WHY RHEUMATISM OFTEN COMES BACK

The Usual Treatment Does Not Reach the Root of the Trouble.

Most treatments for rheumatism do no more than aim to keep down the poison in the blood and enable nature to overcome that particular attack. Then when the system becomes run-down from any cause the disease again gets the upper hand and it all has to be done over.

Sufferers from rheumatism who have found their condition unrelieved or actually growing worse while using other remedies, would do well to try Dr. Williams' Pink Pills. The tonic treatment with this medicine has proved in thousands of cases that it builds up the blood to a point that enables it to cast out the rheumatic poisons through the regular channels of excretion, the bowels, kidneys and the skin. When this is done rheumatism is banished, and as long as the blood is kept pure and rich the patient will be immune from attack. This is proved by the case of Mrs. J. Hewitt, Beach P.O., Hamilton, Ont, who says: "For a number of years I was troubled with muscular rheumatism, which caused me a great deal of suffering. I would get rid of the trouble for a time, but it always came back. A friend recommended Dr. Williams' Pink Pills and I have not had an attack of rheumatism since I took them, and that is five years ago. I have since used the pills for anaemia and found them equally good, and I now recommend them to any friends who may be ailing."

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Surnames and Their Origin

EYLER.

Racial Origin—English.
Source—A locality.

This is a family name which appears as though it might have some optical significance. But though of pure Anglo-Saxon origin it has no connection with our modern word "eye."

The word from which it is derived is spelled somewhat differently to-day, which explains the difficulty. If the family name were spelled "Isler" you'd stand a better chance of guessing the origin, or perhaps if it were spelled "Islander."

Really, however, there was a shade of difference between the meaning of the medieval word "eyler" and the mordern word "islander." The former meant as much "waterman" as "islander." According to geography an island is a section of land entirely surrounded by water. According to etymology, however, it is "water-land," a distinction, perhaps, without a difference. In earlier days the Anglo-Saxons called water "ea," and later the spelling of this root or word developed into "ey" (not, however, with a pronunciation like our word "ee," for in thoes days the "y," like the "i," was pronounced either as we to-day pronounce "ee" or the short "i.").

Until comparatively modern times, therefore, this family name was not pronounced "Eye-ler," but "Ay-ler," rhyming with "sailor."

STAPLES

Variation—Staple.
Racial Origin—English.
Source—A locality.

Here is a family name which has nothing to do with the article of hardware of the same name. It is founded rather, upon the same source as our modern adjective "staple" which we used to denote a common article of commerce. What is the connection?

It lies in the original meaning of the word. A staple article is a common or usual article of trade. The phrase has come to have this meaning because it meant originally a "market article," or a marketable article, and in the broad sense only an article in common demand is freely marketable. In the medieval period in which family names were being formed, the "staple" was an open market or trading place.

It was quite natural, therefore, that a man who lived at or near such a place should be referred to as "John De La (of the) Staple," or "William at the Staple." And, as has happened with virtually all of these descriptive surnames as they have become family names through the loss of their original specific meaning, these prefixes have been dropped in the course of time.

Here again is a case in which the addition of the "s" was but a tendency of the tongue, and did not represent a shortened form of the ending "son."

Where They Got Their Names.

Quite a lot of geography can be learnt in a stroll round a dry goods shop, for many of the fabrics and materials we use to-day get their names from the places where they were originally made.

For example, calico owes its name to Calicut, a town in India. In the days before Manchester was a great manufacturing centre most of the best calico came from Calicut, and even after the industry came to Britain the old name remained. India is also responsible for muslin, which came originally from a place called Mosul.

Two textiles owe their names to France. These are cretonne and cambric, the first of which came from the Normandy town of Creton, while the second is still manufactured at Cambrai.

How many people know that serge takes its name from China, whence it was introduced into England in 1660? The Latin name for China is Selicum, which gradually has changed into the modern word serge.

GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mother's best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

GETS HIM IN FINE SHAPE FOR WINTER

"Tanlac built me up in fine shape last Spring, and now I am getting another bottle as a tonic to keep me fit for the cold weather," declared Henry Duefenbach, 450 York St., Hamilton, Ont., recently. Mr. Duefenbach has been identified with the grocery business in Hamilton several years, and is very well known.

"My stomach was troubling me for a long time and I got into a badly run-down condition," he said. "Almost everything I ate upset me terribly, and gas would form on my stomach and keep me miserable. My nerves were unstrung, too, and many a night I never got a bit of rest.

"I was feeling simply all played out when I got my first bottle of Tanlac, but before I had finished it, the pains in my stomach went away entirely, my food began to agree with me and I have never had indigestion since. With my nerves calm, my strength back and my appetite in fine shape, I expect to enjoy Christmas dinner and all the good things of the holidays as I have not done for a long time. They can count on me to always give a good word for Tanlac."

Tanlac is sold by all good druggists.

Testing Coal for a Queen.

In olden days the Lord Mayor of London was one of the Sovereign's most trusted henchmen, and at times many strange duties have fallen to his lot. One of the quaintest was devised by Queen Elizabeth.

Until her reign coal was almost unknown in the South of England, though sea coal was gathered regularly from the shore and used in the North.

One day a Northumbrian subject sent her a consignment of coal. The Queen saw it burn on the hearth and enjoyed it pleasant glow. "Can it be used for cooking?" she asked. She was assured that it could.

But she was a cautious person. She sent a quantity to her Lord Mayor, ordering him to use it for cooking his own dinner and to report to her whether food treated in this way was fit for human consumption.

Not until the Lord Mayor had reported that he had eaten and survived would she have coal used in the royal kitchen.

NURSE THINKS NOTHING BETTER

Lydia E. Pinkham's Vegetable Compound Advised for all Women in Poor Health

Toronto, Ontario.—"I took Lydia E. Pinkham's Vegetable Compound for years and it is the only patent medicine I ever recommend. I am a nurse and if I find a woman is in poor health I always tell her to take it. Although you know that doctors and nurses do not use patent medicines I must say that I think there is nothing better than your Vegetable Compound. When I first took it many years ago, I was so tired when I got up in the morning that I could not eat, and when I went to bed I was too tired to sleep. My mother-in-law told me that Lydia E. Pinkham's Vegetable Compound was just what I wanted so I tried it and only took two bottles when I felt better. Since then I have found that there is nothing that makes me feel so well, for it seems to build my system right up. I don't know any other medicine that has done so much for women."—Mrs. W. H. Parker, 19 Wellesley Ave., Toronto, Ontario.

Women testify again and again that they have been helped by Lydia E. Pinkham's Vegetable Compound "after other medicines have failed." It has been tried for nearly fifty years and not found wanting.

If you are suffering from any of the various ailments which accompany female weakness try Lydia E. Pinkham's Vegetable Compound.
