POISONED

Rank Poison is created when Food does not digest, and that is when Sickness Commences.

If the man or woman who does not feel right, will at once look to putting the stomach right they will strike the right key—Every ache and every pain is a cry of poison, too much of which has been made in the process of converting food into nutriment. It may be the backache or sideache of the kidneys telling they are overtaxed and cannot filter the poison—It may be weight, pain or distress in the stomach that tells of fermentation and decomposition instead of digestion—It may be headache, dull, depressed, which tell poison has reached the fluid which surrounds the brain cells. The first cause is the same—lack of gastric juice to properly digest. ANTI-PILL, the Great System Treatment, is a new discovery which so acts on the mucous membrane of the stomach, a natural supply of gastric juice is assured. To prove the wonderful action of ANTI-PILL, you may have a free trial bottle by addressing Wilson-Fyle Co., Niagara Falls, Ont.

The Body of Joseph Fanning of Owen Sound was found by the section men on the railway track a short distance west of Thornbury. It is supposed that he had been walking from Meaford to Thornbury after dark and had fallen into a culvert of which he was unaware, striking his head against the timbers or the steel rail with such force as to cause instant death, as the cigar he had been smoking was still in his mouth when found. Deceased was about 27 years of age. Coroner Hurlburt is of opinion that the young man had been dead for a couple of days as the body was frozen stiff when found.

The first fire of the season in this neighborhood from lightning occurred Saturday afternoon when the electric fluid struck and set fire to the barn on the Traynor homestead, O. S. R. near Orchardville, and leased by John McEwen and his sons. The building was entirely destroyed with part of its contents, including two horses, cow, calf, two pigs, 1,500 bushels of oats, a quantity of hay and other feed. There was an insurance of $500 on the contents in the Howick Co. —Rep.

Why Catarrh Poisons the System.

The Catarrhal germ excites inflamation, offensive secretions are thrown off and pass into the circulation, contaminating the river of life and thus wreck the whole body. Every catarrh victim should use fragrant healing Catarrhozone, the surest cure for every type of catarrh yet discovered. Catarrhozone can't fail to cure because its vapor kills the germs and removes the cause of the trouble. Then it soothes and heals, stops the cough and relieves the stuffed up condition of the nose and throat. Tens of thousands have been cured by Catarrhozone which is guaranteed, Use only Catarrhozone. Complete outfit $1 00; trial size 25c.

A meeting of the directors of the Electric railway was held in Toronto on Thursday last, at which a proposal was made by Col. McDonald of Guelph to hand over their charter to a company which is now applying at Ottawa for a charter to build a road from Hanover to Lucknow. He stated that the C. P. R. are at the back of his company, and that they are prepared to build from Hanover to Lucknow, and possibly other sections, if they get the charter of the Huron and Ontario company. It was found by the H. & O. company that their option to Mr. May had not yet expired, and as that gentleman was present and expressed confidence in his ability to go on with the work, a compromise was effected by which Mr. May has until July to complete his arrangements If nothing is then done, Col. McDonald's proposal will be dealt with. Some doubt was and is felt as to the C. P. R. being really behind the Colonel's scheme. But there is hope of something being done before long, and in the meantime it is certain that the railway possibilities of this part of the country are attracting attention in influential quarters.—Bruce Herald.

Frank Hallam, who had just finished serving three months in Orangeville jail, was committed for trial at Hamilton last week on a charge of assaulting a boy named Smith last September and robbing him of $30.

The corporation of Orangeville has made an agreement to loan $15,000 to R. J. Dinsey and Christian Hertel, of Hanover, who propose to start a furniture factory in Orangeville.
