The Grand Valley Star says a flock of wild geese located in a field near there but local sports who made the attempt did not succeed in capturing any. It was different with a flock here. One of our ocal riflemen succeeded in bringing down two fine specimen's out of a flock with one bullet from his 30-30 Marlin, and later a single bird. One of these birds weighed ten pounds. Grand Valley sportsmen should come up here and get some pointers on shooting wild geese.

Wearing Away Your Lung ?

Yes, and your strength too. Stop coughing and get rid of that catarrh. The one remedy is "Catarrhozone" which goes to the diseased tissues along with the air you breath; it can't fail to reach the source of the trouble its bound to kill the germs and as for healing up the sore places, nothing can surpass Catarrhozone. If you don't get instant relief and ultimate cure you will at least get back your money; for Catarrhozone is guaranteed to cure catarrh in any part of the body. You run no risk—therefore use Catarrhozone—at our expense if not satisfied.

An Orillia coroner and jury are inquiring into the death of an eleven-year-old lad named Russell Penley, as a result of drinking whiskey. It appeared from evidence given by the dead boy's father and a little companion that Russell and several other boys were treated to whiskey by Sam Symington, an Atherley farmer. Symington, it is alleged, after giving the boys several drinks, handed over the bottle to them, half full of liquor, and young Penley swallowed it. On arriving home he was put to bed to sleep off the effects, but as alarming symptons appeared some hours later, medical aid was summoned. The lad never regained consciousness, and, after suffering from convulsions, died.

How to Ward oft Old Age.

The most successful way of warding off the approach of old age is to maintain a vigorous digestion. This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlains Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these Tablets to be just what you need. For sale by W. E. Richardson.

A young man took his best girl to church Sunday evening, and, stopping at the end of the back pews, turned to the usher and said, "I guess we can squeeze in here." "Yes," said the usher, with a subdued smile, "I guess you can, but probably it would be better for all concerned to wait until you get home.

A Bad Bruise.

Often causes a good deal of trouble. The best cure is prompt application of Nerviline which instantly stops the pain prevents swelling, removes all blackness and discoloration. Nerviline is antiseptic—prevents blood poisoning. No liniment so strong, so penetrating, so swift to destroy pain. You miss a lot of comfort by not using Polson's Nerviline. For nearly fifty years it has been the standard family liniment of Canada.

Distance lends enchantment to the view and at a range of 2000 miles or more, the rosy tales of fabulous wealth in the North west, and accompanying calls for laborers in the fields, it is quite natural that many in this part of the Dominion are impelled to go out and inspect the prospects. All do not find the same results there, as it is quite evident from letters received from some who have gone out West, and from the reports of others who have returned. From these two sources it is learned that while the land will produce lots of grain, it takes some money and time to secure results, and for getting a job, there are about 6 men for every opening. This is how the Davison boys found it, for they returned last week. No doubt when harvest arrives there will be an increased demand, but at the present time there are thousands walking the streets seeking work.—Grand Valley Star.

The following story, which originated in Toronto, has been going the rounds of the press, and we can no longer resist the desire to give it to our readers: A certain young lady teacher in a kindergarten, who, although exceedingly modest likes to be friendly, boarded a Spadina avenue car the other morning, and looking at a gentleman who was reading his paper, remarked to him: "Why, how do you do, Mr Brown?" The man stared at her in astonishment and she realized she was mistaken in the person, and to rectify her mistake said: "Oh, I beg your pardon, I thought you were the father of one of my children." This did not raise a smile, and the embarrassed girl left the car at the next street.
