A sad case occurred on the 3rd line, Euphrasia, on Sunday, when Mrs. J. T. O'Brien and an infant just born, passed away within a few hours of each other, notwithstanding the efforts of two physicians to save the young woman's life. Mrs. O'Brien's maiden name was Kerfoot She had been less than a year married to her bereaved husband, a son of Mr. John O'Brien.

A family gathering took place at Mrs. John Clintons' on Sunday, consisting of Mrs. Jos. Gamey and two children, Mrs. Robt. Meldrum and two children, Mr. and Mrs. Wes. Clinton, Mr. and Mrs. Jos. Clinton, Mr. and Mrs, Oliver of Buffalo, Misses Kerr of Toronto and Mr. John Aiken. All attended church in the evening and enjoyed the service.

The receipts at the garden party at Mr. A. Beatties amounted to over twenty-five dollars.

Mrs. Robert Rutledge moved, last week, into Mrs. Boyd Thompson's house, and Mrs. H. Radley has moved to the house vacated by Mrs. Johnston.

It is possible that in the near future a branch of the Standard bank will be opened in Flesherton. The announcement of such intentions was made in the Mail and Empire and Bradstreets last week. The facts are these: Mr. Kelly of Durham, representing the Standard bank, came over on Thursday last and submitted a proposal to Mr. Geo. Mitchell, our private banker, by which the Standard would take over his business and place him in charge as manager. Mr. Mitchell has this proposal now under consideration, and has not yet given a decided answer.

Mr. Arch. Boyd, East back line, sold his 90 acre farm on Tuesday to Mr. John Foster, of Orangeville, possession to be given October 1. The purchase price was $2850. Mr. Boyd will probably take up his residence in town. Previous to doing so he will hold a clearing sale of all his farming utensils.

Toronto is inviting all the celebrities in sight to come and visit their big show. The celebrities, however, appear to be shy and as a general rule express regrets. The managers are now fishing for the Jap and Russ peace delegation, but have not landed them as yet.

Tuesday was Flesherton's civic holiday, and of all the holidays this burg has been blest with it took the cookie. A cold east rain dampened the ardor of everything in the shape of fun making. The men responsible for setting aside Tuesday as a holiday should be ashamed of themselves. The railway gave single fares but less than a dozen availed themselves of the privilege.

Mr. Wm. Hogg, an old citizen of the township but for the past fifteen years a resident of Toronto, died at his home in the city last week. Deceased was identified with Artemesia affairs for many years. He at one time owned a sawmill near this village, and later kept a store and post office at the station. His son, Mr. J. R. Hogg, of Eugenia, is at present the only member of the family residing in this vicinity. We have been unable to procure particulars of the old gentleman's life, but understand that he was 78 years of age.

A quiet wedding took place in town on Thursday last, at the residence of Mr. S. Boggs, when his eldest daughter, Miss Maud was united in matrimony to Mr. John Williams of Holland Centre. Dr. Caldwell performed the ceremony and the bride was given away by her father. The young couple left the following day to visit friends for a time, and later will remove to the Northwest, where they intend to reside.

The well-known Elliott Business College, of Toronto, has enjoyed a splendid patronage during the present year, and this is no doubt due to the superior training that the College imparts. The fall term opens on Sept. 5, and already many have signified their intention of being present on the opening day. "Thoroughness is the keynote of this institution" is the motto of the Elliott Business College, Toronto. All the graduates secure positions and the demand for students has, during several months of the year, been fully six times the supply.

It is announced that an old lady has been sent to jail from the House of Refuge as insane, because she pulled the manager's whiskers. We suppose there are plenty of women in this county who will question the validity of the evidence as to the woman's insanity. By these, hair and whisker pulling is looked upon as a harmless pastime, and they would object strongly to being incarcerated as lunatics. In fact almost every county would require its asylum as well as house of refuge, if a woman's standard of mental strength were gauged according to her in- or disinclination to pull whiskers. What does Brother Rutledge of the Markdale Standard think about this thing, anyway?

The Telescope, speaking of the new Walkerton-Flesherton branch of the C. P. R. says: "The line from Walkerton to Flesherton is going to be a difficult one to build. The grade reaches the maximum being what is called one degree or 53 feet to the mile, and the curves in many cases will be remarkably short. From Walkerton east it will be up hill all the way. Walkerton is 811 feet above the sea level, Hanover 890 feet, while the junction near Flesherton the elevation is 1568 feet. At Hanover the line will cross just south of the cement factory, and will then point straight west until it crosses the river. The bridge here will be a long one and 22 feet above the level of the water. In all probability the work of construction will begin next spring.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy knows this to be a fact. For sale by W. E. Richardson.

A total eclipse of the sun occurs on August 30, observable on this continent in Labrador about a hundred miles inland from Hamilton Inlet. Representatives of Toronto University will accompany an expedition in charge of Dr. King of Ottawa. In Toronto the eclipse will be seen as a partial one commencing at 5.39 a. m., maximum 6.34 a. m., and ending at 7.34 a. m. The same time will practically apply to Flesherton. Slightly more than three quarters of the sun's surface will be eclipsed as viewed from about this point.

Sick headache results from a disordered condition of the stomach and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale by W. E. Richardson.

Dr. Godwin, director of the School of Mines, Kingston, has returned from an extended trip through the Temiscaming district. He says settlers are constantly going in and taking up the land to the north, and the woods are full of prospectors. It is agreed by all men of experience who have visited the district that it is the richest silver district the world has ever seen. The best feature of the district is that most of the discoveries have been made by Canadians, and they have retained possession of the property. Very few sales are recorded. The men who discover the mineral find that they need no capital to develop their properties. A few tons of ore will realize all the necessary capital. Young men have started in with almost nothing this summer, and are now able by the sale of a carload of ore to realize from 20,000 to 40,000. Already prospectors are looking with longing eyes at the south of the district, and where prospecting is forbidden. It is believed that the government may arrange to throw the northern triangle of these limits open.
