The Markdale Standard asks why it was that the local press did not advertise the date of their fall show. So far as this paper is concerned the reason was this: The Markdale fair was not in the list of dates issued by the government, from which we copied our list, and the directors of that society were remiss in not supplying the local press with their date. They did not even send a prize list, and the date of their fair was not known in this office until less than a week before the event. If the directors of the Markdale fair do not think it worth while to supply the local papers with a copy of their prize list or to acquaint them in some way with the date, surely it is not worth while for the local papers to bother themselves writing for it.

The bride, handsomely gowned in ivory silk, was attended by Miss Clare Heard, while the groom was ably supported by Mr Hugh Hammond. None but the immediate friends of the bride were present. After the ceremony all sat down to supper, after which the evening was spent in music, social chat, etc. The groom's gift to the bride was a handsome gold bracelet, while the bridesmaid and groomsman also received suitable presents. Mr and Mrs. Barnhouse left for Edmonton, on Monday, Oct, 3, where they will reside in future,

Some months ago a bantam hen in town brought out and raised a solitary chicken. In the course of time she considered that the chick was old enough to look after itself and so started to lay again and in a few weeks hatched out eleven little chicks. During the process of incubation, the first chicken hatched on the eggs with the mother, never leaving the nest except for feed. Although the last brood are now several weeks old, the first chick remains all the time with the flock, covering her share along with the mother. When feed is given it calls the smaller chickens the same as the mother does, and in many ways shows a strong filial affection for all the members of the family.—Fergus News Record.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. For sale by W. E. Richardson.

A lady in Eramosa has a fine rosebush that produced two crops of beautiful flowers this season, so says an exchange. That's nothing. A lady out at Tory Corners has an old unbeautiful speckled hen that has produced three crops of nice chickens this season and she has her own crop yet; and she did it all with her little hatch it.—Ex.

Dropped All Others.

"I dropped all liniments but Nerviline because I found Nerviline the quickest to relieve pain," writes E S Benton of St. John's. "If my children are croupy or sick, Nerviline cures them. If a case of cramps or stomach ache turns up, Nerviline is ever ready. We use Nerviline for neuralgia, rheumatism and all kinds of aches and pains; it's as good as any doctor." The great Canadian remedy for the past fifty years has been Polson's Nerviline—nothing better made.
