CHILSON'S PATENT
WORLD'S FAIR PRIZE MEDAL
FURNACE.
WE are happy to announce that CHIL-
SON'S PATENT AIR WARMING
AND VENTILATING FURNACE, as re-
cently improved and patented, is declared by
high and reliable authority, to be the
*BEST FURNACE IN THE WORLD.*
Not only is this Furnace, and our system of
ventilation, proved and declared to be the best
mode of Warming and Ventilating Dwellings,
Churches, School Houses, Academies, Court
and State Houses, Hospitals, Stores, &c in
nearly all the cities and towns in the United
States, but is meeting with equal favour in
the Canadas, England, Russia, and other For-
eign Countries. It has been awarded at the
recent Fairs in this country, Gold Silver Med-
als First Premiums, and lastly, the Great Prize
Medal at the World's Fair, London. It has
been subjected to the most rigid investigation
and severe practical tests, and unanimously
declared the best. (See the printed reports of
the Fairs, also city and state public committees
on public buildings.) We have more than
twenty five hundred references, many of
whom are professional gentlemen, whose sci-
entific attainments in such matters are well
known. To attain this desirable object, the
inventor of this Furnace first abandoned the
manufacture of the common frail hot air fur-
naces seven years since, under the settled con-
viction, that red hot iron furnaces burn the
oxygen out of the air, producing an unhealthy
scorching disagreeable odor, unfit to be in-
haled by human beings; besides the constant
cracking and burning out of the pots, which
permits the poisonous gases to escape and
mingle with the air; and then the annoyance
and expense of repairs, new pots, &c. He now
has the satisfaction of knowing that his efforts
to secure a Healthful, Economical, and dura-
ble Apparatus, for thoroughly warming and
ventilating buildings, has been entirely suc-
cessful. They possess the following advantages.
purity of air, powerful heaters, economical
plan for burning anthracite, bituminous coals
of wood, all equally well—flues easily cleared
out—great durability of furnace, not liable to
repairs for a life time; perfect safety against
setting buildings on fire in which they are lo-
cated; may be set in low cellars. Sizes for all
classes of buildings. Also, 4 sizes of new and
and superior
*Portable Furnaces.—Dr. Clark's Improved*
*Boston School Stove.*
Registers of all descriptions; Hot-air Grates;

VALUABLE MUSICAL WORKS,
RECENTLY PUBLISHED BY
Mason & Law, New York.
The Theory of Musical Composition. By Dr.
A.B. Marx. Translated from the Ger-
man by H. S. Saroni.
AMONG the theorists and critics of Germany,
Holland, Denmark, and France, there is but
one opinion as to the superiority of this work
over any upon the same subject that has ever is-
sued from the press; either with regard to its
perspicuity, completeness, or a masterly display
of the most profound knowledge of Musical Sci-
ence. There is scarcely a Music School of any
note in Germany in which it is not referred to as
a Text Book.
Price of the American edition, $2 50.
*The Musical Vade Mecum—By H.S. Saroni*
This is a compedium of information of Musical
Subjects which it is difficult to find in any other
shape. It is a sort of skeleton treatise, begining
at the begining, with the Scale or Tone system;
then Melody; Rhythm; Organology, or the va-
rious descriptions of Instruments; Harmony;
Modulation; the Æsthetic forms; the Artistic
Execution, and finally a condensed History of
Music. Price $1 25.
*The Academy Vocalist.*
A collection of Vocal Music, designed as a Text
Book for Academies, Seminaries, High Schools,
&c. By George F. Root, with a complete course
of Elementary Instructions, Solfeggios, &c. By
Lowel Mason. Price 62 cts.
*Cantica Laudis.*
A very comprehensive and complete collection
of Church Music, by the Authors of "Carmina
Sacra," The Boston Academy's Collection," &c.
This latest work of Lowell Mason and George
James Webb, has elicited an amount of appro-
bation from the intelligent musical public, vastly
greater than was ever bestowed upon any simi-
lar work. It is now two years since its first pub-
lication, and those who have used it longest are
most enthusiastic in its praise. A distinguished
teacher writes of it as follows:
"For my own part, I must say I am more than
gratified—I am delighted; I am charmed with it!
It is, in my estimation, a most invaluable treasure;
every leaf sparkles with gems, every page is
radiant with beauty and grace! I find nothing
in it which may be styled commonplace; nothing
which appears to have been inserted merely for
the sake of making up a new collection. Every
piece, whether of complicated or more simple
structure, whether adorned with artistic orna-
ments or clad in plainer habiliments, is in itself,
according to its proper character and design, a
finished specimen of the art. The entire work,
indeed, not only bears indubitable testimony to,
but is itself a gratifying as it will be an enduring
monument of the extensive reading, mature judg-
ment exquisite skill, classic taste, and untiring
industry of its eminent compilers. The great
variety of subjects and of styles which it embraces,
the beauty and freshness of its melodies, the rich-
ness and glowing fervor of its harmonies, the
great precision and yet courtly ease of its modu-
lations, the incomparible grace and exquisite
finish, which are so apparent in every part, ought
and surely must render it a universal favorite."
Hundreds of teachers of music have expressed
to the publishers the opinion that it is "the best
collection of Church Music ever published in this
country." Price 75 cents.

