Another Physician's Testimony

Mr. Fowle—Dear Sir. I could send you a dozen certificates, strong and decisive, of the really sanative effects of your valuable Balsam of Wild Cherry, within the past twelve months, under my own supervision and direction.—Indeed I know of few persons who have used it, comparatively, but I commend it in the strongest terms. A case of Asthma, the severest I ever saw, to which I was called a month ago, evinced the superiority of the Balsam. This disease lasted six weeks, and the dispnea and suffering was dreadful; he sat up every night. The gentleman told me to give him something to last him home, (2 miles,) so that he might see his wife and child, and die in peace! I gave him one bottle of the Balsam, and four ounces of syrups squills, directing him to take tea-spoonful doses of best Bordeaux olive oil, when the difficulty of breathing was greatest.—Next day I forced his despondent will, and made him take six bottles of Wistar's Balsam of Wild Cherry home with him as a present, he having alleged that he had used so much expensive medicines to no profit. Last week Mr. A. called and expressed his gratitude to me in the warmest manner, said the medicine had saved his life, paid his whole bill, and took six bottles more, and left my office for home rejoicing.

Very respectfully yours,
WM. SHAW, M. D.

EXTENSIVE WATER POWER

LACHINE CANAL.

NOTICE IS HEREBY GIVEN, that the extensive water power on the LACHINE CANAL, at COTE ST. PAUL, with the LAND thereunto attached, will be leased by public Auction at the LACHINE CANAL OFFICE, at MONTREAL, on WEDNESDAY, the FIRST day of DECEMBER next at the hour of ONE o'clock, P. M.

The land, about three hundred and fifty feet frontage, by an average of two hundred feet in depth, with the whole of the surplus water not required for Canal purposes, will be disposed of in one lot, at a yearly rent, on a lease renewable for ever.

This privilege, which is on the Canal bank, and within one mile and a half of Montreal, affords great facilities for the establishment of any description of extensive Iron, or other Manufactories, as vessels will be enabled to come alongside of the Foundries, Mills, &c., for the purpose of loading.

The conditions of the lease, and any further information, may be known either at this Office, or of Mr. PAGE Superintending Engineer at the Lachine Canal Office, Montreal, who will point out the ground, &c.

CHILSON'S PATENT

WORLD'S FAIR PRIZE MEDAL FURNACE.

Are happy to announce that CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented, is declared by high and reliable authority, to be the

BEST FURNACE IN THE WORLD.

Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating Dwellings, Churches, School Houses, Academies, Court and Gate Houses, Hospitals, Stores, &c. in nearly all the cities and towns in the United States, but is meeting with equal favour in the Canadas, England, Russia, and other Foreign Countries. It has been awarded at the recent Fairs in this country, Gold Silver Medals, First Premiums, and lastly, the Great Prize Medal at the World's Fair, London. It has been subject to the most rigid investigation and severe practical tests, and unanimously declared the best. (See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common flat hot air furnaces seven years since, under the settled conviction, that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy scorching disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air; and then the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a Healthful, Economical, and durable Apparatus, for thoroughly warming and ventilating buildings, has been entirely successful. They possess the following advantages, purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals of wool, all equally well; flues easily cleared out—great durability of furnaces, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located: may be set in low cellars. Sizes for all classes of buildings. Also, 4 sizes of new and superior

Portable Furnaces.—Dr. Clark's Improved Boston School Stove.

Registers of all descriptions; Hot-air Grates; Room Ventilators, &c.

Emerson's celebrated Ventilators for Roofs of Buildings and Smoky Chimnys, &c. Cooking Ranges, with or without Bath Boilers, and Hot-air Fixtures. All sizes and styles of these beautiful

MIRROR MARBLE MANTELS,

PARLOR & CHAMBER FRAME GRATES, of rich European and American styles. Also a splendid article of Liverpool Soft Coal Grates, for Parlors, &c.

VALUABLE MUSICAL WORKS,

RECENTLY PUBLISHED BY

Mason & Law, New York.

The Theory of Musical Composition. By Dr. A.B. Marx. Translated from the German by H. S. Saroni.

