Industrial Home Notes

(By an Inmate)

The spring plowing on this farm was completed last week and, weather permitting, the seeding will be well under way by the time these items appear, as Harry is anxious to finish before severing his connection with the staff next month.

Mr. and Mrs. Turner were removed by their son, Mr. S. Turner, to his home at Eugenia, on Monday of last week, where the old couple will reside in the future under the joint care of their three sons. We trust the change will materially benefit the condition of the old man's health.

On Tuesday morning last, Mr. Blank (pay inmate) left the institution to return to his bachelor home in Euphrasia. On Friday he returned for his belongings which he stowed in a very fair modern buggy drawn by what appeared to be a very ancient horse badly in need of a substantial pair of modern crutches, an entirely new internal refitting, an external renovation generally, and a few months kind and careful attention in a House of Refuge. Mr. B. said he had been paying a neighbor $1.50 per week for the animal's feed and care during his absence. The poor beast must have been well supplied with post hay, and the caretaker must be a very poor and inhuman neighbor.

The first escapade in connection with this institution occurred on Thursday night last when Thomas Manders and wife took a surreptitious, or, as they say in Lancashire, a moonlight flit, from the House of Refuge. The couple were admitted to the home about two months ago, out seemingly did not take kindly to it, especially Mrs. M. This, however, may rise from the fact that Mrs. M., being many years younger than her consort, has not yet arrived at that stage of life when incarceration becomes less irksome than at an earlier period. Accordingly she submits her plans to her lord, who, Adam like, cannot resist the temptation of his spouse to err, but falls. Silently they pack such of their belongings as they can conveniently or, rather, inconveniently carry and make their exit about midnight when all is wrapt in peaceful slumber through the door at the north end of the building which was locked on the inside. On being missed the following morning the manager promptly communicated with the Warden and reeve and received instructions to dispatch a constable in pursuit. On Saturday afternoon Constable Gibson proceeded to Flesherton; there he captured the unsuspecting old couple and quietly brought back to the Home apparantly very much crestfallen, and where they have been made to understand that the rules must be strictly obeyed. We believe that had the old gentleman been a bachelor or a widower he would have been perfectly reconciled to his fate from the first, for Tommy Manders has always been known to be a quiet, genial and agreeable old citizen, at least as far as we have ever known. It is to be hoped that the unfortunate affair will prove an object lesson, not only to the delinquents, but to all present and future inmates, that they will understand that they cannot come and go at will, that as wards of the municialities they are in duty bound the decision of the council and the rules of the institution, that there is a proper channel through which to make complaints, and finally that there is a committee of gentlemen to investigate any appeal or justifiable complaint which may be laid before them, gentlemen, whom we feel will do their best to set all wrongs right and redress any justifiable grievance, but let the inmates do their duty and theere will be little cause for complaints.

Mrs. W. Burnett, of Flesherton, accompanied by Miss Brown gave your scribe a neighberly call in the forepart of last week.

Miss Robinson will spend this week at home on Stone's Line and with friends in other quarters.

The usual divine services at the home will be recommenced (D. V.) on Easter Sunday. Three beautiful mottoes to assist in beautifying the service room have been presented to the matron by a resident of Markdale.

About Rheumatism

There are few diseases that inflict more torture than rheumatism, and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great sucess in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by W.E. Richardson.

8th Line Artemesia

The young people, who had the pleasure of meeting Mr. W. J. Wadsworth, Jr, last fall, while he was in this part, will be pleased to hear that he has fully recovered from one of the most critical operations of the kind ever performed in the hospital. While playing lacrosse last summer, he was struck a blow on the neck, which caused a lump to form on the juglar vein The operation occupied forty-five minutes and was performed by one of the best surgeons in Canada. After he had fully recovered from the operation he was suddenly stricken with rheumatic fever and for two weeks he lay at death's door, his life being despaired of by his parents and friends. We are pleased to hear that he is getting better and hope to hear of his speedy recovery. Will is the only child of Mr. and Mrs. W. J. Wadsworth, of Toronto Junction, formerly of Ceylon, and is a general favorite with all who know him.

Rheumatic Pains Quickly Cured.

The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. The great pain relieving power of the liniment has been the surprise and delight of thousands of sufferers. The quick relief from pain which it affords is alone worth many times it cost. For sale by W.E. Richardson.

The Eugenia Development

Mr. O'Donohue informed The Advance last week that it will be some little time before anything tangible will be seen in way of developement at Eugenia, owing to the fact that considerable organizing work and details have still to be arranged, machinery to be contracted for, etc. This work is now under way as fast as possible. All the properties contained in this waterpower have been acquired by the company as far up the river as Sloan's dam and a system of reservoirs will be erected which will largely increase the power obtainable. The system it is proposed to instal is known as the Swiss system. There is only one other of this kind in America, and that is in California. In this connection it may interst some to know that the Hogg brothers have now no financial interest in the company, they having sold out en bloc the company. There will also be no stock for sale in this concern, the company being a private one. Bonds will be floated to cover the cost of construction.

For a Weak Digestion.

No medicine can replace food, but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives vigor and strength to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefitted by their use. They only cost a quarter. For sale by W.E. Richardson.

How to Cure Toothache.

Any aching tooth can be relieved instantly with Nerviline. Fill the cavity with batting dipped in Nerviline and rub the gums with Nerviline also. If the face is swollen and sore bathe the painful parts with Nerviline and cover with flannel. This can't fail because Nerviline kills the pain outright and prevents it from returning. Stronger, quicker, more satisfactory than any other liniment. Polson's Nerviline has been the largest seller for nearly fifty years; try it yourself.
