Professor Alex. C. Barry's Tricopherous,

MEDICATED COMPOUND,

FOR Beautifying, Curling, Preserving, Restoring and Strengthening the Hair. Relieving Diseases of the Skin, Curing Rheumatic Pains, and Healing External Wounds. Bounded by no geographical lines, the reputation of BARRY'S TRICOPHEROUS pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Professor BARRY, after a careful examination of his sales' book, find that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 95,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous, when the public have furnished such an indorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertized itself. The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind. The highest point has not yet been reached, and it is believed that the sales this year will be a *million and a half of bottles.*

Depot and Manufactory, No. 137 Broadway.

Retail prices, 25 cents a large bottle.

☞ Liberal discount to purchasers by the quantity; and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

New York, May, 1853. 114

J. J. WHITEHEAD.
Kingston, July 22, 1853.

KELLINGER'S REMEDIES

ARE certain to cure, no matter what the disease or weakness, with either sex. The refined Family Liniment, $1 each; his remedy for preventing sea sickness, $1 each. His magic fluid has restored the hair when bald twenty-five years—it never fails—$1 each. His new medical charm will cure heaves, sores, cuts and bruises, and work the horse daily, $1 each.—The old liniment, that has been used by Hiram Woodruff and all the best horsemen in the United States, (50 cents, or $4 a dozen,) continues to delight and astonish them. Depot, 230 Pearl Street, New York City, Ingersol & Co., and 476 Broadway, and of almost every store and drug gist throughout the city and country.

N. B.—The Dr.'s Syrup, or Renovating Cordial, is the most delightful and strengthening remedy ever offered to the public. It not only cures and delights the sick, but it seems to act like magic in rejuvinating the aged. Full and clear directions with each remedy.

THOS. HENDRY.
29th July, 1853.

Ault's Railroad Horse-power Oversho Thresherand Separator.

For Two Horses: Thresh from 150 to 175 bushels per day—Price $160 or £40 currency.

For One Horse: Thresh from 60 to 100 bushels per day—Price $130 or £32 16s. currency.

THESE Machines have been arranged with the strictest regard to economy, and every exertion has been made so as to simplify the machinery that any person of common intelligence can work them and repair them, in case of accident. It is well known, that on a Railroad a Horse can move a much greater load than in any other manner. This principle has been adopted in these Machines. The horse power is, in fact, a moveable Railroad—the weight of the Horse does nearly all the work, and so easily do they run, that when once in good working order, and well greased, it is always necessary to use the brake before they can be stopped. It will thus be seen that these Machines have the following advantages over those already in use:—They are Cheaper, and not liable to accident. They enable a farmer to do his own Threshing at leisure times and in wet weather, without being dependent on extra help. They take no room and can be easily moved from place to place—From the simplicity of construction any part can be replaced, and duplicate parts had from the Agents, and the nearest mechanic can replace the broken portion. They enable a farmer to thresh his grain as he requires it—either for the grain or the straw.

THESE MACHINES may be worked with three or four men, and if not found to do they work as represented may be returned within 60 days, and the payment refunded.

May be had at the factory of the inventor,

JOHN AULT,
Sydenham, Co. Frontenac.
July 22nd, 1853. 175

SEARLE & WINTER.
Kingston, Dec. 20, 1852.

IMPORTANT TO HOUSE KEEPERS.

Something better and more economical than Soda, Cream Tartar, or any other preparation in existence for Baking.

DURKEE'S CHEMICAL YEAST, or BAKING POWDER—For raising Bread, Biscuit, Fried Griddle and Johnny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c., &c. This article is one that every

Family, Hotel, Boarding House,

Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the *very thing needed every single day of their existence.*

Its most important advantage over the old system, are—

1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast,—water only being necessary.

2. No time is required for the dough to rise before baking; consequently bread may be made in a few minutes.

3. A cook can always depend upon having light sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented braad, prevents the proper action of the gastric fluid upon it, and consequently, a portion only goes to nourish the body, while the acid tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is *warranted* to suit.

☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 139 Water-street New York. Sold by the best grocers and druggists generally.

New York, Feb. 20th, 1853. 45

Wharfage, Forwarding & Storage.

G. M. KINGHORN

BEGS to inform his friends and the public that he has leased from John Carruthers, Esq., for a term of years, the UNITED STATES AND BAY OF QUINTE WHARVES, where he intends commencing business on the 1st April, as

Wharfinger, Forwarding Agent, Commission Merchant and Custom House Broker.

The Premises have a large Fire Proof Stone Store and Sheds erected on them, and are the most commodious for Storing and Transhipping in this Port. These Wharves being the stopping places for the United States Lake and River Mail Line, Bay of Quinte, Cape Vincent, and other Steamers, every facility is afforded to give despatch to Goods passing through his hands.

Any business in his line will be attended to with promptitude, and he trusts by long experience in the trade, attention to business, and reasonable charges, to receive a fair share of public support.

"PANKORITE."

Important to Thousands!!

Myers' Extract of Rock Rose:

AN invaluable Remedy for all Scrofulous Diseases, Indigestion, Salt Rheum, Sick Headache, Canker, Nursing Sore Mouth, and General Debility; and as a Purifier of the Blood, is unequalled.

To be convinced that it is the most valuable Medicine of the day, you have only to read the testimony of its efficacy. As a Family Medicine it is invaluable, and one which no person should be without.

The ROCK ROSE has gained a reputation, at home and abroad, which no other medicine has ever done in the same length of time.

According to the opinions of Eminent Physicians, the ROCK ROSE Plant is unequalled in curing Scrofula in its various forms! The Sick Headache, in Obstinate Chronic Cases, may here find a Sovereign Remedy. The Canker and Nursing Sore Mouth! in numerous cases, have been speedily cured.

