FLORENCE WHITE.
AN UNCHANGEABLE GLOSS WHITE PAINT,
For insides of Houses, Stores, Ship and Steamboat Cabins, which is the most durable and economical Paint yet known, being unaffected by darkness or impure air, which is the cause of Paint changing and turning yellow. It is also easily cleansed of dirt and smoke without injury to its surface.
It has been in use for the past three years, and has proved itself permanent beyond a doubt. The proprietor has full confidence in its remaining white and in good condition at least four times as long as common lead or zinc white paint. It has already attained a high character as the best paint, and is coming into general use for all nice white painting.
People are cautioned against impositions practiced by some persons in selling an imitation article under the same name, which is unfair and decidedly unjust, as they rob me of that which they cannot repay. I claim to have the best article yet invented. I do not wish to prevent others from producing a superior, but only ask that each shall stand on its own basis.
The genuine article, ready prepared for use, can always be had at my store, in neat packages of 10 and 20 lbs. each, and the liquid to thin it with, which requires about one gallon to 10 pounds of the White.
The first cost of this article, compared with white lead paint, is found to be but one quarter more, but being of greater body and fineness, it spreads further, dries and works well, and is not liable to crack. Directions for its use accompany the article.
Sold in any quantities by the proprietor,

BRITANNIA LIFE ASSURANCE COMPANY.
No. 1 Princes Street, Bank, London.
CAPITAL, ONE MILLION.
EMPOWERED BY SPECIAL ACT OF PARLIAMENT
4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the *Britannia* are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eight and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure *an immediate Bonus* by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not rendered void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a *bona fide* Creditor, the sum assured will be paid without deduction; if the Policy be not assigned the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to
