SYDENHAM FOUNDRY
LOUGHBOROUGH, C. W.
JOHN AULT,
Manufacturer of the Celebrated Ram Road Horse Power and Over Shot
THRESHER AND SEPERATOR
Also—Stoves, Ploughs, Mill and all kinds of Castings.
THE Subscriber begs leave to call the attention of his friends and the Public, to unequalled Single and Double Horse Power Threshers and Separators, which have now been in use for two seasons, giving time to prove that all he said of them is correct, having sold 27 of them to different persons, amongst whom he would mention Mr. H Blanchard, Ernest-town; Mr. Smith Carrying place, P. F. D., Mr. H. Pultz, Wilton; Wilton Fisk, Esq., near Wilton; Mr. H. J. Wells, Fredericksburgh; Mr. John Gibson, Kingston (who took the first premium at the County Show last year, the Subscriber taking the second premium himself,) Mr. McSourly, Wolfe Island; Mr. Parker Barrett, Loughborough Mr. John Amey, Camden; Mr. Thomas Fraser, Township of Kingston; Mr. Charles Shibley, Portland; Jacob H. Powley, Esq. Township of Orilla, Lake Simcoe; Mr. William Howard, Amherst Island. To all whom reference can be made that the Machines have given the best satisfaction of any yet introduced into Canada.
The Subscriber has now on hand a number of Machines ready for sale, and is still making them, intending to complete 50 by the first of October next, or more if called for, so there will be no delay in furnishing them to his customers during the season. They are all made with the Nub Wheel, and Converge, or Internal Gear and Pinnion, with Larger Band Wheel than last season, as experience has shewn the power to be equal to a much greater speed. In all other respects they are built the same as last year.
The Over Shot Thresher and Separator has been fully proved to be the best and safest ever introduced and the Subscriber has made an improvement in the formation, making the Concave Bearers wider, thereby saving the wear of the covering of the Cylender, and giving a larger throat. He has also adopted a new plan for raising the Concave, by means of two Thumb Screws, one on each side, enabling the Concave to be shifted, without stopping the Machine.
The Subscriber, from his long experience in the Manufacture of all kinds of Threshing Machines, feels confident that he can now offer to his friends and the public, an article which cannot be surpassed for Durability and Usefulness.
The Two Horse Power Thresher and Separator is capable with 3 or 4 men, of Threshing from 150 to 200 Bushels of Wheat or Rye. The Single from 60 to 100, or double that quantity of Oats or Peas per day.

PIANO FORTES.
THE Subscribers beg to inform their Friends and the Public generally, that they have received, and are in possession of their Fall Stock of Piano Fortes, from the celebrated Manufactures of
STODART & DUNHAM, IN NEW YORK, AND
A. CHICKERING, IN BOSTON,
Which comprises all classes of Six, Six-and-a-half and Seven Octave Pianos, from the plainest to the most highly finished. The superiority of these Instruments has been proved during ten years' trial in Canada, and as the undersigned offer them at the lowest manufacturing prices in New York and Boston, they are confident that the public will favour them with that liberal custom which they have hitherto enjoyed.
In order to meet the wishes of those also who are desirous of procuring Pianos at the lowest prices, the subscribers have added to their stock, a very large assortment of INSTRUMENTS, of other good makers, as also SECOND-HAND PIANOS, which they keep constantly on hand at from £10 to £50.
Intending purchasers residing at a distance, by specifying their wishes by letter, in respect to style, quality of Tone, &c., may depend upon a faithful selection being made, with the privilege of exchanging if not perfectly satisfied.
A liberal allowance made for Old Piano Fortes in exchange.
Having engaged a good Piano-Forte tuner, lately, from Collard's establishment, London, Messrs N. are always prepared to tune instruments at the shortest notice.

CHILSON,S PATENT
WORLD'S FAIR PRIZE MEDAL
FURNACE.
WE are happy to announce that CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented, is declared by high and reliable authority, to be the *BEST FURNACE IN THE WORLD.* Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating Dwellings, Churches, School Houses, Academies, Court and State Houses, Hospitals, Stores, &c., in nearly all the cities and towns in the United States, but is meeting with equal favour in the Candas, England, Russia, and other Foreign Countries. It has been awarded at the recent Fairs in this country, Gold Silver Medals First Premiums, and lastly, the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best. (See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common frail hot air furnaces seven years since, under the settled conviction, that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy, scorching, disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air; and then the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a Healthful, Economical, and durable Apparatus, for thoroughly warming and ventilating buildings, has been entirely successful. They possess the following advantages: purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals of wood, all equally well—flues easily cleared out—great durability of furnace, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars. Sizes for all classes of buildings. Also, 4 sizes of new and and superior
Portable Furnaces.—Dr. Clark's Improved Boston School Stove.