BUT WHAT IS THE ROCK ROSE?

The following history of the Rock Rose Plant and its medicinal properties, we take from the New Haven Palladium, March, 1852:—

"The increased interest manifested in the ROCK ROSE Plant in consequence of the many wonderful cures effected by 'Meyers' Compound Extract of Rock Rose,' calls for a brief history of it, in order to correct any erroneous opinion that may have been entertained concerning it; and also to set in a true light the nature of a plant which promises to be universally beneficial.

We are indebted to the United States Dispensatory of 1847, for the following description of it:—

It is entirely different from the common Rose. It is a red-stemmed, oblong leaf plant, having a bitter taste. In addition to a remarkable peculiarity of the plant, of bearing two crops of flowers in one season, it also has another interesting and beautiful property.

Dr. Eaton says that in the months of November and December, he has seen hundreds of these plants sending out, near their roots, broad, thin, curved ice-crystals, about an inch in breadth, which melted during the day and were renewed in the morning. For a more minute and analytical description of it, the reader is referred to Torrey and Gray's Botanical Works.

Its Medical History and Properties are far the most important, since upon these depends its value to the community. Dr. Loudon says that in 1799 it was so valuable in England that it was cultivated from the seeds. Ever since 1806, Prof. Ives, of Yale College, has habitually used it with great success in Scrofula and Chronic Disease, and through him its virtues were made known, until, as Dr. Tyler says, 'it is now in this section [New Haven] a common article in domestic practice for the cure of Scrofula and cutaneous diseases.'

Dr. Isaac Parish of Philadelphia, remarks that it has been successfully used in bad cases of Scrofula Diseases.

Dr. J. H. Thompson, of the same place, prescribed it in bad cases of Scrofulous patients at Willis' Hospital. His success attracted the attention of senior physicians. He reports the following remarkable case of White swelling of the hip, in February, 1844:—The lad was seven years old, and had the disease for three years. The bone was dislocated upward and outward. There was a large opening on the hip leading to the bone, into which I could thrust my finger. I counted three ulcers. He had been under several physicians, who had given him up. I ordered a decoction of Rock Rose. In two days his night sweats ceased; I then ordered a teaspoonful of Rock Rose three times a day.—Thirty-nine days after he was entirely well.

Dr. Webb, of Madison Ct., Testifies to the value of Rock Rose, as evinced in the cure of numerous cases of Scrofula, especially in children.

Dr Sparry, in his medical work published in 1847, quotes the strong commendation of Dr. Eli Ives, Professor in Yale College, who, in his lectures to the medical students, recommended the use of the Rock Rose, even in cases where the disease is uncertain.

The value of the Rock Rose has also been set forth by Dr. Tyler, of New Haven, Ct., in a dissertation avowedly prepared for that purpose, which afterwards, at the request of several of his medical brethren, was published in a pamphlet.

We quote from the preface. He says that since the delivery of this address, "the plant under consideration has been more fully tested its virtues developed, its character better established. This dissertation is published by the advice and approbation of several medical friends. The object of it is to lay before the profession, and the public, the virtues of a plant too much neglected. I ask for this plant an impartial trial. I will conclude by asking only of the profession and the public, a more extended trial of the ROCK ROSE."

Manufactured by WM. FRANKLIN & CO., New Haven, Ct.

For Sale by E. W. Palmer, Kingston, and dealers in medicine everywhere, where pamphlets may be had gratis.

River St. Lawrence.

NOTICE is hereby given, that TENDERS addressed to the "COMMISSIONERS OF PUBLIC WORKS," will be received at this Office, until THURSDAY, the FIRST DAY of SEPTEMBER next, for the opening and permanently defining a navigable channel throughout the whole of the Rapids of the St. Lawrence, from Prescott to Montreal: such channel to be not less than 200 feet in width, to have at no place, at low water, a less clear depth than 12 feet, and in those Rapids subject to much swell, not less than 13 feet.

It is to be stated in the Tenders, a bulk sum for the entire work necessary to open and permanently define a channel, as above mentioned, and the period for its completion.

The test for the Channel being so opened, to be, the passing of as many vessels as the Commissioners of Public Works may consider necessary, each vessel to be so loaded as to draw ten feet water.

The security for the performance of the work to be ample and 'bona fide.' Conditions of payment and any other information may be known by applying at this Office.

Tenders to be endorsed "Tender for improving the Rapids of the St. Lawrence."

By order,

THOMAS A. BEGLY,
Secretary
Department of Public Works, }
29th June, 1853. } 15.6

THREE TIMES A-WEEK

To Rochester New York, and Boston.

THE STEAMER

PRINCESS ROYAL.—CAPT. KERR,

WILL leave TORONTO for ROCHESTER, every TUESDAY, THURSDAY and SATURDAY, at 10 o'clock, calling at all the north shore ports, weather permitting.

Tickets for New York and Boston procured at this office.

1st class to New York, including meals and staterooms to Rochester $7 50
2nd class 5 00

BRITANNIA LIFE ASSURANCE COMPANY,
No. 1 Princes treet, Bank, London
CAPITAL, ONE MILLION.
EMPOWERED BY SPECIAL ACT OF PARLIAMENT
4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the *Britannia* are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eight and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continual accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure *an immediate Bonus* by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are 'Mutual Tables' adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not rendered void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a *bona fide* Creditor, the sum assured will be paid without deduction; if the Policy be not assigned the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances may be obtained either by letter or personal application to

THOMAS BRIGGS, JUNR.,
Agent at Kingston.
