Lightning played some peculiar pranks at Eugenia during a thunder storm one day last week. This electrical display was of the frisky kind that appears to delight in frightening people without doing much damage. The fluid payed over the electric light wires, burning out the transformer, jumping switches and entering houses, where it generously gave a pyrotechnic display that actually raised the hair of inmates. Some saw balls of fire, others were paralyzed for a few moments. This was not in individual cases for many citizens had experiences to relate. Mr. F.T. Carr was crossing a room at the time and described his sensation as similar to having tripped over some obstruction. Some felt as though a brick bat had hit them in the back of the head. One young woman, living a couple of miles from Eugenia, while at her sewing was thrown across the room and said it seemed as though a stone had hit her in the back of the head. Through all this uproar there appears to have been no material damage done, other than burning out some fuses on the light line, but it was exciting while it lasted.

The farmer who had live hogs and held them for a higher price will now be kicking himself around the lot because he didn't cash in a couple of weeks ago. Prices rose steadily until they went to about $7 per cwt. But now they are going down again and are to day quoted at $6.50 by the Collingwood Meat Co. It may be taken as a safe rule that the time to sell anything—whether it is pork grain or stocks—is when the sale will bring a fair safe profit. Holding on, even when the market is "hitting the roof," takes a man into speculation, and speculation is always risky.—Stayner Sun

Chamberlain's Cough Remedy the Very Best

It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by W. E. Richardson.
