More Fish At Eugenia Reserve

150,000 Young Fish Dumped in the Waters of the Eugenia Reserve Saturday Afternoon

In the presence of several visitors S. Mills, Minister of Mines and Forests; D. McDonald, Deputy Minister of Game and Fisheries; Geo. M. Leeson, member for South Grey in the Legislature, and A. W. McLeod, supervisor of hatcheries, on Saturday afternoon last poured the first cans of the second shipment of fish to be put into the waters of the Eugenia reserve.

The shipment, consisting of 150,000 fish, was dumped into the waters and are only part of a government program to plant 300,000,000 fish into the waters of Ontario this year.

Altogether 50 cans containing the young trout were brought to Flesnerton station on Saturday morning from the government hatcheries at Sault Ste. Marie and are of the Nipigon variety. The C.P.R. donated a special car for the transportation of the fish from the Soo to Flesherton station and then taken the eight miles to the Eugenia reserve by motor truck. Some cans were dumped at Cameron's sideroad, some more in the Black Creek at Thos. Howard's and the remainder at the dam in Eugenia. A large shipment of the same variety of trout were put in a year ago. It takes one year for these fish to grow to be three to five inches in length and in three years seven inches long when they begin to spawn.

Moving pictures were taken by the Pathe News Service of the operations and these will be shown in the big centres soon.

Insurance Is Good, But—

Insurance will, in a measure, repay you for loss from fire due to lightning.

But *it will not prevent the fire.*

It takes the DODD System of Lightning Protection to do that.

In the past thirty years over 300,000 buildings have been rodded by the DODD System and in not a single instance is there a record of the DODD System properly installed, having failed to prevent damage by lightning.

The fact that you haven't yet suffered loss by lightning only means that you are fortunate, not that you are proof against it. *Ask us today what it will cost you to have DODD protection!*

Two of Lauder's Best

Only Sir Harry Lauder himself could have composed "The Waggle o' the Kilt" and "Bella McGraw." This record is the very essence of Lauderian humor—and that's enough to chase the glooms, even before you hear it.
