MARRIAGE,
HAPPINESS AND COMPETENCE.

WHY IS IT?
That we behold many females, scarce in the meridian of life stricken in health and spirits, with a complication of diseases and ailments, deprived of the power for the enjoyment of life as we see when physical health, buoyancy of spirits and happy serenity of mind, arising from a condition of health, should be predominant?
Many of the causes of her sufferings at first—perhaps years before she shipped during girlhood, on the first years of marriage—have sprung up in her constitution, so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,
When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.
What would we not often give to possess, in early life, the knowledge we obtain in after years? And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING
To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER
Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,
And to her husband the constant toil and anxiety of mind, necessarily devoting upon him from sickness of the wife, without giving him the opportunity of acquiring that experience which his exertions so entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS
By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.
In view of such consequences, a wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.
BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.
One Hundredth Edition. 18mo., pp. 250. Price, 50 cts.
[ON FINE PAPER, EXTRA BINDING, $1 00.]
First published in 1847, and it is not
SURPRIZING OR WONDERFUL,
Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly
HALF A MILLION COPIES
should have been sold.
It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.
UPWARDS OF ONE HUNDRED THOUSAND COPIES
Have been SENT BY MAIL within the last few months.

PIANO FORTES.
THE Subscribers beg to inform their Friends and the Public generally, that they have received, and are in possession of their Fall Stock of Piano Fortes, from the celebrated Manufactories of
STODART & DUNHAM, IN NEW YORK, AND
C. CHICKERING, IN BOSTON,
Which comprises all classes of Six, Six-and-a-half and Seven Octave Pianos, from the plainest to the most highly finished. The superiority of these Instruments has been proved during ten years' trial in Canada, and as the undersigned offer them at the lowest manufacturing prices in New York and Boston, they are confident that the public will favour them with that liberal custom which they have hitherto enjoyed.
In order to meet the wishes of those also who are desirous of procuring Pianos at the lowest prices, the subscribers have added to their stock, a very large assortment of INSTRUMENTS, of other good makers, as also SECOND-HAND PIANOS, which they keep constantly on hand at from £10 to £50.
Intending purchasers residing at a distance, by specifying their wishes by letter, in respect to style, quality of Tone, &c., may depend upon a faithful selection being made, with the privilege of exchanging if not perfectly satisfied.
A liberal allowance made for Old Piano Fortes in exchange.
Having engaged a good Piano-Forte tuner lately, from Collard's establishment, London, Messrs. S. are always prepared to tune instruments at the shortest notice.

CHILSON, S PATENT
WORLD'S FAIR PRIZE MEDAL
FURNACE.
WE are happy to announce that CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented, is declared by high and reliable authority, to be the
BEST FURNACE IN THE WORLD.
Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating Dwellings, Churches, School Houses, Academies, Court and State Houses, Hospitals, Stores, &c. in nearly all the cities and towns in the United States, but is meeting with equal favour in the Canadas, England, Russia, and other Foreign Countries. It has been awarded at the recent Fairs in this country, Gold Silver Medals, First Premiums, and lastly, the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best. (See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common cast iron furnaces seven years since, under the solid conviction, that cast iron furnaces burn the oxygen out of the air, producing an unhealthy, scorching disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air; and then the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a Healthful, Economical, and durable Apparatus, for thoroughly warming and ventilating buildings, has been entirely successful. They possess the following advantages: purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals of wood, all equally well; flues easily cleaned out—great durability of furnace, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars, sizes for all classes of buildings. Also, 4 sizes of new and and superior
Portable Furnaces.—Dr. Clark's Improved Boston School Stove.
Registers of all descriptions; Hot-air Grates; Room Ventilators, &c.
Emerson's celebrated Ventilators for Roofs of Buildings and Smoky Chimney's, &c. Cooking Ranges, with or without Bath Boilers, and Hot-air Fixtures. All sizes and styles of these beautiful
MIRROR MARBLE MANTELS,
PARLOR & CHAMBER FRAME GRATES, of rich European and American styles. Also a splendid article of Liverpool Soft Coal Grates, for Parlors, &c.
Architects, Builders, and the public generally, please examine our extensive assortment. Personal attention given to warming and ventilating buildings in any part of the country.

