Industrial Home Notes

(By an Inmate)

Archie Lockhart, the father of the home, left on the 3rd to better his fortune in the outside world. Archie is about 70 years of age, was the first inmate admitted to the home, having been admitted from Keppel on the opening day, 23rd of June 1904. He is strong and healthy but exceedingly deaf, was one of the few outside workers, and was generally busy at some kind of work. He thinks he can manage for himself a while longer since he has got rid of the lameness which was the cause of his coming here. We trust the old fellow will live to enjoy several years of independent liberty.

Although we have had some bad cases here and several deaths during the first years existence of the home, yet we think that the worst case yet is that of John McIntyre recently admitted from Glenelg He is in a most pitiable condition but is being as well and carefully attended as the adaquacy of the institution will permit. His attendants are a couple of badly crippled but otherwise tolerably strong inmates under the doctors instructions, and although their duties are of a most disagreeable yet absolutely necessary nature, they carefully and attentively attend their suffering comrade day and night.

Robert W. Cooper of Proton was admitted to the home on Tuesday last. Robert is the youngest inmate in the home being only in his 46th year, but from his appearance may be readily taken for a young man of 30. He is almost blind also partially disabled in the use of his limbs. He expresses himself as highly pleased with the home which he says by far exceeds what he expected previous to coming here. We trust he will continue to express the same sentiments.

There are at present 22 male and 10 female inmates, and it is just probable that from this onward the number of inmates will steadily continue to increase under the new regulations.

The grain crops were threshed on Thursday last; we understand the grain turned out well. Doubtless the minds of some of the old chaps will now rest easy as there is no flailing to be done as last year. Sol Hill did the threshing.

Mr. Ed Williams and daughter, Miss Lizzie gave your scribe a call on Thursday last when on their way to Dundalk; Mr. and Mrs. Robert McGruther of Markdale accompanied by Mrs. Talbot of Flesherton were callers on the same day.

We noticed a slight error in the brief sketch of your scribe's career which was given in last week's issue. He volunteered from the militia to the regular army in 1857, was transferred from the 80th Staffordshire regiment to the Bedfordshire in 1861 and joined the colors of the latter regiment in Canada in 1863. His reason for purchasing his discharge was, his commanding officer had decided to send him to England on the recruiting service to which he had a decided objection; but many a time since has he regretted the foolish step he took.

On Sunday the 8th, there were 105 outside attenders at our divine service. Not only was the service room literally packed but the corridor was largely occupied and some went away, being unable to find even convenient standing room. Miss Smith presided at the organ. As previously announced, Mrs. Simmonds the old blind lady, read the scripture lesson, Isaiah 53, from her raised type edition; she also sang the hymn, "Abide with me" in a clear distinct voice, which would have been creditable to a person many years her junior; she accompanied herself on the organ. The discourse, "Good Works" as previously announced to be delivered by a male inmate was not however fully consumated. The speaker had chosen for his text Psalm 37 3, trust in the Lord and do good. After closely drawing the attention of his audience for fifteen minutes he suddenly collapsed, being seized with a temporary attack of weakness which rendered futile any further attempts to continue the discourse. He had had a similar attack a few days previous which caused him the total loss of memory and left him in a dazed condition for two or three days He had apparently recovered and felt capable of carrying out the announcement but was unfortunately prevented as stated above but hopes to deliver the discourse on some future occasion. Mr. Ennis of Markdale took up the remainder of the service.

Reduced A Hard Swelling.

Mr. Gus E Geroux, writing from Pembroke, tells how he was injured in a lumber camp. "A heavy log rolled against my leg and I was laid up with stiffness and a hard swelling. When I applied Polson's Nerviline I got relief. A few rubbings with this good liniment cured me." In the bush, Nerviline is indispensable; it cures Neuralgia, colds, rheumatism and internal disorders too. No person can afford to be without Nerviline. Useful for all internal and external pain. Large bottles 25c. at all dealers.

Priceville

(Intended for last week.)

Artemesia fall fair at Priceville was a great success. The receipts at the gate broke the record this year. The concert was also a success, as it should be when such good talent was secured.

The weather still keeps fine and potato digging is the order of the day.

When You Grow Old.

The body needs patching—wasted tissues must be rebuilt, played-out organs restored—blood needs extra nourishment. Elderly people need Ferrozone—need it because it vitalizes and rejuvenates as no other remedy can. Ferrozone builds up the kind of strength that makes one feel good—keeps back the decay of old age and makes you look young and handsome again. Forget nervous exhaustion, renew your vital energy, again re-enter the life of youth. Your remedy is Ferrozone, only fifty cents per box at all dealers.

Eugenia

Married—Oct. 12, at Markdale, by the Rev. Ivison Wilson, at the Methodist parsonage, Mr. William Hawkins to Miss Sarah Duckett. As both the young people are very popular and highly respected the best wishes of a large circle of friends is extended to them.

The Rev. and Mrs. Sheppard, of Markdale, are visiting with the latter's uncle and aunt, Mr. and Mrs. Sam Pedlar, of Eugenia.

Mr. John Walker, of Creemore, is visiting at Mr. John Beecroft's.

Mrs. E. W. White, of Flesherton, is the guest of her sister, Mrs. J. A. Williams.

Married at Collingwood, Oct. 12, Mr. Joseph Thompson of Feversham to Miss Alice Roy of Eugenia. Their many friends here tender them hearty congratulations, wishing them many long years of prosperity and happiness.

Our popular mail carrier, Mr. John Weber, is fond of driving a good spanking team, but on Monday last when about a mile from Eugenia the horses thought the mail might be late and started at full flight. People thought an automobile had passed, as you could see nothing but dust. The team ran up to a fence at Mr. J. William's barn and jumped onto it, where they were stopped. As Mr. Weber and Mr. Smith, a passenger, kept their seats, the horses and rig came off without injury.

The anniversary and harvest home of the Presbyterian congregation Monday evening was a success. A large number was present to enjoy the good things provided, and a most enjoyable time was spent. The choir and Mrs Henderson's school children did credit to the excellent training they had received. The program throughout was excellent. Rev. Mr. Thom ably filled the chair in his usual happy manner, and the lecture, "A Trip to Scotland," was a great treat to all, as Mr. Sheppard kept the large audience spellbound with flashes of lively wit and a vivid picture of the country and people of Scotland's storied land. As a preacher he is most earnest and as a lecturer he is a decided success. Eugenia people feel very grateful to Mr. Sheppard for his aid in helping to make their harvest home a pleasant memory to all present, also to those who kindly assisted in the program and all who came out that evening to show their good feeling to the church, it's pastor and people. The proceeds on Monday evening amounted to $55,60. A social will be held at the church on Thursday evening. All are cordially invited.

How Pneumonia Starts.

You catch a little cold to-day, by tomorrow it has reached the throat, next day the lungs are affected and you wish you had used Catarrhozone which kills colds in five minutes. In the first place Catarrhozone soothes the irritated membranes and relieves congestion—then it cuts out the phlegm and destroys the germs. It enables the blood to retain a natural supply of oxygen, lung-food, and vitality. In any cough, bronchitis or lung affection it's guaranteed to positively cure. Decline any substitute for Catarrhozone.

A Memphis (Mo) man has discovered a new way to get rid of mosquitoes. He says to rub alum on your face and hands. When the mosquito takes appetite it puckers his buzzer so it can't sting. It sits down in a damp place, tries to dig the pucker loose, catches its death of cold, and dies of pneumonia.—Kansas City Star.

A Judicious Inquiry

A well-known travelling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by W. E. Richardson.
