Kingston Permanent Building Society,

SHARES £50.

Entrance fee 5s.—Transfer Fee 2s. 6d. No Management Fee.—Monthly Instalment 10s.

THIS SOCIETY is established on the permanent principle, inasmuch as it will be extended by Annual Classes, terminating in succession.

The 1st Society or class will be of 6 years duration.

The necessity of commencing this Society arises from the large premium (of £15) demanded for the shares of the old Society, and the long array of back instalments and fees to be refunded.

Members wishing to receive the amount of their shares, in advance by way of loan, in the New Society, will receive the full amount of their shares repaying the same with legal interest, and such Bonus (under competition) as the Directors may from time to time appoint, so as to put all the members, as much as possible, upon a perfect equality; and which Bonus, together with the interest, will be payable monthly at the same time with the usual monthly instalment.

The chief advantages, therefore, of the New Society over the old one, are, that borrowers obtain the whole amount of their shares without deduction, and at a less average rate of interest, arising from the certainty of its earlier termination; and that they may, at any time, redeem their mortgages in accordance with an equitable arrangement provided by the rules. And as any member can, after 12 months, convert his past payments into cash, at a handsome profit, a safe and profitable investment, as well as an opportunity to become purchasers of freehold property, or to erect their own dwelling houses, is afforded to the industrious classes, which no common savings bank can supply.

The Stock-Book, for the subscription of shares in Class 1, is now open at the office of the present "Kingston Building Society."

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS:

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement.—August 2nd, 1851.

To Professor HOLLOWAY,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me that I am desirous that others should be made acquainted with their virtues. I am now rendered by their means, comparatively, and can take exercise without inconvenience or pain, which I could not do before.

HERE IS YOUR REMEDY.

HOLLOWAY'S OINTMENT,

A WONDERFUL CURE OF A DANGEROUS SWELLING OF THE KNEE.

Copy of a Letter from John Forfar, an Agriculturist residing at Newborough, near Hexham, dated May 15th, 1850.

To Professor HOLLOWAY,

SIR,—I was afflicted with a swelling on each side of the leg, rather above the knee, for nearly two years, which increased to a great size. I had the advice of three eminent Surgeons here, and was an inmate of the Newcastle Infirmary for four weeks. After various modes of treatment had been tried, I was discharged as incurable. Having heard so much of your Pills and Ointment I determined to try them, and in less than a month I was completely cured. What is more remarkable I was engaged twelve hours a day in the Hay Harvest, and although I have followed my laborious occupation throughout the winter I have had no return whatever of my complaint.

(Signed) JOHN FORFAR.

GLOBES.

JUST RECEIVED and for Sale at the City Book Store,

Copley's Sixteen inch Improved

AMERICAN GLOBE,

THE LARGEST EVER PRODUCED.

Upon examination they will be found far superior to any yet published, having been constructed by Mr. Copley (after forty years experience in hydrographical and geographical works) from the latest surveys up to the present time. The Coasts, Islands, &c., have been laid down (by permission) from Messrs. E. & G. W. Blunt's new Charts, and all the valuable data in their possession, together with the U. S. Coast Surveys, British Admiralty, French, Spanish, Russian and Dutch Charts, embracing all the new discoveries in all parts of the world.

The Celestial Globe has been drawn upon the most scientific principles, every star being laid down in its true position, from the works of Flamsted, Hevelius, Piazzi, and La Caille. The stars of the three first magnitudes being colored, readily point out the different constellations. This improvement is considered by Prof. Bond of Cambridge, and others, of great importance.

The Nebulæ and Clusters are from the works of Sir W. Herschell, Sir J. Herschell, Mr. T. Dunlop and Prof. Messier, comprising all the information that has hitherto only appeared upon the three feet Globe's published in London. All extraneous matter has been discarded from the surface of these Globe's the titles, the references, &c., which so much disfigure others, have been placed upon the horizon.