AMONG the theorists and critics of Germany, Holland, Denmark, and France, there is but one opinion as to the superiority of this work over any upon the same subject that has ever issued from the press; either with regard to its perspicuity, completeness, or a masterly display of the most profound knowledge of Musical Science. There is scarcely a Music School of any note in Germany in which it is not referred to as a Text Book.

Price of the American edition, $2 50.

The Musical Vade Mecum. By H.S. Saroni

This is a compedium of information of Musical Subjects which it is difficult to find in any other shape. It is a sort of skeletan treatise, begining at the begining, with the Scale or Tone-system; then Melody; Rhythm; Organology, or the various descriptions of Instruments; Harmony; Modulation; the Æsthetic forms; the Artistic Execution; and finally a condensed History of Music. Price $1 25.

The Academy Vocalist.

A collection of Vocal Music, designed as a Text Book for Academies, Seminaries, High Schools, &c. By George F. Root, with a complete course of Elementary Instructions, Solfeggios, &c. By Lowel Mason. Price 62 cts.

Cantica Laudis.

A very comprehensive and complete collection of Church Music, by the Authors of "Carmina Sacra," The Boston Academy's Collection," &c.

This latest work of Lowell Mason and George James Webb, has elicited an amount of approbation from the intelligent musical public, vastly greater than was ever bestowed upon any similar work. It is now two years since its first publication, and those who have used it longest are most enthusiastic in its praise. A distinguished teacher writes of it as follows:

"For my own part, I must say I am more than gratified—I am delighted, I am charmed with it! It is, in my estimation, a most invaluable treasure; every leaf sparkles with gems, every page is radiant with beauty and grace! I find nothing in it which may be styled commonplace; nothing which appears to have been inserted merely for the sake of making up a new collection. Every piece, whether of complicated or more simple structure, whether adorned with artistic ornaments or clad in plainer habiliments, is in itself, according to its proper character and design, a finished specimen of the art. The entire work, indeed, not only bears indubitable testimony to, but is itself a gratifying as it will be an enduring monument of the extensive reading, mature judgment, exquisite skill, classic taste, and untiring industry of its eminent compilers. The great variety of subjects and of styles which it embraces, the beauty and freshness of its melodies, the richness and glowing fervor of its harmonies, the logical precision and yet courtly ease of its modulations, the incomparable grace and exquisite finish, which are its appropriate, in every part, ought and surely must render it a universal favorite."

Hundreds of teachers of music have expressed to the publishers the opinion that it is "the best collection of Church Music ever published in this country." Price 75 cents.

BRITANNIA LIFE ASSURANCE COMPANY,

No. 1 Princes Street, Bank, London.

CAPITAL ONE MILLION,

EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the *Britannia* are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eight and Ninety Thousand Pounds Sterling per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are the Mutual Tables adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the persons wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not rendered void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a *bona fide* Creditor, the sum assured will be paid without deduction; if the Policy be not assigned the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THOMAS BRIGGS, JUNR.,
Agent at Kingston.

SHERIFF'S CHOLERA SYRUP

IN CALIFORNIA.

THE following extract of a letter is from a gentleman of the highest stability, who has thoroughly tested the virtues of the above medicine, not only in this, but in other climates, also, and which goes to show its value to persons intending to journey through the various climates and sickly regions, where epidemic diseases cut off the inhabitants by thousands:

Bath, March 1st. 1852.

DEAR SIR—As we owe a debt of gratitude to those who have been the agents in saving or prolonging our lives, I hope you will accept my most unqualified acknowledgments of the benefit which I have personally received from the use of your medicines. In 1849, before starting on the overland route to California, I purchased a stock of your medicines, and I have tested their efficiency under every vicissitude of circumstance and climate, both with myself and others, and not once have I known them to fail in producing the desired effect. Twice I had the Cholera, once the Cholera Morbus, once the Typhus Fever, and several times the Diarrhœa and Dysentery, of the most malignant kind. And whilst others were dying all around me, by the use of your medicines I have escaped safely through, and am happy to assure you that I am now as sound in health as ever I was in my life. And I would most sincerely recommend all those who intend going to the same country to procure a good supply of your Cholera Syrup, as I know it to be the most useful medicine ever taken for a majority of the diseases of that climate. In the summer of 1850, when the Cholera was raging in Sacramento, I have no doubt but that I could have sold one thousand bottles at ten dollars each.

Yours Respectfully,
B. S. BOOTH.
