

"I have felt the thrill of being a passenger on ocean liners and being almost swept overboard when the huge steamer bucked gigantic waves, I have crossed the Irish Sea and also swayed with ships crossing the rough English Channel, but I never experienced such a rough water passage as the one between Miami, Fla., and the beautiful port at Nassau before, the waves were high and rough and many passengers had to take to their berths for a few hours".

The speaker was Mrs. George Wilson, R.N., Russell Street, East who was a happy passenger on one of the recent Denure coach excursions through a number of States in the Union, and particularly the sunny and beautiful State of Florida.

Mrs. Wilson has visited the Florida vacation land on previous occasions, "But this last trip was one of the most enjoyable and for a number of reasons", she said. "The people on the special trip were friendly, we were able to see a large

area for beautiful holiday lands, lakes, cities, motels and friendly southern neighbours and Fred Denure went out of his way to please his passengers".

Incidentally the passengers included sightseers from Oshawa, Toronto, Windsor, Montreal and Lindsay.

Mrs. Wilson continued, "We stopped at luxurious motels and partook of the best of meals and Southern hospitality".

"On the boat to Nassau, the Captain informed me that if I wished to see Nassau at its best, it would be wise to rise early. As I have always been an early riser that suited me fine. What a beautiful sight to approach Nassau almost at the break of dawn with the sun slowly ascending and the Port of Nassau and surrounding magnificent scenery directly ahead — it was a sight well worth rising early to see".

Among the Lindsay area persons on the trip was Mrs. D. Perryman, Fenelon Falls, Mrs. V. Perrin, Cameron, Mr. and Mrs. Harold Flett, Cameron,

Mrs. G. E. Wilson, Russell St. East, Lindsay, Miss G. Free, Omemeec.