VALUABLE MUSICAL WORKS,
RECENTLY PUBLISHED BY
Mason & Law, New York,
The Theory of Musical Composition. By Dr. A. B. Marx. Translated from the German by H. S. Saroni.
AMONG the theorists and critics of Germany, Holland, Denmark, and France, there is but one opinion as to the superiority of this work over any upon the same subject that has ever appeared from the press; either with regard to its perspicuity, completeness, or a masterly display of the most profound knowledge of Musical Science. There is scarcely a Music School of any note in Germany in which it is not referred to as a Text Book.
Price of the American edition, $2 50.
The Musical Vade Mecum. By H. S. Saroni.
This is a compendium of information of Musical Subjects which it is difficult to find in any other shape. It is a sort of skeleton treatise, beginning at the beginning, with the Scale or Tone-system; then Melody; Rhythm; Organology, or the various descriptions of Instruments; Harmony; Modulation; the Æsthetic forms; the Artistic Execution, and finally a condensed History of Music. Price $1 25.
The Academy Vocalist.
A collection of Vocal Music, designed as a Text Book for Academies, Seminaries, High Schools, &c. By George F. Root, with a complete course of Elementary Instructions, Solfeggios, &c. By Lowel Mason. Price 62 cts.
Cantica Laudis.
A very comprehensive and complete collection of Church Music, by the Authors of "Carmina Sacra," "The Boston Academy's Collection," &c. This latest work of Lowell Mason and George James Webb, has elicited an amount of approbation from the intelligent musical public, vastly greater than was ever bestowed upon any similar work. It is now two years since its first publication, and those who have used it longest are most enthusiastic in its praise. A distinguished teacher writes of it as follows:
"For my own part, I must say I am more than gratified—I am delighted, I am charmed with it! It is, in my estimation, a most invaluable treasure; every leaf sparkles with gems, every page is radiant with beauty and grace! I find nothing in it which may be styled commonplace; nothing which appears to have been inserted merely for the sake of making up a new collection. Every piece, whether of complicated or more simple structure, whether adorned with artistic ornaments or clad in plainer habiliments, is in itself, according to its proper character and design, a finished specimen of the art. The entire work, indeed, not only bears indubitable testimony to, but is itself a gratifying proof, it will be an enduring monument of the extensive reading, mature judgment, exquisite skill, classic taste, and untiring industry of its eminent compilers. The great variety of subjects and styles which it embraces, the beauty and freshness of its melodies, the richness and glowing fervor of its harmonies, the logical precision and yet courtly ease of its modulations, the incomparable grace and exquisite finish, which are so apparent in every part, ought and surely must render it a universal favorite."
Hundreds of teachers of music have expressed of the publishers the opinion that it is "the best collection of Church Music ever published in this country." Price 75 cents.

EXTENSIVE WATER POWER
LACHINE CANAL.
NOTICE IS HEREBY GIVEN, that the extensive water power on the LACHINE CANAL, at LOTE ST. PAUL, with the LAND thereunto attached, will be leased by public Auction at the LACHINE CANAL OFFICE, at MONTREAL, on WEDNESDAY, the FIRST day of DECEMBER next at the hour of ONE o'clock, P. M.
The land, about three hundred and fifty feet frontage, by an average of two hundred feet in depth, with the whole of the surplus water not required for Canal purposes, will be disposed of in one lot, at a yearly rent, on a lease renewable for ever.
This privilege, which is on the Canal bank, and within one mile and a half of Montreal, affords great facilities for the establishment of any description of extensive Iron, or other Manufactories, as vessels will be enabled to come alongside of the Foundries, Mills, &c., for the purpose of loading.
The conditions of the lease, and any further information, may be known either at this Office, or of Mr. P. GE, superintending Engineer at the Lachine Canal Office, Montreal, who will point out the ground, &c.
J. CHABOT,
Chief Commissioner of Public Works.
Office of Department of Public Works, Quebec, October 20th, 1852. 256

NOTICE IS HEREBY GIVEN, that the sale of the above mentioned "EXTENSIVE WATER POWER," is postponed until TUESDAY, the FIRST DAY of FEBRUARY NEXT. Then to take place at the LACHINE CANAL OFFICE, at the hour of ONE o'clock.

THE Subscriber begs leave to call the attention of his friends and the Public, to his unequalled Single and Double Horse Power Threshers and Separators, which have now been in use for two seasons, giving time to prove that all he said of them is correct—having sold 27 of them to different persons, amongst whom he would mention Mr. H Blanchard, Ernestown; Mr. Smith, Carrying-place, P. O.; Mr. H. Fadiz, Wilton; Wilton Fisk, Esq., near Wilton; Mr. H. J. Wells, Fredericksburgh; Mr. John Gibson, Kingston (who took the first premium at the County Show last year, the Subscriber taking the second premium himself;) Mr. McSoudy, Wolfe Island; Mr. Parker Barrett, Loughborough; Mr. John Amey, Camden; Mr. Thomas Fraser, Township of Kingston; Mr. Charles Sibley, Portland; Jacob H. Powley, Esq. Township of Ops, Lake Simcoe; Mr. William Howard, Amherst Island. To all whom reference can be made that the Machines have given the best satisfaction of any yet introduced into Canada.
The Subscriber has now on hand a number of Machines ready for sale, and is still making them, intending to complete 80 by the first of October next, or more if called for, so there will be no delay in furnishing them to his customers during the season. They are all made with the Nub Wheel, and Converge, or Internal Gear and Pinnion with Larger Band Wheel than last season, as experience has shown the power to be equal to a much greater speed. In all other respects they are built the same as last year.
The Over Shot Thresher and Separator has been fully proved to be the best and safest ever introduced and the Subscriber has made an improvement in the formation making the Concave Bearers wider, thereby saving the wear of the covering of the Cylinder, and giving a larger throat. He has also adopted a new plan for raising the Concave, by means of two Thumb Screws one on each side, enabling the Concave to be shifted, without stopping the Machine.
The Subscriber, from his long experience in the Manufacture of all kinds of Threshing Machines, feels confident that he can now offer to his friends and the public, an article which cannot be surpassed for Durability and Usefulness.
The Two Horse Power Thresher and Separator is capable with 3 or 4 men, of Threshing from 150 to 200 Bushels of Wheat or Rye. The Single from 60 to 100, or double the quantity of Oats or Peas per day.
