You Can Vote At Municipal Election

But You Must Get on the List When the Assessor Calls at Your House.

Assessors in the different municipalities are now commencing their work. The task this year is much greater than heretofore, requires greater care, and if a complete list is to be provided must receive duty and attention not necessary in former years. Under an amendment to the Assessment Act passed at the last session of the Legislature, women are entitled to vote under the same conditions as men. The conditions are as follows:

"Of the full age of 21 years; British subject by birth or naturalization; rated or entitled to be rated on the last assessment roll of the local municipality for land held in his or her own right as owner or tenant or so rated or entitled to be so rated for income or who is entered or was entitled to be entered on such a roll as a farmer's son, or who is the wife or the husband so rated or entitled to be rated for land as owner or tenant."

The rate for land shall be in respect of a freehold or leasehold, legal or equitable or partly of each to an amount not less than:

In villages and townships, $100.00

In towns having a population not exceeding 3000, $200.00.

In towns having a population exceeding 3000, $300.00.

In cities, $400.00. Or having an income from any trade

Office, calling or profession, or not less than $400 00.

This simply means that every married woman whose husband is a tenant or owner of land to the value of $100.00, in any township or village; $200.00 in a town of 3000, and $300.00 in a town having a population of more than 3000 must be placed on the assessment roll and be given the right to vote at municipal elections; also any man or woman, 21 years of age, who earned during the past 12 months, $400.00, must also be entered and given the right to vote.

Miss Macphail Active

Taking Keen Interest in United States and Canadian Trade Interests

A number of questions dealing with foreign trade matters have been placed on the order paper of the Commons by Miss Agnes Macphail, our local member. Miss Macphail asks Government to state how many consuls and commercial agents the United States has in Canada, how many Canada has in the United States and whether Canada intends to appoint sufficient agents in the United States to properly take care of her trade needs. Miss Macphail is also asking what steps the Government is taking to foster trade with the United Kingdom and now many officials with technical trade knowledge are attached to the Canadian High Commissioner's office in London.

Walkerton Paper Slams New P. S. Geography

The Walkerton Telescope says:—"The new Public School Geography which was awaited so long and patiently, has now been in general use for a few months—long enough for teachers and others to size it up. The new book is handsomely gotten up, beautifully illustrated, and makes a very attractive volume. But when one begins to look into the subject matter, it's a different story. Teachers are finding it full of mistakes, not trifling inaccuracies, either The railroad map of Canada shows only two transcontinental lines. Many of us were under the impression there were three. The papers have been full o the controversy as to whether the eastern headquarters of the Canadian National Railways shall remain in Toronto or be removed to Montreal, but the new geography settles the question by stating that Moncton, N. B., holds this coveted plum. A pedagogical friend of ours has found over a hundred misstatements of fact in a few chapters of the book. These things naturally make one curious to learn the authorship of such a volume. By inquiries we have learned that the Department commissioned two gentlemen to get their heads together, and out of the abundance of their knowledge compile a new geography. The result is this somewhat unique text. One of the authors acquired his familiarity with the teaching of public school geography by being Greek Master in a High School. So far as we can learn he has never seen the inside of a Public School since his early youth. His collaborator prepared himself for the authorship of the geography book by teaching English in a Winnipeg High School thirty five-years ago. That these gentlemen made a few hundred mistakes in their book is surely not to be wondered at. They have produced the kind of book you would expect them to produce. These gentlemen, no doubt are nice fellows and close friends of the officials who had the handing out of the contract. And they were no doubt paid a snug sum for their work And now their book is the geographical authority for the children of the province. Heaven help the children!

Owen Sound 2, Flesherton 1

A team known as the "Spotted Rats" came down from Owen Sound and played the Flesherton team on Tuesday evening and returned on the night train with the big end of the cheese It was a good game from start to finish and fairly clean, only a few minor penalties being handed out, one of them being to the Rats' goal tender for "mixing" it outside of the nets. There were three fifteen-minute periods and good hockey was played in each. There was no scoring in the first, but numbers of shots were turned aside at each goal.

The second period began faster and resulted in two goals for Owen Sound, the firs on a combination play of Marchett and M. Crawford, the latter netting when right in on "Fat." The second was secured by Patton on a lone rush.

The third period opened with practically the whole Flesherton team was on the forward line but the only success was a lone counter by C McTavish in a scramble in front of the net. The rodents must have gone into their holes after this and taken the net with them, as it couldn't be found, so there was no more scoring on either side. It was in this period that the O. S goalie was penalized, along with Hart, when they were too free with their sticks. The "Spotted Rats", the name being given as no two uniforms were alike, are a good bunch of sports and were out for the love of the game and a good exhibition resulted, one of the cleanest here this year. Sport in hockey ends when either team tries to win by rough means.

The line-up for each team was:—

Owen Sound		Flesherton
C. Burt	goal	E. Muir
Bell	defence	Graves
Gardhouse		Thurston
G. Patton	centre	C. McTavish
Matchett	l. wing	S. McTavish
M Crawford	r. wing	P. Hart
C Crawford	sub.	Armstrong

Referee—Geo. McTavish