EXTENSIVE WATER POWER
LACHINE CANAL.
NOTICE IS HEREBY GIVEN, that the
extensive water power on the LACHINE
CANAL, at COTE ST. PAUL, with the
LAND thereunto attached, will be leased by
public Auction at the LACHINE CANAL
OFFICE, at MONTREAL, on WEDNES-
DAY, the FIRST day of DECEMBER next,
at the hour of ONE o'clock, P. M.
The land, about three hundred and fifty feet
frontage, by an average of two hundred feet
in depth, with the whole of the surplus water
not required for Canal purposes, will be dis-
posed of in one lot, at a yearly rent, on a long
renewable for ever.
This privilege, which is on the Canal bank,
and within one mile and a half of Montreal,
affords great facilities for the establishment of
any description of extensive Iron, or other
Manufactories, as vessels will be enabled to
come alongside of the Foundries, Mills, &c.,
for the purpose of loading.
The conditions of the lease, and any further
information, may be known either at this Of-
fice, or of Mr. PAGE, Superintending Engin-
eer at the Lachine Canal Office, Montreal,
who will point out the ground, &c.

SYDENHAM FOUNDRY
LOUGHBOROUGH, C. W.,
JOHN AULT,
*Manufacturer of the Celebrated Rat*
*Road Horse Power and Over Shot*
THRESHER AND SEPERATOR
Also—Stoves, Ploughs, Mill and all
kinds of Castings.
THE Subscriber begs leave to call the atten-
tion of his friends and the Public, to
unequalled Single and Double Horse Power
Threshers and Separators, which have now
been in use for two seasons, giving time to
prove that all he said of them is correct hav-
ing sold 27 of them to different persons, amongst
whom he would mention Mr. H Blanchard,
Ernest-town; Mr. Smith Carrying place, P.
E. D., Mr. H. Pultz, Wilton; Wilton Fisk,
Esq., near Wilton; Mr. H. J. Wells, Fredericksburgh; Mr. John Gibson, Kingston (who
took the first premium at the County Show
last year, the Subscriber taking the second
premium himself,) Mr. McSourly, Wolfe Island; Mr. Parker, Barrett, Loughborough;
Mr. John Amey, Camden; Mr. Thomas Fraser, Township of Kingston; Mr. Charles
Shibley, Portland; Jacob H. Powley, Esq.,
Township of Ops, Lake Simcoe; Mr. William Howard, Amherst Island. To all whom
reference can be made that the Machines have
given the best satisfaction of any yet introduced into Canada.
The Subscriber has now on hand a number
of Machines ready for sale, and is still making
them, intending to complete 50 by the first of
October next, or more if called for, so there
will be no delay in furnishing them to his
customers during the season. They are all
made with the Nub Wheel, and Converge, or
Internal Gear and Pinnion, with Larger Band
Wheel than last season, as experience has
shewn the power to be equal to a much greater
speed. In all other respects they are built
the same as last year.
The Over Shot Thresher and Separator has
been fully proved to be the best and safest ever
introduced and the Subscriber has made an
improvement in the formation making the
Concave Bearers wider, thereby saving the
wear of the covering of the Cylender, and giving a larger throat. He has also adopted a
new plan for raising the Concave, by means
of two Thumb Screws, one on each side, enabling the Concave to be shifted, without stopping the Machine.
The Subscriber, from his long experience in
the Manufacture of all kinds of Threshing
Machines, feels confident that he can now offer to his friends and the public, an article
which cannot be surpassed for Durability and
Usefulness.
The Two Horse Power Thresher and Separator is capable with 3 or 4 men, of Threshing from 150 to 200 Bushels of Wheat or Rye.
The single from 60 to 100, or double the
quantity of Oats or Peas per day,
