HURD'S GOLDEN GLOSS

FOR THE HAIR.—Among the many preparations for the growth of the HAIR, this GOLDEN GLOSS takes the lead.—Three reasons will be given why it is so universally used and preferred to all others.—1st. Because it has proved the most effectual in Baldness. 2nd. Because it imparts a beautiful dark gloss and delightful perfume to to the Hair. 3rd: Because the Ladies, with fine discrimination, which they all possess have adopted it. Many other reasons could be given why it is a great favorite, but those who want more have only to give it a trial.—Price 25 cents in large bottles. For SALE by Druggists and Storekeepers everywhere

PATENT

PREPARED FLOUR,

From which, with Cold Water only, and in one hour, a better, purer, and more nutritious Bread can be made than by any other process.

THIS valuable invention, which will be found to combine many advantages over the ordinary Flour, has been brought from London, and the Subscribers have secured the right of manufacturing the same through the process covered by an English patent. Several attempts have been made in the United States to imitate this discovery, but they have all fallen more or less short of the perfection reached in the original,—the ingredients of which we pledge our word are not only harmless but healthful.

The Subscribers are now enabled to offer the Patent Flour at a price that will make it cheaper to the consumer than ordinary Flour. They have had it under trial for nearly four months, and can with confidence recommend it to the notice of all who think it worth while to secure good, wholesome, and cheap bread.

The experience of a person who now uses the Patent Flour has been given to us as follows:—

4 bbls. Common Flour, at say 32s. 6d., lasted usually 100 days.....£6 10 0
3 " prepared " " 37s. 6d., lasted 100 days.....5 12 6

Shewing a saving, exclusive of yeast, of £0 17 6 to say nothing of occasional waste from Bread soured or otherwise spoiled by changes of weather or other causes.

Some of the advantages of using the Prepared Flour are:

I. There can be no uncertainty; as the Flour is prepared with perfect exactness it is always the same.

II. A large saving of labour and time; as bread can be made in one hour instead of ten or twelve hours.

III. A saving in money; the yield of Bread being much greater than can be obtained from ordinary Flour; and it is considered by the best medical authorities to be more wholesome than the latter.

The directions necessary for making Bread are simple, and every difficulty vanishes when the consistance to which the dough should be brought, is once ascertained.—"Mix quickly with the Flour a sufficient quantity of pure cold water to form a thick batter; when smooth, and stiff enough, to be lifted with the hands into the pans; bake in a quick oven. It is best in small cottage loaves of one or two pounds each.

In addition to the making of Bread, this Flour may be made use of to advantage in cakes, pastry, or for almost any other purpose for which ordinary Flour has hitherto been taken. Full particulars may be known by application to the undersigned, who keep always a supply of the Patent Flour in barrels, half barrels, and bags.

ENGLISH AND AMERICAN
Garden, Field and Flower Seeds.

E. W. PALMER respectfully intimates to Farmers, Gardeners and others, that he has for sale at his Drug Store, Market Square, Kingston, an assortment of the *best, purest* and *freshest* Variety of Field, Garden and Flower Seeds that could be procured in the English and American Markets.

The English Seeds were imported in December, direct from the most celebrated Seedsmen in London and those from the United States were purchased from a Seedsman of twenty years' standing at Flushing, N. Y.

The importation of last year (though much larger than that of the previous one) having been found too limited to supply the greatly increased demand, last Fall's orders were much extended; several new and improved kinds of Cabbage and Turnip Seeds, Peas, &c., added, so that this year it is hoped that all orders may be filled. To secure supplies, however, early application should be made.

The Advertiser, by his seed importations, has greatly contributed to the improvement of Garden Vegetables and Field Root Crops and he is determined that no exertions will be wanting on his part to extend that improvement.

Country Merchants supplied on the usual liberal terms.

Catalogue furnished on application.

FREDERICK R. STARR,
General Agent B. N. A. Colonies.
JAMES B. CHIPMAN,
Accountant and Cashier.

THIS OFFICE Insures against Loss or Damage by Fire, all descriptions of Buildings, including Mill and Manufactories, and the Goods, Wares and Merchandise in the same; Ships in harbor or in dock; Craft on navigable rivers and canals; and the Goods laden on the same; and Farming Stock of all descriptions.

The "Equitable" Fire Office will by a constant analysis of its own experience from time to time adopt such rates of Premiums as the nature of the risk may justify.

With this view, an annual investigation will be made into each class of risk, and a return of one moiety—or fifty per cent—of the nett excess will be made to all classes of Insurers, whose Policies have been in force for three years.

The engagements of the Equitable are guaranteed by a responsible proprietary, and an ample subscribed Capital. The insured are free from the liabilities of a Mutual Insurance Society, and entitled, according to the plan of the Company, to a return of half the profits.

Losses are made good, without deduction or discount, and are adjusted and paid in Montreal, without reference to London.

☞ By a resolution of the Court in London, PREMIUMS ARE RETAINED IN MONTREAL to pay Losses and ACCUMULATE a FUND of £10,000.

The undersigned has been appointed Agent for the above Company in Kingston, and is prepared to receive applications for Insurance at his Office, in King Street East, one door North of the Office of the Hon. John A. Macdonald.

Feltings for Covering Steam Boilers, &c., for Sale.

THESE unrivalled Feltings, (Cuthbert's Patent) manufactured by the Boiler Felting Works in the City of New York, now universally in use, are offered at reduced prices.

The above are furnished in large sheets, say 45 feet long by 6 feet wide, or any other size required; if dimensions of Boilers or surfaces to be covered are given, sheets will be forwarded in suitable sizes to cover the same.

These Feltings consist of Hair Felting of any required thickness, also of Hair Felting with Woolen Felting attached on the outside, being a substitute for canvass, but answering a better purpose. All orders will be promptly attended to by addressing

Canadian Register in London.

MESSRS. STOVEL & BAINES,
OF
98 Bay Street, Toronto, and 185 New Bond Street, London, England.

BEG to inform the Canadian public that they have opened a Register at their London Establishment in London, and they invite all parties visiting Europe to enter their address therein—which register they can consult for the address of their friends.

They will also keep a file of Canadian newspapers for the inspection of those who call, and as they will make no charge, they hope the gentry, merchants and public generally will freely use it.