VALUABLE MUSICAL WORKS,
RECENTLY PUBLISHED BY
Mason & Law, New York.
The Theory of Musical Composition. By Dr. A.B. Marx. Translated from the German by H. S. Saroni.
AMONG the theorists and critics of Germany, Holland, Denmark, and France, there is but one opinion as to the superiority of this work over any upon the same subject that has ever issued from the press; either with regard to its perspicuity, completeness, or a masterly display of the most profound knowledge of Musical Science. There is scarcely a Music School of any note in Germany in which it is not referred to as a Text Book.
Price of the American edition, $2 50.
The Musical Vade Mecum. By H.S. Saroni
This is a compedium of information of Musical Subjects which it is difficult to find in any other shape. It is a sort of skeletan treatise, begining at the begining, with the Scale or Tone-system; then Melody; Rhythm; Organology, or the various descriptions of Instruments; Harmony; Modulation; the Æsthetic forms; the Artistic Execution, and finally a condensed History of Music. Price $1 25.
The Academy Vocalist.
A collection of Vocal Music, designed as a Text Book for Academies, Seminaries, High Schools, &c. By George F. Root, with a complete course of Elementary Instructions, Solfeggios, &c. By Lowel Mason. Price 62 cts.
Cantica Laudis.
A very comprehensive and complete collection of Church Music, by the Authors of "Carmina Sacra," The Boston Academy's Collection," &c. This latest work of Lowell Mason and George James Webb, has elicited an amount of approbation from the intelligent musical public, vastly greater than was ever bestowed upon any similar work. It is now two years since its first publication, and those who have used it longest are most enthusiastic in its praise. A distinguished teacher writes of it as follows:
"For my own part, I must say I am more than gratified—I am delighted, I am charmed with it! It is, in my estimation, a most invaluable treasure; every leaf sparkles with gems, every page is radiant with beauty and grace! I find nothing in it which may be styled commonplace; nothing which appears to have been inserted merely for the sake of making up a new collection. Every piece, whether of complicated or more simple structure, whether adorned with artistic ornaments or clad in plainer habiliments, is in itself, according to its proper character and design, a finished specimen of the art. The entire work, indeed, not only bears indubitable testimony to, but is itself a gratifying as it will be an enduring monument of the extensive reading, mature judgment exquisite skill, classic taste, and untiring industry of its eminent compilers. The great variety of subjects and of styles which it embraces, the beauty and freshness of its melodies, the richness and glowing fervor of its harmonies, the legal precision and yet courtly ease of its modulations, the incomparible grace and exquisite finish, which are so apparent in every part, ought and surely must render it a universal favorite."
Hundreds of teachers of music have expressed of the publishers the opinion that it is "the best collection of Church Music ever published in this country." Price 75 cents.

IMPORTANT
TO HOUSE KEEPERS.
Something better and more economical than Soda, Cream Tartar, or any other preparation in existence for Baking.
DURKEE'S CHEMICAL YEAST, or BAKING POWDER—For raising Bread, Biscuit, Fried, Griddle and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c., &c This article is one that every
Family, Hotel, Boarding House,
Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed every single day of their existence.*
Its most important advantage over the old system, are—
1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast,—water only being necessary.
2. No time is required for the dough to rise before baking; consequently bread may be made in a few minutes.
3. A cook can always depend upon having light sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.
4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.
5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acids tend to produce dyspepsia and its attendant evils.
This article has been thoroughly tested, and is universally liked. When used according to the directions, it is *warranted* to suit.
☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 139 Water-street, New York. Sold by the best grocers and druggists generally.

