A Broad Statement

This announcement is made without any qualifications. Hem-Roid is the one preparation in the world that guarantees it.

Hem-Roid will cure any case of Piles. It is in the form of a tablet.

It is the only Pile remedy used internally.

It is impossible to cure an established case of Piles with ointments, suppositories, injections, or outward appliances.

A guarantee is issued with every package of Hem-Roid, which contains a month's treatment. Go and ask your druggist about it. Sold by W E. Richardson, Flesherton.

A writ of summons has been issued by Messrs. Tucker & Cameron on the county of Grey, acting for Mrs. Jane Baxter, for $1500 damages from the county for a broken leg and other personal injuries sustained in a fall on the sidewalk alleged to have been brought about by reason of the snow having been bevelled down to a low an easy entrance to the walk into the court house. It is claimed by the injured woman, who recently received a fall while passing along Bay street, that her injuries were in consequence of the county officials having interfered with the travelled foot path. The county is not being sued because of any statutory liability, but because of its alleged liability as a private citizen in having interfered with the roadway. The question to be decided is somewhat unique in this section of the province, and the outcome of the suit will be watched with interest. The case may come up at the May sitting of the High Court. A representative of the Times discussed the matter with a member of the county council. He states that the county will undoubtedly fight the suit, and claims that if any person or corporation is liable for the condition of the walk it is not the county.—Times.

The Grand Valley Star says: On Monday morning Dr. Campbell, while near W. Kirkland's, watched a herd of five deer pass within forty yards of him. Unfortunately, the deer were being chased by dogs. Mr. Kirkland informs us that the dogs were running a fox and were just putting him out of the bush when the deer jumped out at the same time. Sly Reynard ran with them through the field, and when they all jumped a fence he stopped, hid till the dogs were past and turning tail put for dear life on his back tracks. The dogs were chased away and the deer took to the bush.

Mr. Alfred Ammerman, of Gleneden, has an enterprising duck, which commenced laying eggs the 6th of this month, regardless of the snow blockade and cold weather. Not only has this Normanby duck made an early start, but has kept it up and laid many eggs of first class quality. We can vouch for the quality because Mr. Ammerman brought us in half a dozen of the eggs to prove that he was not retailing any fish story.—Rep.

One comfort to be had from the hard winter is that the fruit crops may be more helped than hindered by it. In other seasons there have been spells of mild weather in January and February which have advanced the buds, then occured severe frosts in March and April which destroyed the buds. Thus far the conditions have been alright and the bearing wood of apple and pear trees is reported unimpaired.—Ex.
