OUR BOYS' AND GIRLS' CORNER

By Aunt June

Registered According to the Copyright Act

DEDICATED TO EVERY BOY AND GIRL IN CANADA

My Dear Boys and Girls:

I hope that some of you have not been feeling neglected, for my mail bag was stuffed so full last week with letters that I have only been able to reply to a few, and I think that most of our corner this week will have to be taken up with these letters or some of my helpers will indeed think they are forgotten.

BIRDS.

Jack Frost is very busy again trimming up the branches of the trees and painting the windows and countryside with his elfish fingers, and the little birds that a few days ago twittered and chirped cheekily underneath my window are now huddled together on the branch of a tree trying to keep warm. The friend who left crumbs for them every day at the house opposite has gone away, but I have hopefully scattered some over the ground on my side, wishing that they will come down to get them, and as I watch I am thinking of my many helpers who love the little birds, and hope that you are remembering to put something out for them while the ground is frozen up and their food is scarce.

Please don't forget your little friends, the birds.

Birds.

Dear Aunt June:

I have just finished reading your letters so I thought I would like to join your Helpers' League of Service. I help wash the dishes, sweep the floor and sometimes I milk. I go to school every day when there is any. I am sending three cents with which I want a badge. Love to Aunt June.

EVA CALDER.

Dear Eva:

Thank you for your first letter, which I hope will not be the last. You have earned a Helper's badge. I wonder which you like to do best, milking the cows or washing the dishes. Tell me more about your school next time. I am interested.

Calabogie, Ont.

Dear Aunt June;

I read your Boys' and Girls' paper every week and I think it is very nice. I also like the puzzle pictures. I would like to join your Helpers' League of Service. I go to school every day. When I come home at night I bring in wood, and wash dishes, and do my home-work. I have one brother, he is fourteen. I am enclosing a three-cent stamp for a badge which I would like to receive. I am 12 years old. Love from

OLIVE VIRGIN.

P. S.—It is near Christmas. I have got four presents already.

Dear Olive;

This seems a very late answer to a Christmas-time letter, does it not? By this time, however, you have received your badge. I am glad that you had some nice Christmas presents. You did not tell me your brother's name. I expect you have had much fun together in the holidays.

Kippen, Ont.

Dear Aunt June;

I am a weekly reader of our Boys' and Girls' corner and I would like to be a member too. I like to help and I dust, bake, iron, sew, help to wash and other little chores like getting the meals. I am ten years old and I am in the junior fourth class at school. I like going very much. I have two pets, a kitten and a cat. Hoping to receive my badge, and hoping not to have tired you with this letter. Lovingly

SUNSHINE.

Dear Sunshine:

What a jolly pen-name you have chosen. I shall picture you now as a Helper who loves most of all to make the days bright for others. Your name just fits in with our little pledge. Thank you for telling me about your pets. I would love to see the kitten. For a little girl of ten, I think you manage to do quite a lot of chores. I should like to taste one of your cakes after the baking.

Cobden, Ont.

Dear Aunt June;

I am a reader of the Boys' and Girls' page thought I would write and improve the page. I go to school every day. I am in the third class. I like my teacher fine, her name is Miss Ferguson. When I get up in the morning I wash the dishes before I go to school. And when I come home I get the supper and then I wash the dishes and bring in the wood.. I live on a farm of two hundred acres. I like driving horses and I help papa in with the harvest in the summer. I milk the cows sometimes. Well my letter is getting long so I will have to close.

A FARMER.

Dear Farmer Lad:

You shall have a badge. I am glad that you want to improve our page. You must have a fine farm, I think. There is always plenty of helping to do on a farm, I know, and always say "Hurrah for our farm members."

Dear Aunt June;

This is the first time I have written. I have been a reader of "Our Boys' and Girls' Corner" for some time. I am eleven years old. I wash the dishes and help my mother all I can. I sweep the floor. I help milk the cows. I carry in the wood and get the cows in the summer time. I live on a farm about one mile and a quarter from the village of Barwick. I hope I will receive a badge.

MARY SMITH.

Dear Mary:

I wonder if you wrote this letter yourself? It is very neat and well [illegible] When you're [illegible] "you help another all you can" I know that you are a true helper, for no one can do more than their best. I am very glad to hear from you.

131 Strange St., Guelph, Ont.

YOUR GROCER IS NOT A PROFITEER

Have a heart!

He is passing along to you reduced prices, as fast or faster than they come to him. Just because prices on many good things are still high, don't blame him. It is usually the poorest quality of everything that shows the greatest decline.

If he is as good a man as the average, your grocer is still doing his utmost to give you the best value for your money. But don't push him too hard. He's only human.

You don't know, but we do, that he is recommending goods that pay him less profit than other well known brands which he might easily persuade his customers to take if he cared to do so.

We know this because he pays us more for Red Rose Tea and sells it at less profit than other teas, so when he recommends you to buy Red Rose Tea, you will know it is because he believes it the best and is willing to take a little less profit for the sake of giving you the best value he can.

We are publishing this because we believe the more our people know of the true facts concerning the profits made by those they deal with, the more generous they will be in their judgments.—T. H. Estabrooks Co., Ltd., Toronto, Ont.

OFTEN MAKE ERROR WHEN MOTOR SKIDS

PREVALENT SIDE SLIP MAY BE CONTROLLED BY DRIVER IF CARE IS USED.

"Every motorist knows the danger of a sudden skid on a wet and slippery street. When your car has started to skid there is no positive way to stop it, but the sideward motion of your car can be checked, and in many cases controlled, by proper steering and careful use of your brakes," says a local auto distrbutor.

"When your car starts to skid you should turn the front wheels in the direction of the skid rather than in the opposite direction. Do not jam on your brakes, for that only locks your rear wheels and causes them to slide more freely toward the curb. The brakes should be applied gently and intermittently without throwing out the clutch. If your engine is delivering a little power to the rear wheels you can brake them more effectively, and you avoid the danger of locking them.

"Many drivers become frightened at the first sign of a skid and do the very things they shouldn't do. They apply both brakes, throw out the clutch and try to right the direction of the car by steering in the opposite direction of the skid. A clear, cool head will save the day. Leave the clutch in and apply your brakes gently and release them several times and always turn your front wheels in the direction you are skidding."

CHICKEN HOUSES SHOULD ALWAYS BE KEPT CLEAN

CONCRETE HELPS TO IMPROVE CONDITIONS AND FREE INFORMATION IS BEING DISTRIBUTED TO FARMERS.

Farmers and others who have been reading the articles in this paper from time to time on the care of poultry and how to get more eggs from their hens, have been told in nearly every article that the first essential for healthy poultry and more eggs is cleanliness. Chicken houses should be clean. The best way to keep them clean is to prevent the accumulation of dirt. And the easiest way to do this is to have the floors at least, in every chicken house, built of concrete. And there are many other things around the farm that could be done with concrete. Buildings of all kinds can be improved, and at little cost, by the aid of concrete, which makes a permanent job. In order to assist all farmers to make improvements, and to give them ideas on concrete building, the Canada Cement Company has issued a book, "What the Farmer Can Do With Concrete' which will be sent free to anyone who writes to The Canada Cement Co., 1001 Herald Building, Montreal. The book is well worth having and as it is free we would advise everyone to write for a copy.
