SHERIFF'S CHOLERA SYRUP IN CALIFORNIA.

THE following extract of a letter is from a gentleman of respectability, who has thoroughly tested the virtues of the above medicine, not only in this, but in other climates, also, and which goes to show its value to persons intending a journey through the various climates and sickly regions, where epidemic diseases cut off the Inhabitants by thousands;

Bath, March 1st, 1852.

DEAR SIR—As we owe a debt of gratitude to those who have been the agents in saving or prolonging our lives, I hope you will accept my most unqualified acknowledgments of the benefit which I have personally received from the use of your medicines. In 1849, before starting on the overland route to California, I purchased a stock of your medicines, and I have tested their efficiency under every vicissitude of circumstance and climate, both with myself and others, and not once have I known them to fail in producing the desired effect. Twice I had the Cholera, once the Cholera Morbus, once the Typhus Fever, and several times the Diarrhœa and Dysentery, of the most malignant kind. And whilst others were dying all around me, by the use of your medicines I have come safely through, and am happy to state that I am now in as sound health as ever I was in my life. And I would most sincerely recommend all those who intend going to the same country to procure a good supply of your Cholera Syrup, as I know it to be the most useful medicine ever taken for a majority of the diseases of that climate. In the summer of 1850, when the Cholera was raging in Sacramento, I have no doubt but that I could have sold one thousand bottles at ten dollars each.

Yours Respectfully,
B. S. BOOTH.

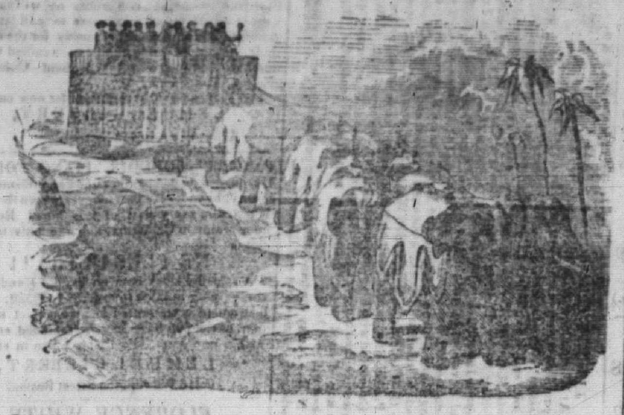
P. T. BARNUM'S



GRAND COLOSSAL MUSEUM & MENAGERIE.

THE largest Travelling Exhibition in the World, being a combination of all the most popular and unexceptionable amusements of the age—enlarged and improved for the Season of 1852.

A TEAM OF TEN ELEPHANTS will draw the great Car of Juggernaut.

A BABY ELEPHANT only one year old, and but 31 feet high, will carry upon his back around the interior of the immense Pavilion the Lilliputian General Tom Thumb. The Magnificent Cortege comprises 110 Horses and 90 men. The Pavilion of Exhibition has been enlarged until it is capable of accommodating 15,000 spectators at once. The collection of living Wild Beasts includes the most splendid specimens ever Exhibited in America. Among many others will be found

SIX BEAUTIFUL LIONS fresh from their native Forests.

A SACRED BURMESE BULL from the Island of Ceylon, worshipped there by the Pagan Natives, and recently taken from an Idolatrous Temple.

A Monster White or Polar Bear!—Of prodigious size and ferocity.

A Magnificent Royal Tiger—The largest one ever captured alive.

An Infantile Camel—Only six months of age, the first one ever born in America. &c., &c.,

The Drove of Elephants, were captured in the Jungles of Central Ceylon, by Messrs. S. B. June and Geo. Nutter, assisted by 260 natives, after a pursuit of three Months and four days in the Jungles. They were finally entrapped and secured in an Indian Kraal or Trap, of enormous dimensions and prodigious strength, where they were subdued. The Calf Elephant accompanies its Dam, and was weaned on its passage from India.

A Native Ceylon Chief, of high caste, in his own country, has charge of the Elephants, having accompanied them from Ceylon.

P. T. BARNUM, Proprietor of the American Museum, New York, has the honour to announce, that encouraged by the brilliant success which has attended all his various efforts for the amusement of the public, he has been led to form the project of organizing a vast travelling

MUSEUM OF WONDERS, Which comprises a greater variety of attractions, and more extraordinary Novelties, than any travelling exhibition in the world. Every feature of this mammoth establishment is of a peculiar and interesting nature, and the whole is produced upon a gigantic scale of magnitude. The travelling paraphernalia of the American Museum as it enters each town, is preceded by the gorgeous

CAR OF JUGGERNAUT, Drawn by Ten Elephants superbly caparisoned, being an accurate model of that terrible engine of idolatrous sacrifice, finished and decorated in all the extravagance of the Hindoo style. Following this monster vehicle, is a long procession of costly cages and carriages, the whole forming a spectacle of more than Oriental splendour. The exhibition will take place within a magnificent Variegated Pavillion, composed of American flags of water-proof fabric. The real, genuine, original

