Important to the Public

THE Subscriber thankful for past support would beg leave to state that he has been for the five years in the city compounding his medicines and distributing them far and near, during which time there appeared many testimonials from persons cured of various complaints which would be too numerous to detail, many of which were to human appearance beyond cure. These Medicines are getting more publicly known and are taken thousands of miles off, even both in United States and California. They have no property in them to injure an infant, and during the above time no person could prove they had the contrary effect. It is well known under God that they had saved the lives of many, and were it not for the cost of Advertising many present would publicly attest the same, there are no complaints that these Medicines will not cure if properly applied. The Hydropathic or Water Cure System is combined with the Botanic, and both are found to perform cures bordering on Miracles. Patients can be cured at this Establishment where they can get diet agreeing with the Medicine, there are no poisonous ingredients mixed with this System. The subscriber never gave a dose to any Patient that he would not if required take four times the quantity in one himself. The public know this well, and need not to be told, were it not that there might be some designing persons who would not wish the cure prosperity. All kinds of sores or fractures can be treated here with success; also scurvy, blotches, or impurity of the blood can be effectually cured, no matter what kind of disorder internal or external can be treated. Children's Medicines for all complaints especially worm-destroying syrups can be got here.

Young or old who are suffering under the unnatural calamities, called fits or falling sickness, can with God's help get rid of them in due time by persevering treatment. The subscriber could prove by a few in this city that there were such complaints cured for them.—Wishing also to be of further benefit to the public he would confidently assure them that he has the best Medicines now extant for Horse and Cattle distempers and most powerful worm destroying Medicines.

FALSE ECONOMY.

'A hint to the Blind is as good as a nod.'

THE success of business depends much on the extent of a man's credit. Some erroneously suppose they practice economy and increase their credit by wearing an Old HAT or CAP in their ordinary business. But this is false economy in the ordinary business of a City life. For it is a fact proverbial, that he who is slovenly in his personal appearance, is also careless in business matters. Therefore he who wishes to secure esteem and credit among men, should in proof of his good sense and correct taste, not fail to honor his head with a genteel HAT or CAP.

BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princes Street, Bank, London.
CAPITAL, ONE MILLION.
EMPOWERED BY SPECIAL ACT OF PARLIAMENT
4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the *Britannia* are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eight and Ninety Thousand Pounds Sterling, per Annum, and of this the greatest part is continual accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure *an immediate Bonus* by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are 'Mutual Tables' adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not rendered void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a *bona fide* Creditor, the sum assured will be paid without deduction; if the Policy be not assigned the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to
