EXCELSIOR MINERAL FIRE PROOF PAINT

Manufactured by J. F. Brown, Litchfield, Herkimer Co., N. Y., and sold by HOLLAND, BROTHERS, sole Agents in Kingston.

THIS Paint is found in a gulf about six hundred feet below the surface of the superincumbent earth. When taken from the bed it exists a beautiful color, resembling mahogany, and is pronounced by the best judges of Paint to be far superior to the Oil, or any other Paint in use. One of its important components is iron red oxyd of iron, the purest will readily see that different colors are more nearly brought out by one or less quantity of other Paints than if it were black oxyd, getting a brighter color at less expense, for in perfect combination. A large portion being silica, it has defiance to the action of the weather, and is a great protection against fire. All the colors may be got up from this compound, from a beautiful lead to jet black which is darker than half the expense of the usual way, forming a harder coat, which is susceptible of a high polish, and may be used for the finest kind of ORNAMENTAL PAINTING.

This Paint is warranted proof against fire, water and weather, for painting on wood, brick, stone, iron, tin, or any roofs more exposed to the weather, and the more perfect the coating, the more perfect the shield against fire and water.—This Paint cannot be separated from the substance it covers when once dry, such is its superior adhesive powers. Any person can use it, and no other paint is required, only a trial to convince any one of its good qualities of protection against fire and water.

Certificate of analysis as follows: Silica 65, alumina 11,50, oxide of iron 9 11, lime 7,41, magnesia 1,73, potassa water and loss 1,51.

CERTIFICATE.—I hereby certify that I have used J. F. Brown's Excelsior Mineral Paint and cheerfully recommend it to the public as the most valuable Paint in use, being as its native state, a beautiful color for all outside painting, which may be changed to almost any other color, forming a harder coat than any other Paint in use, and much cheaper than other Paint, as it requires less oil, and covers better.

HIRAM LYMAN Painter.

German Flatts, July, 23, 1851.

This certifies that I have used J. F. Brown's Excelsior Mineral Fire Proof Paint, and tested its quality, and fifteen years' experience in painting I never have found any Paint that I could recommend as I do recommend to the public for painting houses, outsides of buildings, bridges, or roofs subjected to any the buildings exposed to weather, water-proof.

A By-Law.

To Provide for taking Stock in the Wolfe Island Railway and Canal Company.

WHEREAS it is desirable and expedient for the Municipality of the United Counties of Frontenac, Lennox and Addington to contract a Debt or Loan, by subscribing for Stock, to the amount of one Thousand Pounds, in the Stock of "The Wolfe Island Railway and Canal Company," for the purpose of assisting and enabling the said Company to construct a Canal across Wolfe Island, by which the City of Kingston will be brought into direct communication with the Rome and Great Vincent Railroad, in the State of New York, and the general interests of these Counties thereby greatly promoted.

And whereas, in order to liquidate the said debt or loan, so to be created or contracted, and the interest thereon, it is necessary that a special rate, over and above and in addition to all other rates, for the payment of said debt or loan and interest within the time limited by the provisions of this By-Law, should be levied annually (according to law,) on the rateable property of the said Municipality; which said amount, to be raised annually, will amount in each of the years 1852, 1853, 1854 and 1855, to sixty pounds; in the year 1856 to two hundred and sixty pounds; in the year 1857 to two hundred and forty eight pounds; in the year 1858 to two hundred and thirty-six pounds; in the year 1859 to two hundred and twenty-four pounds; and in the year 1860 to two hundred and twelve pounds.

And whereas the whole rateable property of the said Municipality, according to the assessment roll of the same for the last financial year, ending on the 31st day of December, 1851, amounts (as near as can be ascertained,) to the sum of One Million Five Hundred and Seventy Thousand Pounds.

And whereas, a special rate for the payment of the said debt or loan, and the interest thereon as aforesaid, the following annual rate in the pound upon the said rateable property, for the said respective years, namely; for each of the years 1852, 1853, 1854 and 1855, the sum of one one-hundred and tenth part of a penny in the pound; for the year 1856 the sum of one-twenty-fifth part of a penny in the pound; for the year 1857 the sum of one-twenty-sixth part of a penny in the pound; for the year 1858 the sum of one-twenty-seventh part of a penny in the pound; for the year 1859 the sum of one-twenty-eighth part of a penny in the pound; and for the year 1860 the sum of one-twelfth part of a penny in the pound will be required to meet the payment of the said debt and interest in each year as it shall be due.

Be it therefore enacted by the Municipal Council of the United Counties of Frontenac, Lennox and Addington,

I. That the Warden of these United Counties do subscribe to the Stock of the Wolfe Island Railway and Canal Company, to the amount of One Thousand Pounds.

II. That Debentures shall be issued, signed by the Warden, and countersigned by the Treasurer, of the denomination of twenty-five pounds each, bearing legal interest, payable half yearly, to the amount of the said stock, taken in loan of one thousand pounds, made payable to the Treasurer of the said Company, and to be redeemable as follows:—£200 on the first day of January in each of the years 1857, 1858, 1859, 1860 and 1861, with interest on the first days of July and January in each year.

IV. That for the purposes hereinbefore mentioned, the following annual rate in the pound be for the respective years following, shall in the said years be respectively assessed levied and collected on the same manner as the general rate of said Counties,) upon and out of the said rateable real and personal property in the said United Counties as aforesaid, namely: for each of the years 1852, 1853, 1854 and 1855, the sum of one one-hundred and tenth part of a penny; for the year 1856 the sum of one-twenty-fifth part of a penny; for the year 1857 the sum of one-twenty-sixth part of a penny in the pound; for the year 1858 the sum of one-twenty-seventh part of a penny in the pound; for the year 1859 the sum of one-twenty-eighth part of a penny in the pound; and for the year 1860 the sum of one-twelfth part of a penny.

V. That this By-Law shall come into effect on the day after the day of the meeting of the Municipal Council, which shall be held with reference to the passing of the same, under the provisions of the "Upper Canada Municipal Corporations Law Amendment Act of 1851," Section 16.

VI. That it shall be law for the Municipal Council of the said United Counties, by By-Law, to sell, transfer and dispose of the said Stock, to Subscribers, as aforesaid, in such manner as they shall see fit, provided that in no case shall such sale or transfer be made, unless the whole amount of principal money paid on account of such Stock be realized from such sale or transfer.

BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the *Britannia* are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eight and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continual accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participation in the profits, and thereby secure *an immediate Bonus* by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, can not, under any circumstances, be afterwards called in question.