GENERAL TOM THUMB

Is attached to this exhibition, and will appear in his perfomances as given before the principal crowned heads of Europe including Songs, Dances, Grecian Statues, and his admired personations of Napoleon and Frederick the Great. The little General is twenty years of age, weighs only fifteen pounds, and is but twenty eight inches high. Also engaged,

MR. NELLIS, The man without arms, who will execute his extraordinary feats of loading and firing a pistol with his toes; cutting profile likenesses; shooting at a mark with a bow and arrow; playing upon the Accordion and Violincello, etc. Mr Nellis, in these performances, exhibits a wonderful example of what indomitable energy and industry can accomplish, even when labouring under disadvantages apparently the most insurmountable.

A complete menagerie of LIVING WILD ANIMALS, is also included in the American Museum, and at a convenient period during the exhibition.

MR. PIERCE will enter the Dens of Wild Beasts, and give his classical illustrations of Hercules struggling with the Nemean Lion; Daniel in the Lion's Den; Samson destroying the Lion, &c.

One of the most interesting portions of the exhibition is formed by the display of a great collection of

WAX STATUARY, including figures of the size of life, of all the Presidents of the United States, and also of a great number of noted characters, American and foreign, all of which are accurate likenesses, and appropriately costumed In fact, the whole establishment is a vast repository of Wonderful Objects of Nature and Art, the full particulars of which it would be impossible to give within the limits of a newspaper advertisement, and which has been brought together at an enormous expenditure of means, forming the largest and most novel travelling exhibition in this or any other country.

A FINE MILITARY BAND will perform the most popular airs of the day, as the procession enters town, and also during the hours of Exhibition.

The American Museum & Menagerie will exhibit at KINGSTON, the head of *Brock Street, on WEDNESDAY JUNE 16th, positively one day only.*

PRICE OF ADMISSION Is 3d, Children under 9 years of age, half price To the whole of this immense establishment, including General Tom Thumb, the entire collection of Wild Animals, Wax Statuary, Mr. Pierce's Performances in the Dens, the Baby Elephant, Mr. Nellis's performances, &c, No extra charge under any pretence whatever, let the reports be what they may.

Location at the head of Brock-street.

Doors open at 3½ and 7 o'clock. Performances commence at 4 and 7½ o'clock P. M. Admission 25 cents—Children under 9 years of age, half price.

It is with no ordinary feeling of satisfaction that the Proprietor of this Establishment announces than an engagement has been effected with the celebrated

PROFESSOR McCORMICK.

Whose great Scientific Experiment, entitled by the public Press the ANTIPODEAN FEAT, a performance which consists in actually WALKING HEAD DOWNWARDS, on the underside of a smooth marble slab, at an elevation of 20 feet from the ground, has excited in the cities of New York and Philadelphia greater interest and curiosity than anything which has been brought before the public during the last 21 years! Since the discovery of the Magnetic Telegraph, no scientific invention has created half the excitement produced by this extraordinary achievement, and even a successful exposition of Perpetual Motion could scarcely cause a greater commotion in the scientific world. All classes, all ages, and all ranks of society have flocked to witness this performance, wherever it has been exhibited, and the complete satisfaction evinced by the fashionable audiences who have attended Professor McCormick's representations, sufficiently prove that no shadow of deception has been attempted.

Two Distinct Exhibitions each Afternoon and Evening!

DR. CADWELL,

OCULIST AND AURIST.

Operator on the Eye and Ear,

HAS arrived in Kingston and taken Rooms at the BRITISH EMPIRE HOTEL, where he may be consulted for Three or Four Weeks from this date for diseases of the EYE, EAR and THROAT.

From the well known reputation of the Advertiser, and the success of his former visit to this city, operating on more than One Hundred Cases, he confidently hopes that those who desire his services will arrange as soon as possible to have treatment commenced.—Applicants for treatment must consider that many cases will require weeks to cure, and unless they make up their minds in good time it will not be possible to give satisfaction to either the patient or the operator. Neglected cases will therefore be received for treatment at a late period.

Dr. C. has invented, and made an Instrument for the treatment of Deafness, which proves to be highly serviceable. It is a neat little Machine, made entirely of Brass, and by means of this Instrument, Dr. C. is able to pass a stream of *Warm Medicated Vapor* into the middle chamber of the Ear, and thus stimulate the dormant auditory nerve, giving in many cases speedy relief, without producing the least pain or uneasiness.

Examinations made, and an Opinion given without Charge.

Dr. C. will be happy to receive calls from any of his old patients who were under treatment last fall, and if any require a renewal of treatment they will receive every necessary attention on this occasion without additional charge.

Spectacles and Goggles, to suit all cases, constantly on hand.

SQUINTING OR CROSS EYE cured in less than one minute with guaranteed success.

ARTIFICIAL EYE inserted without the least pain, and warranted to move and match the sound eye perfectly.
