YOUR money is hardly earned, and as proceeds are received from sales of crops, hogs and other live stock, the money should be deposited in the Bank, where it will be safe until again required for farm operations.

There are always men to recommend schemes and investments for your money, which may or may not be safe, but about which YOU know little or nothing. Let the man who gets money easily take the chances. Keep your money in The Bank of Toronto, where you can get it when wanted.

Approved Business Training

The Minister of Education for Ontario has recognized the special work done by Principal Fleming of the Northern Business College, Owen Sound, in training for business and personality development of the individual student by approving of his school courses and methods of instruction for adolescent students, in fact for all students. This is the first school, and at this writing the only business school in Ontario, to be approved by the government.

Principal Fleming's school, his work, and splendid record in finding employment for his students is well known throughout the province. The Northern Business College training is the best any young man or woman can get to start on a business career, whether on the farm, in the village or the city.

In Memoriam

PHILLIPS—In loving memory of Corporal H. Phillips, killed in action in France, August 8th, 1918.

Not dead to those who loved him,
Not lost, but gone before;
He lives with us in memory still,
And will for evermore.

Do Not Set Out Fire Without a Permit

THE welfare of new agricultural communities in this Province requires that land clearing be done with the cheapest agent at hand—Fire. Therefore, restrictions must hamper settlers as little as is consistent with safety to lives and property. Disastrous experience proves that in hot, dry weather unregulated use of fire in thickly wooded Northern Ontario means a menace to the lives and property of settlers and destruction of the provincial forest resources upon which a large part of Ontario's revenue and the livelihood of thousands of her citizens depend.

That is why Ontario adopted a "Close Season" and the "Permit System" for setting out fire. But, remember, whether you have a permit or not, you are responsible for damages caused by any fire you light. Be careful—

Save Ontario's Forests
They're Yours

The "Close Season" for setting out fire in Northern Ontario is from April 15th to September 30th. During that time within the Permit Area no one may set out fire for **clearing land**, disposing of **debris** or other inflammable waste, or for any **industrial** purpose, without first obtaining a written fire permit from a Fire Ranger. This applies not only to settlers but to railway section crews, camp and mill crews, road builders, including Government employees, and all other persons.

When starting fire for **cooking** and **camping**, the law requires that a place be selected free from inflammable material, that every reasonable precaution be taken to prevent such fire spreading and that it be thoroughly extinguished before quitting the place.

The "Close Season" applies to all Ontario north of Bobcaygeon and Smith's Falls and west of the line from there to Renfrew.

The Permit Area includes those parts of Nipissing, Sudbury, Temiskaming and Algoma lying north of the C.P.R. between Mattawa and North Bay and north of the C. N. R. westward to a point some 35 miles beyond Hornepayne.

The remainder of the Province forms the Exempt Area. Within the sparsely peopled Exempt Area no permits are generally issued, but those setting out fires in the "Close Season" are required to exercise every reasonable precaution and a Chief Fire Ranger, if he deems it wise, may serve a Prohibitory Notice and require a person to take out a permit.

The Fire Ranger does his best to follow the happy medium between the desire of the settler to "get a good burn" and the requirements of Public Safety. Help him all you can.