Another Testimony for the Hydropathic and Botanic Cures.
I Saw many persons' testimonials in the papers, who were cured by Dr Lanktrees medicines, I know others in my neighborhood, whose names were not made public, who were cured by him but I find it to be my duty to state to all that I was sorely afflicted with Fits for many years and within the three years past lost over £60 by medicine and treatment, and got no relief until I went to Dr. Lanktree, of Kingston, about two months since; and by his treatment, medicine and advice, I thank God I have had no return of them since, and am now able to do my business

MARRIAGE,
HAPPINESS AND COMPETENCE.
WHY IS IT?
That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits and happy serenity of mind, arising from a condition of health, should be predominant.
Many of the causes of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.
IN AFTER YEARS,
When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.
What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is
MELANCHOLY AND STARTLING
To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every
WIFE AND MOTHER
Possessed the information contained in a little volume, (within the reach of all) which would spare to herself
YEARS OF MISERY,
And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.
SECURE THE MEANS OF HAPPINESS
By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.
In view of such consequences, a wife or mother is culpable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

Dr. Shaw on Consumption.
There is perhaps no disease, with which our country is affected, which sweeps off annually so many victims, as that fell destroyer of the human race, Consumption. What a vast amount of suffering might be saved the human family if they would but avail themselves in season of the remedies which nature has provided for her children, and which science has reduced to such a form as to be within the reach of all. Far be it from us to tamper with those who are suffering with this painful disease. In offering you a remedy, we do not ask you to rely upon the representation of those who might be actuated by selfish and pecuniary motives but we give you the deliberate testimony of some of the most respectable physicians, that Wistar's Balsam of Wild Cherry, has established for itself a reputation that cannot be assailed. Dr. Wm. A. Shaw, of Washington, N. C. writes under date of May 1. 1846, as follows:—
"I have heard of many cases of decided beneficial effects from its use, especially in Asthma, and Chronic Cough of spasmodic character. I have used the Wild Cherry a great deal in practice, and with marked good result in those cases of great nervous mobility, and irritability, to which physical patients are subject. I have no doubt it is the best form in which the effects of Prussic acid may be had as a sedative on the constitution without danger to the patient. Every one knows the reputation of the Turpentine and Balsam constituents in protracted coughs. The combination of these principles in Wistar's Balsam of Wild Cherry is ingenious and judicious.
"Medical men are justly distrustful of Patent Medicines in general, but candor must discriminate between outrageous nostrums and humbugs and those medicines which have proved salutary, and in many well attested cases, curative."
None genuine unless signed I. BUTTS on the wrapper.

DICKEN'S HOUSEHOLD WORDS AND UNITED STATES WEEKLY REGISTER
NEW ARRANGEMENT.—The publication of this periodical will hereafter be carried on by the undersigned, who have become sole proprietors of the work. With the present volume commenced a new series of the work, under the title of "Dicken's Household Words and United States Weekly Register." The original work has attained such an unprecedented popularity both in England and this country, as to render any commendation of it in this place superfluous. For variety and richness of information, vivacity of style, and genial tone of feeling, it has no rival in English periodical literature. It may justly be called the greatest intellectual labor-saving machine of the age. One has only to peruse its pleasant pages to become master of an amount of knowledge which it has required no small degree of research and energy to accumulate in this condensed but fascinating form. Nor is it less valuable in point of pecuniary saving. The price of this work for one year will give more mental entertainment and instruction to the family circle than ten times the sum spent for the common run of books. In the present edition, of copious summary of statistical facts will be given with each number, which cannot fail to prove of service to the American citizen, both for present use and future reference. The work will continue to be issued in a style of great typographical neatness, forming two volumes a year, worthy of a distinguished place on the shelves of the library or the drawing-room table.
The "Weekly Register" portion of this work contains a record of important statistics, as well as of other passing events of general interest in the United States.
The present volume of The Household Words commenced with No. 1 of the New Series, with which, and the succeeding numbers, all new subscribers can be furnished.
TERMS.—The Household Words may be obtained of Booksellers, Periodical Agents, or from the Publishers No. 17 Spruce Street, at $1 50 a year, or 3¾ cents a number for single copies; 2 copies for $4 50; 3 copies, $6; 5 copies, $9; 10 copies $15. Clergymen supplied at $1 75 per annum.
Liberal arrangements will be made with Agents and Postmasters for its circulation.
Persons contemplating subscribing to a periodical will do well to procure a specimen number before deciding.
All orders must be addressed to
