A Marvellous Cure

Mr. M.F. Ramage, concession 8, west half lots 1 and 2, Holland, when interviewed, says: I have been troubled with Rheumatism for over twenty years, sometimes being laid up for months at a time—was so bad one year that I had almost to crawl all the time. It affected me around the hips and back. I took nearly every kind of sure cure for rheumatism, American and Canadian, but got no relief. In the summer of 1904 I was induced by Mr. Morrison, storekeeper of Strathavon, to try Cameron's Rheumatism, and after taking the first few doses felt great results, and after taking two bottles had no return of the Rheumatism. I now attend to over fifty head of stock without any trouble, and I don't think a man with rheumatism could do that. I believe you have the relief that thousands of sufferers have been looking for, and I hope that anyone who suffers and reads this endorsement, that they will immediately try Cameron's Rheumatism Cure, prepared only by D. A. Cameron & Co., Owen Sound. Price $1 00 a bottle; express paid on two bottles.

Holland Centre suburbs were startled on Monday morning, 3rd inst., by the report that Mrs. Fred Routenburg and Charles Doyle had skipped out together. The Thursday previous Mrs. Routenburg left home to go to Chatsworth for a visit with friends, and was to be gone two days. As she did not return at the time appointed Mr. Routenburg drove to Chatsworth and learned that she had taken the afternoon train south. Doyle joined her at Holland Centre. On returning home Mr. Routenburg found that his wifes clothing was gone, and it is supposed that Doyle tock them during the husbands absence. Mr. Routenburg had rebuked his wife for unseemly conduct with Doyle, since which time Doyle has not frequented the house except in Mr. R's absence. Doyle was raised at Holland Centre, where his mother and brother reside. Besides her husband the woman left behind her two little boys aged 7 and 9 years, for whom much sympathy is expressed.—Chatsworth News.

Robt. Wellwood of Melancthon station had his residence and contents destroyed by fire on Sunday last. We understand that Mr. Wellwood was at church and Mrs. Wellwood was busily engaged getting dinner when she heard a noise upstairs. On going up she discovered that the building was on fire around the stovepipe that ran through the roof. She hastened to get a pail of water and when she returned the whole upper story was in flames. Everything was burned but a dresser that contained some clothing and part of a bed. Mr Wellwood's loss will be considerable as he had no insurance on the building or contents.—Shelburne Free Press.

Thousands Die of Constipation.

No condition causes so many incurable diseases as constipation. It not only prevents the kidneys from eliminating the poisonous wastes, but causes anæmia, stomach trouble and indigestion. Why won't you use Dr. Hamilton's Pills and get cured? This medicine restores normal bowel action in one night. Thousands say so. Your system will be pure and clean, you'll be free from headaches, no more sour stomach—in short you'll have jovial spirits and perfect health. Dr. Hamilton's Pills are sold everywhere, 25c. a box. Get the genuine.

While several state legislatures are being urged to pass laws compelling the manufacturers of patent medicines to print the formulas on the outside of each package, the J C. Ayer Company, of Lowell, Mass., has voluntarily adopted the practise. Any one who wants to know what its famous Sarsaparilla is made of, can now easily find out. What the effect this will be upon the sales of the medicine is problematical, but doubtless it will be beneficial. The possession of the formulae does not convey to its holder the ability to compound it There is not a druggist in the country who does not make a sarsaparilla of his own. Anyone who wants Ayer's Sarsaparilla will still have to buy it; he can't make it even with the formula before him.—Newspaperdom, N. Y.

Contracts For Ideal Fencing.

A number of large contracts for railway fencing have been closed lately. The McGregor Banwell Fence Company, Ltd. of Walkerville, Ont., manufacturers of Ideal Woven Wire Fencing, have secured contract for fencing the James Bay railway, 170 miles; Guelph & Goderich railway, 80 miles; Victoria Beach & Middleton railway, N. S., 83 miles; Canadian Pacific railway, Pheasant Hills branch, 155 miles; Canadian Northern railway, 265 miles. This makes a total of 753 miles. All of these contracts include the erection of fencing. In addition to the above, the Canadian Pacific Ry. have arranged with them for fencing required for maintenance purposes.

These orders specify for Ideal fence made from No. 9 hard steel wire throughout.

Practical tests made by railway companies have demonstrated that the Ideal fence made from large wire throughout is best adapted for their puposes, being the most serviceable and the most durable barrier against stock. These companies have used Ideal in the past. They look to it for permanency. This fence is also used in large quantities throughout Canada for farm purposes.

Although only manufacturing fences for three years, the McGregor-Banwell Fence Co. now have largest output of any fence factory in Canada, which in itself speaks well of the fence they manufacture.

Boyd, Hickling & Co. are agents in Flesherton for this fencing. All styles of fence and gates in stock.

Spring Show of Entire Stock.

East Grey Agricultural Society will hold a spring show for entire stock on their fair grounds, Flesherton on Friday, April 28th inst. For full particulars, see posters.

One eye at a time

That's the way we test.

Usually the eyes differ in sight.

A glass which suits one injures the other, and ultimately both suffer.

We use modern appliances, and the greatest care to avoid a misfit.

A misfit would hurt your eyes and our reputation.

MORE MILK

The cow for the dairymen is the one that can make the most profit in milk, butter, or cheese for the food consumed. A large number of cows are kept for dairy purposes that don't yield sufficient milk to pay for their keep. They consume as much as profitable ones and require as much time and care in their milking. Also many a good "Milker" has gone to the butchers block owing to improper care and feeding. Many of the milk producing qualities of the feed are lost owing to improper digestion and assimilation. This can be overcome by the addition of Clydesdale Stock Food to the ordinary feed as it puts the stomach in such shape as to help her to digest and assimilate her food, besides enabling her to eat more of it, as it is made more appetising. This makes her capable of secreting more milk, and, in many instances, richer milk. If it could be demonstrated that more bushels of wheat could be grown on a piece of ground than ordinarily, and without injury to the land, in fact improving it, and at an extra profit, wouldn't you take up the proposition. Clydesdale Stock Food will add to the milk production, and with extra profit, and without injury to the "Milker," because it gives a tone and sleekness to the animal that cannot otherwise be had. The use of Clydesdale Carboline Antiseptic will keep the stables in a healthy condition ensuring healthier milk. If after using the above, you find you are not satisfied, your money will be cheerfully refunded by our dealer. Clydesdale Stock Food is sold in your district by:

Boyd, Hickling & Co., Flesherton
