Industrial Home Notes

(By an Inmate)

On Wednesday, the 30th ult., the hospital sergeant sat at the window patiently waiting for old Sol to make the ascent from behind a dark cloud, to the blue spot above in order to get a glimpse of the much talked of eclipse. His desire was at length realized, for a short time, at any rate. On observing the phenomenon, he enthusiastically ejaculated, look! look! ain't it funny! See how it dances, that's the way it dances in Ireland on Aister morning, ain't it funny! He then went on to relate that he knew people in Ireland bring their asses into the house the night before Aister and just as the clock finished striking twelve, the ass would drop on his knees and bray. Well, old fellow, that's nothing, they may be frequently heard braying in this house at all hours, Easter or no Easter, and not in so pious a position, ayther.

Lachlan McDonald, of Owen Sound, was admitted to the home on Monday, the 4th inst. Notwithstanding the 78 summers that have passed over his head, Lachlan is still robust, hearty and healthy, his only ailment being a very lame leg, the sinews of which are badly contracted, but he contemplates leaving in spring and earning his own living during the summer months. He is a most agreeable old fellow and makes himself willingly useful about the house. He discarded his spectacles fifteen years ago and says he can see to read as clearly now as when he was 25 years old. Although close on to 70 years in Canada he speaks the Highland Scotch dialect and Gaelic just as though he had only arrived fra the "land o' cakes," yesterday.

About 6 o'clock p. m. on Sunday, the 3rd inst, Mrs Carrigan, the aged, blind and insane inmate, unobserved leaped from the window of her room to the ground below. Fortunately the fall was but a few feet and she escaped further injury than a badly sprained ankle. She had been in the day room with the other old ladies a good portion of the day and was as usual taken to her own little room by her room-mate, the strongest of the old ladies, who had no sooner turned her back than she was out of the window. Towards midnight on Friday she became violently troublesome, screaming with all her might. Getting out of her bed she scrambled over to her room-mate and catching her arm, tore the sleeve of her night dress and badly scratched her arm and hand. The staff were aroused and had considerable difficulty in pacifying her. All the old ladies are afraid of her. This is another proof the inadequacy of the institution and staff as a fit place for insane inmates.

There was a considerable number of visitors registered on Thursday last.

It is pleasing to note that the morning and evening voluntary devotional exercises conducted by one of the inmates, is steadily increasing in interest and attendance, having risen in numbers from three to eleven, since its inception, about three weeks ago. May the good work continue to grow.

On Sunday last divine service was conducted by Messrs. Eunis and Crone, the latter gentleman delivered an impressive and forceful discourse from Matt. 16—30, 31. Mr. Crone is a fluent speaker, closely drawing the attention of his audience and is always a most welcome assistant in our service. Mr. Harness took Mr. Crone's Bible class in the Methodist Sabbath School.

Coughers, Hawkers, Spitters.

Public expectoration is against the common law, against the laws of health also. When the throat tickles, that's the time you need Catarrhozone; It soothes away the irritation, cuts out the phlegm and loosens the tight feeling. You'll quickly cure that catarrh and throat trouble with Catarrhozone. It positively prevents new attacks and cures catarrh forever and for all time to come. Don't take our word for it, try Catarrhozone yourself. Once used you'll be delighted with it's pleaant and helpful influence.

Mr. and Mrs. Henry Down have been called upon to bear the loss of their eldest daughter, Mary Lilian, a little girl of eleven years. Two weeks ago Monday she attended school and appeared in her usual health. The day following she was attacked with appendicitis, medical aid was soon called and until the day previous to her death the disease seemed to be yielding to treatment, but suddenly a reaction of symptons set in and she died on Friday last. Lilian was an unusually bright, intelligent and good little girl, and although young in years she was far advanced in christian experience and for the past two years as opportunity offered would bear testimony to the experience she enjoyed. The funeral service on Sunday was conducted at the family home by Rev Dr. Caldwell. Among the many beautiful floral offerings was an anchor from Lilian's school mates.

What causes Appendicitis?

The commonest cause of appendicitis is constipation. When you require physic don't use cheap drastic pills—get Dr. Hamilton's Pills which strengthen the stomach, regulate the bowels and prevent any tendency to appendicitis. In one day you'll feel the tremendous benefit of Dr. Hamilton's Pills. By purifying the blood and cleansing the system they prevent headaches, lift depression and drive away weariness. No medicine so successful as Dr. Hamilton's Pills, sold everywhere in 25c. boxes with yellow cover; get the genuine.

Chills Prove Fatal,

If warmth and circulation are not promptly restored, chills result in fatal pneumonia. This necessitates keeping Nerviline on hand. Taken in hot water it breaks up a chill in two minutes. By rubbing freely over throat and chest it prevents colds No liniment so strong, so penetrating, so swift to kill pain and inflamation. Nearly fifty years' record has proved the value of Polson's Nerviline. You should get a bottle to-day.

McFarland, Stafford & Co's. Big Store

MARKDALE, ONTARIO

Grey County's BIGGEST and CHEAPEST STORE

Eager For Business

Everybody around this big store is eager for business. The Summer holidays are now a thing of the past. We've all had 'em—from the delivery boys to the heads of the firm. The consequence is we're all back feeling refreshed and eager for the fray, anticipating the biggest and busiest Fall and Winter season this store has ever seen.

Every Condition Warrants it.

Times are good, crops are good, all kinds of farm produce are bringing big prices. For months past we have been planning for this Fall and Winter business—buying for spot cash in large quantities gives the entrance to the best mills and manufacturers in the Dominion. Our Old Country importations are larger this season than ever before.

The Way We Save You Money

Years ago we formed a connection with some of the largest and best dry goods firms in the old country, among them being MESSRS. RYLAND, SONS & CO., Limited, Manchester, England. This firm is claimed to be the largest Dry Goods concern in the world. They control a large number of mills in the British Isles; do their own bleaching, do their own dyeing, do their own printing, etc., in fact they employ year in and year out over 12,000 hands. Messrs. Rylands, Sons & Co., Limited, send a representative to Canada twice each year. We have control of their large range of samples for Markdale and it may interest you to know that their representative only calls on one other firm between Markdale and Toronto. Common sense will tell you that importing direct from a large concern like this we not only save all middlemen's profits, but CAN and DO BUY merchandise cheaper than the average store possibly can.

Large Arrivals of Fall Goods

For weeks past both Canadian and imported goods have been arriving by dray loads and we have been kept at our wits end to find a place for all the new goods. Our store is large, but every available foot of room will be needed.

You are Invited

We extend to all a wide, open invitation to make this store your headquarters—meet your friends here—rest here—use us in every way you can. A waiting room provided with mirrors, comb, brush, whisk, etc., is at your disposal our wash and toilet room is at your convience. Make use of it.

Keep Abreast of the Times. We claim to have the most up-to-date store and up to date store methods in this county. We are trying continually to see what a thoroughly comfortable place we can make this big store to trade in. We want you to feel at home here. Examine the goods and compare values to your heart's content Every department is now crowded with bright new fashionable goods, gathered together from the best markets of the world, bought at the lowest possible prices and marked at the lowest living profits and sold on this guarantee "your money back if not satisfied." We want your trade. We can save you money. Come in and take a look around. No need to buy unless you wish.
