Editor Fawcett Goes Away

From the Toronto World.

"A. R. Fawcett, editor of the Leader and Recorder, left town on Friday afternoon, not intending to return, and giving no one a clue to his future whereabouts. He gave no reason for his sudden departure, and did not even say goodbye to his wife and family.

The first intimation that his wife had that he was going was when she found his valise and suit case hidden in the back yard. She asked him how they came there and he said he supposed thieves had been in the house. He took them upstairs, but the next time Mrs. Fawcett returned from being out she found both him and the valises gone.

The reason given for his shaking the dust of Toronto Junction off his feet is said to be looming financial difficulties. Before departing he left a letter with his foreman, in which he gave his wife the power of attorney and a statement of his liabilities. The condition of the business, however, did not warrant his leaving it so suddenly. There was nothing very pressing, and his wife naturally looks upon it as uncalled for. He has made frequent appeals to his subscribers of late, but these appeals had become chronic and there is nothing to indicate that his financial condition is worse now than it has been for some time past.

Besides appeals to subscribers, there have appeared in the columns of The Leader some interesting editorials descriptive of a three weeks' holiday in the country. Rumor has it that he went to enjoy the pleasures on the farm.

To his foreman, Mr. Fawcett said he was going away never to return, and to his family hedid not vouchsafe this much. Much sympathy is felt for Mrs. Fawcett and the family.

He had of late told his children that they would have to get out into the world and shift for themselves.

Mr. Fawcett was a well-known newspaper man and was the founder of THE FLESHERTON ADVANCE, The Streetsville Review and the Toronto Junction Leader."

In last weeks Leader and Recorder the following prophetic words were printed in connection with editorial comment on the difficulty experienced running a weekly newspaper: "Paper, wage, rent, and other bills must be paid, whether subscriptions come in or not, and thus the struggle to make ends meet commences and continues until the publisher either sells out or throws up the sponge in despair, and *gazes, stunned and stricken, upon the wreck of many years of hard, uphill, discouraging and disheartening work.*"

To Cure Fever Chills

And such complaints as "Shivers" and ague, we recommend Nerviline very highly. Twenty drops of Nerviline taken in hot water with a little sugar three times daily not only stops the chills but knocks out the disease completely. Nerviline has a direct action on fever chills and removes the conditions causing them. In stomach and bowel troubles Nerviline never fails. It's pleasant to the taste, quick to relieve and always cures permanently. Get a 25c. bottle to-day.

More Lightning Freaks.

The Hanover Post tells of the following lightning incident:

In was at the homestead of John Riehl that the thrilling incident occurred, and spectators who have seen the house since aver that it certainly looks as if it had been struck by a cyclone or demolished by an earthquake. The residence is a story and a half with a lean-to or kitchen at the rear. The occupants, nine in all, were all in the back kitchen during the storm. The lightning struck the chimney on the main part of the house and passing down, tore up the upper portion in a frightful style. The fluid also glanced and ran along the troughing, and entering the lean-to at one end knocked the top off a tall, old-fashioned sideboard standing with its back to the wall, down, and striking the back of a child seated on a sheepskin on the floor. The electric fluid also entered a chimney of the back kitchen and coming out the stove passed through the feet of Mr. Riehl who was sitting with his feet to the stove. Huge holes were torn in the heavy shoes which he wore, and are indeed a curiosity. Dr. Mearns, who was called in, stated to the newspaper man that Riehl would certainly have been killed had he been sitting with his back instead of his feet to the stove. Mrs. Riehl and a young son, and a lady and her four children, who are at present guests at the household and are soon to leave for Alberta, were also in the kitchen. Naturally they were all more or less stunned, but that they should have passed through such an experience and be able to tell the tale, is almost miraculous.

The first shipment of 1 000 tons of rails from the Soo for the Intercolonial has arrived in Montreal.

Rattlesnakes are said to be very plentiful in the Bruce Peninsula and to be increasing very fast and moving south. John McCharles, Warden of Bruce County, had a narrow escape from being bitten by one recently. He has the tail as a trophy.

The Mildest and Surest Relief

For constipated bowels and piles is Dr. Hamilton's Pills of Mandrake and Butternut which cause no griping pain and act promptly. Well known to all doctors. Use only Dr. Hamilton's Pills. Price 25c.

Nearly thirty sheep and lambs were killed or maimed one night last week near the Saugeen by a pack of town dogs; the next night a flock was entered while pasturing in a lot on the corner of Toronto and Cavan streets, only one escaped seriously injury. W. G. Pickell, drover, is the chief loser. Dog-owners have a debt on their hands: over $250 worth of property has been destroyed in the nocturnal raids this last six weeks.—Markdale Standard.

A serious accident occurred on Labor Day to James Best, 16 years of age, who has been working for Mr. R. H. Lewis, tailor. The young man went out to his home, a few miles up the gravel road in Normanby, to spend the day, and was shooting at a hawk when the gun exploded. The lock was blown off in his face, knocking his right eye completely out and destroying it, besides inflicting bruises about the head of such a severe nature that his doctor was in doubt when last heard from what the result would be. He is a quiet, well-behaved young man who has the respect of all who know him and general sympathy is expressed for him in his suffering and in the loss of his eye.—Mt. Forest Representative.

In his recent speech at Shelburne, Mr. Gamey, according to The Economist, said he thought the Ross Government was at the end of its walk. It reminded him of the story of two young men who were travelling on passes. The conductor, of course, got no tickets from them, and when he approached an old Irish lady who was sitting on the opposite seat, with a request for her ticket, she objected to giving it, saying she had just as much right to travel without one as the young fellows had. "Oh, but you know," said one of the young fellows, trying to make matters easy for the conductor, "we're travelling on our looks." "Begorra, then," said the old lady, "you haven't much farther to go."

Joseph Noble of Lot 3, Con. 5, Mulmur has in his orchard an apple tree that was planted in 1848. It has a circumferance about the trunk of seven feet seven inches. The diameter of the circle covered by the limbs is 45 feet, and the tree is 25 ft. high. In 1902 fourteen barrels of apples were picked offit. This year it will have about eight barrels. It is in a healthy condition and looks as if it would be good for the balance of the century period, 44 years. —Shelburne Free Press.

THE ADVANCE

AND THE

WEEKLY MONTREAL HERALD $1.00

We have made arrangements with The Herald Publishing Company, of Montreal, whereby we are enabled to give The

MELOTTE CREAM SEPARATORS

Stands the daily tear and wear to which they are subjected so well that we have never yet had occasion to replace a worn bearing, although these machines have been sold in Ontario, Quebec and the Maritime Provinces for the last six years. This is an unique record, warranting the assertion that the Melotte runs easier, costs 75 p. c. less for repairs and lasts twice as long as any of its competitors. For close skimming the Melotte is unexcelled.
