CHILSON,S PATENT WORLD'S FAIR PRIZE MEDAL FURNACE.

WE are happy to announce that CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented, is declared by high and reliable authority, to be the *BEST FURNACE IN THE WORLD.* Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating Dwelling, Churches, School Houses, Academies, Court and State Houses, Hospitals, Stores, &c., in nearly all the cities and towns in the United States, but is meeting with equal favour in the Candas, England, Russia, and other Foreign Countries. It has been awarded at the recent Fairs in this country, Gold Silver Medals First Premiums, and lastly, the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best. (See the printed reports of the Fairs, absurdity and state public committees on public buildings.) We have more than twenty five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common cast iron furnaces seven years since, under the settled conviction, that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy scorching disagreeable air, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape, and mingle with the air; and then the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a Healthful, Economical, and durable Apparatus, for thoroughly warming and ventilating buildings, has been entirely successful. They possess the following advantages, purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals of wood, all equally well, flues easily cleared out—great durability of furnace, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars. Sizes for all classes of buildings. Also, 4 sizes of new and and superior

Portable Furnaces.—Dr. Clark's Improved Boston School Stove.

Registers of all descriptions; Hot-air Grates; Room Ventilators, &c.

New Arrangement. PUBLICATION of this periodical will hereafter be undertaken by the undersigned, who have been requested by the proprietors of the work. With the present volume commences a new series of the work, under the enlarged title of "Dickens' Household Words and United States Weekly Register." The original work has attained such an unprecedented popularity both in England and this country, as to render any commendation of it in this place superfluous. For variety and richness of information, vivacity of style, and genial tone of feeling, it has no rival in English periodical literature. It may justly be called the greatest intellectual labor-saving machine of the age. One has only to peruse its pleasant pages to become master of an amount of knowledge which it has required no small degree of research and energy to accumulate in this condensed but fascinating form. Nor is it less valuable in point of pecuniary saving. The price of this work for one year will give more mental entertainment and instruction to the family circle than ten times the sum spent for the common run of books. In the present edition, a copious summary of statistical facts will be given with each number, which cannot fail to prove of service to the American citizen, both for present use and future reference. The work will continue to be issued in a style of great typographical neatness, forming two volumes a year, worthy of a distinguished place on the shelves of the library or the drawing-room table.

The "Weekly Register" portion of this work contains a record of important statistics, as well as of other passing events of general interest in the United States.

The present volume of The Household Words commenced with No. 1 of the New Series, with which, and the succeeding numbers, all new subscribers can be furnished.

TERMS.—The Household Words may be obtained of Booksellers, Periodical Agents, or from the Publishers No. 17 Spruce Street, at $2 50 a year, or 6¼ cents a number for single copies; 2 copies for $4 50: 3 copies, $6; 5 copies, $9; 10 copies $15. Clergymen supplied at $1 75 per annum.

Liberal arrangements will be made with Agents and Postmasters for its circulation.

Persons contemplating subscribing to a periodical will do well to procure a specimen number before deciding.

All orders must be addressed to

MacELRATH & LORD, No. 17 Spruce street, New York.
