
Two Kinds of Economy in the Post-War Maxwell

THE Post-War Maxwell inherited from its 300,000 predecessors two traits that captivate the person who likes continuous, uninterrupted, comfortable and low-cost mileage.

One is its freedom from repairs. It runs on and on. Give it gas, oil, grease and water and it will deliver an amazing amount of mileage.

The second is the low price you pay per mile. Its thrifty engine with Hot Spot and Ram's-Horn, makes gas go a long way. Its 2,000 pounds of weight assures long tire wear.

Such kinds of economy came from years of study and the experience which 300,000 previous Maxwells have taught.

The notable improvements and refinements to be found in this car have caught the attention of many who figured that high efficiency meant high price.

A demonstration of the Maxwell will convince you that a fine motor need not involve an extravagant outlay. Call at our showrooms, or let us know you are interested, and we will call at your home—with a Maxwell.
