The rooster, unless kept for next year's breeding, is too expensive a luxury to keep—and he'll help relieve the meat shortage.

The market for the cull stuff promises to be good this month—and by marketing in June the distribution is more equalized.

By eating the poor layers the farmer gains in two ways—he eliminates the profit-takers from his flock and he lowers the meat bill for his table.

The small farm flock of good layers is always more profitable and satisfactory than the large flock of poor layers.

The good layer of the yellow-legged breeds at this season loses the color from the feet and bill and these latter becoming almost white. The sleek plumaged, fat yellow-legged hens are usually very poor layers. It will pay to cull them out now.

Presbyterian W. M. S. Thanksgiving Meeting

The Annual Thanksgiving Meeting of Chalmers' W. M. S. was held in the church here on Tuesday, November 2nd, with Mrs. (Rev.) Fowler in the chair. After the opening exercises Mrs. J. J. Thompson gave the report of the Auxiliary for ten months. The society has 25 members with an average attendance of 9, the monthly collections amounted to $41.30, and the thankoffering $51.00, with several members to hear from.

Mrs. G. Cairns and Miss Amanda Stewart; and Miss Stewart and Miss Susie Chard rendered very pleasing duets. Mrs K. Patton and Mrs. McCallum gave readings on the Missionary work of the church,

Greetings were brought from the sister churches by Mrs. Upham and Mrs. E. C. Murray.

Rev. C. Jones of Priceville gave a very interesting address on the Missionary work that the church is doing in Quebec. He advised the W. M. S. to develop its own leaders and not depend upon the pastor's wife to lead. She should be the directing genius who stands behind the officers and whose work is felt but not seen.

A dainty lunch was served at the close and thus another milestone was passed.

Childrens' Savings Accounts

We suggest you start your children on the road to Thrift by opening Savings Accounts for them, and then encouraging them to increase their balances. A small sum will open the account, and by the time a boy or girl is of age there will be a substantial amount for a start in life. Few things give a young man or woman more assurance than the knowledge that there is always a nest egg in the Bank to fall back on.

POWER FARMING WITH THE SAMSON

The Samson Tractor is a product of General Motors, makers of such well known cars as the McLaughlin, Cadillac, Chevrolet, Oldsmobile, G. M. C. Trucks, etc.

The Samson is the last word in modern down-to-the-minute Tractor construction —a close coupled power unit from radiator to rear wheels.

The Samson will take the place of a barn full of horses. It has no lost motion for it is built and lubricated like a high priced automobile. The even distribution of weight, compact unit design, and low centre of gravity give the Samson great stability, making it hug the ground and preventing all danger of rearing up and tipping over.

The Samson Model "M" is the one tractor you should look at before you buy a Tractor of any make or kind.

The Samson line includes Tractors, Farm Implements, Motor Trucks and every device for power farming.
