEREAS it is desirable and expedient for the Municipality of the United Counties of Frontenac, Lennox and Addington to contract a Debt or Loan, by subscribing for Stock, to the amount of one Thousand Pounds, in the Stock of "The Wolfe Island Railway and Canal Company," for the purpose of assisting and enabling the said Company to construct a Canal across Wolfe Island, by which the City of Kingston will be brought into direct communication with the Rome and Cape Vincent Railroad, in the State of New York, and the general interests of these Counties thereby greatly promoted.

And whereas, in order to liquidate the said debt or loan, so to be created or contracted, and the interest thereon, it is necessary that a special rate, over and above and in addition to all other rates, for the payment of said debt or loan and interest within the time limited by the provisions of this By-law, should be levied annually (according to law,) on the rateable property of the said Municipality; which said amount, to be raised annually, will amount in each of the years 1852, 1853, 1854 and 1855, to sixty pounds; in the year 1856 to two hundred and sixty pounds; in the year 1857 to two hundred and forty-six pounds; in the year 1858 to two hundred and thirty-six pounds; in the year 1859 to two hundred and twenty-four pounds; and in the year 1860 to two hundred and twelve pounds.

And whereas the whole rateable property of the said Municipality, according to the assessment returns of the same, for the last financial year, ending on the 31st day of December, 1851, amounts (as near as can be ascertained,) to the sum of One Million Five Hundred and Seventy Thousand Pounds.

And whereas, as a special rate for the payment of the said debt or loan, and the interest thereon as aforesaid, the following annual rate in the pound upon the said rateable property, for the said respective years, namely: for each of the years 1852, 1853, 1854 and 1855, the sum of one one-hundred and tenth part of a penny in the pound: for the year 1856 the sum of one-twenty-fifth part of a penny in the pound; for the year 1857 the sum of one-twenty-sixth part of a penny in the pound; for the year 1858 the sum of one-twenty-seventh part of a penny in the pound; for the year 1859 the sum of one-twenty-ninth part of a penny in the pound; and for the year 1860 the sum of one-thirteenth part of a penny in the pound will be required to meet the payment of the said debt and interest in each year as it shall become due.

Be it therefore enacted by the Municipal Council of the United Counties of Frontenac, Lennox and Addington,

I. That the Warden of these United Counties do subscribe to the Stock of the Wolfe Island Railway and Canal Company, to the amount of One Thousand Pounds.

II. That Debentures shall be issued, signed by the Warden, and countersigned by the Treasurer, of the denomination of twenty-five pounds each, bearing legal interest, payable half yearly, to the amount of the said stock, debt or loan of one thousand pounds, made payable to the Treasurer of the said Company, and to be redeemable as follows:—£200 on the first day of January in each of the years 1857, 1858, 1859, 1860 and 1861, with interest on the first days of July and January in each year.

III. That for the payment of the said debt of loan and interest thereon, within the time as hereinbefore limited, a special rate be levied in each year on the said amount of rateable property within the aforesaid Counties, amounting in each of the years 1852, 1853, 1854, and 1855, to sixty pounds; in 1856 to two hundred and sixty pounds; in 1857 to two hundred and forty-eight pounds; in 1858 to two hundred and thirty-six pounds; in 1859 to two hundred and twenty-four pounds; and in 1860 to two hundred and twelve pounds.

IV. That for the purposes hereinbefore mentioned, the following annual rate in the pound for the respective years following, shall in the said years be respectively assessed levied and collected (in the same manner as the general rate of said Counties,) upon and out of the said whole rateable real and personal property in the said United Counties as aforesaid, namely: for each of the years 1852, 1853, 1854 and 1855, the sum of one one-hundred and tenth part of a penny; for the year 1856 the sum of one-twenty-fifth part of a penny; for the year 1857 the sum of one-twenty-sixth part of a penny; for the year 1858 the sum of one-twenty-seventh part of a penny; for the year 1859 the sum of one-twenty-ninth part of a penny; and for the year 1860 the sum of one-thirteenth part of a penny.

V. That this By-Law shall come into effect on the day after the day of the meeting of the Municipal Council, which shall be held with reference to the passing of the same under the provisions of the "Upper Canada Municipal Corporations Law Amendment Act of 1851," Section 16.

VI. That it shall be lawful for the Municipal Council of the said United Counties, by By-Law, to sell, transfer and dispose of the said Stock, to Subscribers, as aforesaid, in such manner as they shall see fit, provided that in no case shall such sale or transfer be made, unless the whole amount of principal money paid on account of such Stock be realized from such sale or transfer.

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant *Assurances on Lives*, whether single or joint, to sell *Annuities*, to purchase *Reversions* and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more reasonable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interest.

Of no other Life Assurance Company can it be said that *it invests all its funds in Canada*, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in whichever this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have been made, & it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the *Britannia* are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eight and Ninety Thousand Pounds, Sterling, per Annum, and of this the greater part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may choose for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an *immediate Bonus* by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not rendered void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a *bona fide* Creditor, the sum assigned will be paid without deduction; if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

A few more of the numerous Testimonials for the Hydropathic and Botanic Medicines.

I wish to state, for the good of all who may be suffering any illness, that my wife was dangerously ill last June, with a Sore Breast, which caused her neck and head to swell to an alarming extent, so that it appeared there was no help, after getting all the aid I could for her; but on being advised to apply to DR. LANKTREE, the first two days he had charge of her, he reduced all the dangerous swelling from her, and removed the Fever she had on that occasion. And a few weeks since, I was afflicted in my Chest and Head; and, foolishly, I let it run on until I was taken alarmingly ill with delirious fits; whereupon I was forced to apply to DR. LANKTREE, and by this time the complaint terminated in a severe Brain Fever; but I thank God that now, after a few weeks' treatment through his care and unremitting attention, I am now over it.
