The Presbyterian Summer School

Summer Schools are doing a very important work for the church by training Sunday School teachers and equipping young people for leadership in Missionary work and Bible study. The program of studies of the Presbyterian Summer School at Knox College, Toronto, has just reached us from the secretary, Rev. R. M. Hamilton, B. A., Weston, Ont. Its leading features are devotional Bible study, principles of teaching, child study and missionary methods. A Sunday school teacher ought to know at least three things: the scholar, the lesson and the principles of teaching. These are all well provided for in the program. The Bible study is conducted by such able and attractive teachers as Rev. Professor J. E. McFayden, M. A., of Knox college; and Rev. John McNichol, B. D., of Toronto bible training school.

Frederick Tracy Ph. D., a psychological expert of Toronto University, will lecture on child study. F. W. Kelly Ph. D., one of Canada's most noted educationalists; and Miss Mary Adair, kindergarten specialist, Philadelphia normal school, will set forth the principles of teaching.

The missionary department is strong both as to information regarding the mission fields and missionary methods. The prime requisites for successful missionary work in a congregation are an active missionary committee, a missionary library with maps, charts, &c, a mission study class and frequent missionary meetings. These will be dealt with in a very practical manner by Rev. R. P. MacKay D. D., in connection with a study of Japan.

Rev. J. C. Herdman, D. D, home mission Suppintendent, is intrusted with the interesting department of home missions. He will discuss the missionary's enviroment, the missionary's own spiritual life and the missionary's work.

One of the delightful features of this school is the residence of the students in the college, where splendid accommodation is provided for both ladies and gentlemen at a moderate cost. Everything gives promise of another successful session this year from July 4th to 14th.

POISONED

Rank Poison is created when Food does not digest, and that is when Sickness Commences.

If the man or woman who does not feel right, will at once look to putting the stomach right they will strike the right key—Every ache and every pain is a cry of poison, too much of which has been made in the process of converting food into nutriment. It may be the backache or sideache of the kidneys telling they are overtaxed and cannot filter the poison—It may be weight, pain or distress in the stomach that tells of fermentation and decomposition instead of digestion—It may be headache, dull, depressed, which tell poison has reached the fluid which surrounds the brain cells. The first cause is the same—lack of gastric juice to properly digest. ANTI-PILL, the Great System Treatment, is a new discovery which so acts on the mucous membrane of the stomach, a natural supply of gastric juice is assured. To prove the wonderful action of ANTI-PILL, you may have a free trial bottle by addressing Wilson-Fyle Co., Niagara Falls, Ont.

The new fishery regulations recommended by Mr. S. T. Bastedo, Ontario Commissioner of fisheries, have been confirmed by the Dominion Government They will go into effect ta once. The most important change is that reducing from 12 to 8 the number of bass permitted to be caught by any angler in one day. The size limit, 10 inches remains the same. Of speckled trout or brook trout no nore may be caught than in the aggregate shall exceed in weight 10 pounds, or no greater number than thirty, though that number may weigh less than ten pounds. The size limit fer pickeral is fifteen inches; for maskinonge, thirty inches, measuring from the point of the nose to the center of the tail. The sale and export of speckled trout, black bass, and maskinonge is prohibited for a period of five years.

What is Catarrh?

It is an inflammation of the mucous lining of the throat, bronchial tubes and nasal passages excited by germs that can only be destroyed by fragrant healing Catarrhozone which is breathed direct to the seat of the disease, and has never yet failed to cure. Pleasant to use, absolutely certain to cure, Catarrhozone always gives satisfaction. "I suffered from nasal catarrh so badly that I couldn't breathe through my nostrils, writes G. K. Wilmot of Meriden. I used Catarrhozone for a few minutes and was relieved. It cured in a short time." No other remedy just like Catarrhozone,—it's the best, two months' treatment $1.00; trial size 25c.

In March last Mr. John Pocock, of Lavender, Nottawasaga, brother of Mr. George Beamish, of this place, disposed of his fine farm for three thousand dollars, and, with his family, started for summerberry, Assa. taking with him a carload of effects and two years' suplies. On the way out he was taken ill and on arival his complaint was pronounced tyhoid fever. In spite of every care and attention he steadily sank and on Wednesday, June 1st, he passed away. His remains were brought east and the burial took place at Creemore on Sunday, June 5th, from the house of a former neighbor. He leaves a wife and child to mourn his unfortunate death. His stuff was nerer unpacked and will be sold out west. On the way out they became acquainted with another couple who were settling nine miles further on, and he too was taken sick shortly after arriving and died, the two courpses coming east on the same train —Dundalk Herald.

They Know It

Thousands of people throughout the country know the ordinary remedies for piles—ointments, suppositories and appliances—will not cure.

The best of them only bring passing relief.

Dr. Leonhardt's Hem-Roid is a tablet taken internally that removes the cause of Piles, hence, the cure is permanent. Every package sold carries a guarantee with it.

It is perfectly harmless to the most delicate constitution. A month's treatment in each package. Sold at $1.00.

Further information in regard to it at at the drug store. Sold at W. E Richardson's.

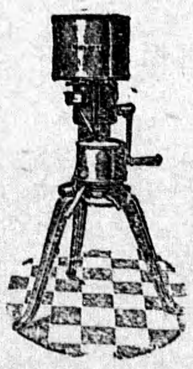
Wm. Manary is Manager for both horses with the exception of Gauthier Friday night and Saturday, when he will be under the care of H. M. Douglas, proprietor, Vandeleur



MELOTTE CREAM SEPARATORS

increase the quantity of cream 20 per cen., improve the quality of butter, save ice, save time in washing a multitude of pans and provide sweet and still warm separated milk which, with a little corn meal added makes a far more valuable, though less expensive, food for young stock than stale skimmed milk. These are facts which any user or any dairy expert will cofirm. No charge for trial.
