Things are getting interesting in the Russia-Jap. war since the former have began capturing British and United States merchant vessels.

Hugh Mitchell of the 8th con. Elderslie has a cow that recently gave birth to three calves. All three are fully developed and are likely to live as long as the average number of the bovine family.

On Sunday, July 10, 1904, the southbound steamboat express had no less than fourteen convicts on board bound for the Central Prison and Penitentiary. Eleven of them were brought down on the steamer Alberta to Owen Sound, and the other three were from Owen Sound. —Shelburne Free Press.

Private Perry of Vancouver won the King's prize at Bisley last week with a score of 321 out of a possible 355. The prize consists of $1200 in cash, and a gold medal and badge. This is the second time this prize has come to Canada, Private Hayhurst of Hamilton being the other winner in 1895. It was then known as the Queen's prize.

A queer order has placed with a firm of Sheffield (England) manufacturers by an Oriental potentate for the supply of a bedroom suit made throughout of solid silver. The designs are of ornamental character, and most elaborate. The suit comprises a bedstead, cabinet, dressing table, one dozen chairs, three footbaths, and three hot water cans.

The Post Office Department has issued the following warning: "Postmasters are informed that an organized gang have been operating in Canada and the United States, raising the amount of money orders. It is requested, therefore, that strangers who apply for orders for small amounts be closely scrutinized, so that it may be possible to identify them afterwards if such action should be found necessary."

The most extraordinary pearl—or rather cluster of pearls—known as "The Southern Cross," is owned by a syndicate of Australian gentlemen, who value it at £10,000. So far as is known, it occupies an absolutely unique position. It consists of nine pearls, naturally grown together in so regular a manner as to form a perfect Latin cross. The pearl was discovered by a pearl-fisher at Roebourne in West Australia. The first owner regarded it with so much superstition that he buried it; but it was discovered in 1874, and five years later was placed on exhibition in Australia.

Wm. Vallentyne, of Woodford, passed away on Saturday evening as the result of excessive drinking. Vallentyne was a well known character about Woodford, having for the past two years or so looked after the stage horses on their arrival at that place. A week ago Saturday he went to Owen Sound to draw the interest on some money left him by a deceased relative. While there he purchased some half dozen bottles of liquor which he took to Woodford for his own use. He continued to drink freely of the liquor until his mind became crazed from its effects and he died on Saturday evening, death having, in the opinion of the local physician, resulted from drinking to excess.—Meaford Mirror.

Mr. Robt. Conn of Heathcote, one of the most successful horse breeders in Grey, has returned from a trip through Bruce county and in the vicinity of Owen Sound and Chatsworth in search of a pair of registered fillies, and succeeded in purchasing a pair from Mr. Robt. McBrine of Sullivan township. Mr. Conn paid $520 for the pair and the delivery is to be made in October when the colts are weaned. Their dams are bred from imported mares; one of them weighs 1875 pounds and the other weighs 1925 pounds. Their sire was Sir Martin and he weighed 2200 when five years old. Mr. Gardhouse, an importer of Clydesdale stallions, says they are the best pair he ever saw on one farm and insisted on Mr. McBrine taking them to Toronto exhibition this fall, assuring him there was nothing in the Dominion that could beat them.—Thornbury Herald.

Thousands of Women

Women drift into a condition of half invalidism without knowing what ails them. Languor, exhaustion, aching back, limb pains, indigestion, headache, ANTI-PILL will lift these burdens. Any woman can prove this writing Wilson-Fyle Co., Niagara Falls, Ont., for free trial bottle.

This announcement is particularly addressed to women, because of the peculiar adaptation of ANTI-PILL, to help sick and ailing women, who feel that they are gradually losing strength and vitality.

The use of ANTI-HILL, never fails to arouse energy to search out and overcome the ailing cause. It's a revelation in medicine that brings relief to distressed, and brightens the despondent. It doctors but don't drug—is purely vegetable and can be used with perfect safety by delicate women at any stage of life. Its gentle and effective.

GROWTH OF THE "WESTERN."

Its Original Promoters Could Not Have Expected it to Reach Such Proportions.

When thirty-seven years ago, a little band of citizens, with the interests of London and district at heart, launched a Fair in the Forest City, little did they realize that some day in the future the exhibition would reach immense proportions and be entitled to rank as the foremost agricultural show in the whole of broad Canada. Such, however, is the transformation that has been brought about. Every year has seen something better. The Fair has been in good hands. What is more, it is in the very hub of Canada's finest agricultural country, which has played no small part in giving it the title it so well deserves.

The management is looking forward to September 9th to 17th, when the grounds and buildings at Queen's Park in London will be thronged with thousands from every section, young and old, big and little, it matters not, for there is room for everybody and no one person is more welcome than the other. They will find many changes at the grounds.

The new Dairy Hall, costing $10,000, will be in use. The Agricultural and Horticultural Hall, heretofore inadequate to meet every demand, will be as large again as before, giving greater scope for the display of roots grains, vegetables, fruits and flowers and in other departments improvements will be in order,

As an indication of the place the Western Fair will occupy, and the value that is already being placed upon it, it can be stated that every mail brings enquiries from firms and individuals desiring to exhibit. Machinery men are asking for space, and it is confidently hoped that the hall will be filled with the things that are of particular interest to the farming community. The newest inventions in all kinds of agricultural implements will be shown.

To amuse the thousands, before the grand stand every afternoon and evening, the attraction committee has scoured the United States and Canada for artists, and already a number have been secured. They are the best that money can buy. More will be engaged, later in the season.

What would an evening at the Western be without fireworks? It would certainly be lacking something that every visitor enjoys. And just here it might be said that the display this year will include some brilliant pieces the grandest spectacle being "The Bombardment of Port Arthur"—a representation of the frightful hammering Togo and his Japanese ships gave the beleaguered town—ships and forts will be shown in action, making a sight that will not soon be forgotten.

A parting word: the Fair of 1904 is approaching. In a few weeks it will be here with all of its interesting features, and it will not be wise for you to miss it.

Lou Scholes, the world's champion oarsman, received a grand reception on his return to Toronto Monday.

Mr. and Mrs. Hamilton Smith of Wiarton have entered a suit claiming $10,000 damages from Toronto Electric Light Company for the death of their son, Perry H. Smith, who was killed a few days ago through coming in contact with a live wire strung by the company for lighting purposes in the King street subway.

MELOTTE CREAM SEPARATORS

are easier to clean than any other. The thickly enamelled surface of the bowl casing in sizes 1 to 5 is specially provided as being the easiest of all surfaces to clean. It should be noted also that the Mellotte has neither a number of small tubes nor any long tubes, nor complicated device as any kind to be cleaned. The bowl itself is self-emptying, and every part of it is easily accessible to hand and cleaning cloth. In short the Mellotte is by far the easiest separator to clean, and for close skimming is unexcelled. WRITE FORBOOKLETNO. 1.

John H. Heard, Flesherton
