The Owen Sound Oil Well

On Tuesday afternoon the Ormiston well, drilled by the Grey and Bruce Oil and Gas Co, was torpedoed a second time. One hundred and twenty quarts of nitro-glycerine were discharged. The company's officials are well pleased with the results, although they will not speak for publication. They are satisfied they are working on an anticline. It is rare that such a good showing of oil is found by drilling a territory for the first time. Drilling will be proceeded with at once in different parts of the territory now under lease, and a pump will in all probability be placed at the Ormiston well at once. From Saturday night until Monday morning 22 feet of fine oil flowed into the well, and the directors claim that it is more productive since it was torpedoed a second time. The oil is said to be the lightest in Canada, and stood 39·08 gravity test. Other Ontario wells test as follows: Petrolea 32, Oil Springs 35, and Leamington 37.—O. S. Sun.

The Early Vegetable Industry.

The Fruit growers in Essex county who have this year forced vegetables for early summer markets have had a very prosperous season as will be announced in the September issue of the Canadian Horticulturist. The shipments this year have been the largest on record and have not been equal to the demand. These vegetables are started under glass in the late winter, are later transplanted under cotton frames and finally grown in the open. This method enables the growers to place their produce on the market much earlier than regular crop. These vegetables are superior to the imported ones from the United States, which have in the past practically supplied all the demand. Owing to the satisfactory prices realized this year, it is probable that ultimately early Canadian vegetable may largely displace the United States importations.

Can Shelburne Survive This ?

It is reported that a meteor fell recently near Shelburne. The truth of the matter is it was a projectile from a Japanese gun. A Jap gunner who had imbibed too freely of captured Russian liquor was too confused to distinguish Port Arthur in Manchuria and Port Arthur in Ontario and took a shot at the latter place, but fortunately with no worse result than that mentioned. People who have no idea of the immense power and range of the modern artillery may find this difficult of belief. But seriously, is it any more unreasonable than to believe that anything of a celestial nature would stop near Shelburne.—Grand Valley Star.

Danger of Living With Consumptives

Is real danger because the sputum of affected persons diffuses itself through the air and finds lodgment in the system of others. If exposed to consumption use fragrant healing Catarrhozone, the most efficient germicide known. No case of catarrh can withstand Catarrhozone which cures this loathsome disease thoroughly. Cold in the head is cured in a few minutes, and bronchitis, asthma and lung trouble are cured to stay cured if Catarrhozone is employed. "I don't know any remedy so good for catarrh and bronchitis as Catarrhozone," writes N. T. Eaton of Knowlton. "It cured me after years of suffering and saved me from consumption. Two months treatment $1.00; trial size 25c.

Mr. George Pepper of Tobermory has for some time been working on a new system of laying railway rails. His proposal is to make a cement box 12x12 to hold a cedar block 6x6, bedded into this cement box with earth. To this block the rails are spiked, and ties are done away with entirely. After the cement boxes, blocks and rails are in position, he proposes making a cement roadbed, extending 14 inches outside the rails on both sides. Mr. Pepper explains his theory in a convincing way, and when ties and the work of keeping the tracks in good order is considered, he claims it will be cheaper than the present system. Anyway the Grand Trunk is going to try it. Roadmaster Davy was here on Friday and arranged with Mr. Pepper to put down a section of line in his way at Shallow Lake, and it will be thoroughly tested by the company. If it is what Mr. Pepper claims, the railways will quickly adopt it, which will be a good thing for him.—Wiarton Canadian.

The excitement over the gold mine on the farm owned by Jacob Silk is increasing and farm lands north of Shelburne are going up rapidly in price. There are now options held on several farms in the vicinity. An expert has traced the vein of silver or gold across two or three farms in Melancthon crossing the town line into Amaranth and an option has been taken on part of the west half, lot 31, in the first concession of Amaranth. If the experts ideas are correct, Shelburne will be in the centre of the mining localities.—Free Press.

We understand that the townships of Minto and Normanby are going to be asked to pay $2000 damages on account of injuries sustained by Mrs. Plant, of Cedarville, two weeks ago. Her injuries have proven to be of a serious nature. Both the knee and hip joints were dislocated. The bone of the socket of the latter is broken and the ball is broken from the thigh bone, while the top of the pelvis is broken. Other circumstances increase the seriousness of the accident. There was a high unprotected embankment where it took place and the road was very narrow. Being on the town line both townships are concerned.

The Small-pox Question.

Any intelligent physician will admit that you don't catch small-pox because someone else has it, but because your condition favors it. Low vitality always encourages sickness and at this season especially, everyone should take Ferrozone which destroys disease germs and makes the system so strong and healthy that sickness can't exist. Ferrozone is a vitalizing tonic that makes rich blood, builds up the nerves, cures nervousness and drives away tired languid feelings. To get strong and keep strong use Ferrozone; it assures health and costs but 50c. at all druggists.

A girl residing in a Lake Michigan town has recovered $500 damages from a steamboat company for naming a boat after her without asking her permission. An exchangs says she took offence at a marine stating that "Kitty Marshall, having been thoroughly scrubbed, painted, refitted with figure head and new boilers, will hereafter serve as mail carrier, and poke her pretty nose into the lake business for all she's worth."

Is Your Doctor Bill Large?

Best way to keep it small is not to call the doctor, but use Nerviline instead. For minor ailments like colds, coughs, chills, cramps, headache and stomach trouble Nerviline is just as good as any doctor. It breaks up a cold in one night, cures soreness in the chest, and for neuralgia, toothache and rheumatism you can't get anything half so good as Nerviline. The fame of Nerviline for cramps, colic, and pain in the stomach extends far and wide. Good for everything a liniment can be good for and costs but 25c. for a large bottle.

Some time ago gas was struck in a well on Mr. O'Leary's farm near Loretto at a depth of over one hundred feet. The gas vein was lost in drilling deeper in search of water, but considerable quantities have been following the iron piping into the old well. For a brief period a few days ago Mr. O'Leary forgot about the gas, but he will not do so any more. He was sitting on the boards covering the well enjoying a smoke and a chat with a neighbor when he thoughtlessly dropped a lighted match into the well. In a twinkling there was a terrific explosion and when the smoke had cleared away there was no top on the well and Mr. O'Leary and his neighbor were some distance away.—Alliston Herald.

The Banner says potato rot has manifested itself in the vicinity of Chatsworth.

The Cause of Piles

Is invariably constipation which is quickly remedied by Dr. Hamilton's Pills of Mandrake and Butternut. Sure relief, and no gripping pains. For a remedy that never fails use Dr. Hamilton's Pills. Price 25c.
