CHEVROLET "FOUR-NINETY" SALES RECORD MORE THAN HALF A MILLION.

The Chevrolet Motor Company's plan to make cash refunds to the purchasers of 50,000 Model "Four Ninety" cars brings to light the fact that more than half a million of these famous models have been sold.

This number covers a period of six years production. In other words, an average of 83,000 "Four Nineties" a year have been sold since the model was first introduced in the 1915 season.

This average is one of the records of the automobile industry. It is a record of continuous growth and steady increase in popularity.

The 83,000 average is only half the story. For, in the first season less than two hundred "Four-Nineties" were sold.

A year's test proved the merit of this popular priced, economical car, however. The second season won nearly forty thousand converts to this Chevrolet model.

Since its immediate success the sale of these cars has increased consistently. 1920 purchasers took nearly two hundred thousand "Four-Ninety" cars.

This brings the total to more than half a million. And this record has been made by only one model. In this it is unique.

Many of the first cars of this model are still running. In fact, it recently became known that one of these has travelled more than 160,000 miles—27,000 miles a year for six years and is still running.

The sale of 50,000 more of these models between January 1st and August 1st of this year will enable the Chevrolet Motor Company to maintain its average quantity production.

And if this is done in such a selling year as this, the Company will refund its profits to purchasers—$70 on Runabouts and Touring Cars and $100 on Coupes and Sedans.
