A NEW PATENT
STRAW CUTTER.

THE Subscriber respectfully makes known to the Farming Community and to all others who keep Horses and Cattle, that he has purchased the Right and is now Manufacturing

Reese's Patent Straw Cutter,

an Implement that has been pronounced by impartial judges to be the very best, and most practical thing of the kind ever invented.

The chief advantages which Reese's Patent has over all others, lie in the increased Leverage, consequently less labor, and the rapidity with which the Straw can be cut into Chaff to any desirable length from the 8th of an inch upwards, say four bushels in one minute.

A boy can turn it. It is substantially made, and will be Sold reasonably for Cash.

The great success of this Institution in Europe, and the numerous Policies issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.

The income of the Company, independently of the large Subscribed Capital, is about Eighty Thousand Pounds, Sterling, per Annum, and of this a great part is continually accumulating for the payment of losses.

A Party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk.

Among others, the following Improvements are introduced by the system usually adopted, are recommended to the attention of the Public

A Table (No 2) of Increasing Rates of Premium, peculiarly advantageous in cases where Assurances are effected by way of securing loans of debts, "a less immediate payment being required on a Policy for the whole term of life than in any other Office; and the holder having the option of paying a periodically increasing rate, or of having the sum assured diminished, according to an equitable scale of reduction."

"A Table (No 4) of Decreasing Rates of Premium, on a novel and remarkable plan; the Policy holder having the option of discontinuing the payment of all further Premiums after TWENTY, FIFTEEN, TEN, and even FIVE YEARS; and the Policy still remaining in force, in the first case for the full amount originally assured, and in either of the three other cases for a portion of the same according to a fixed and equitable scale endorsed upon the Policy.

All claims payable within THREE MONTHS after proof of death

No proof of Birth is required at the time a claim is made; the age of the Assured being in every case, admitted in the Policy, cannot, under any circumstance, be afterwards called in question.

Policies effected by Parties on their own lives are not rendered void in case of death by Duelling or the hands of Justice. In the event of suicide, if the Policy be assigned to a *bona fide* Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

Those essential forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

REPORT of the Directors of THE LIVERPOOL AND LONDON FIRE AND LIFE INSURANCE COMPANY to the Eighteenth (Annual) General Meeting of the Proprietors, held pursuant to the Provisions of the Deed of Settlement, on the Sixth day of February, 1854, in the Company's Offices, 37, Castle Street, Liverpool.

The Directors have much pleasure in meeting the Proprietors at the close of another year, and now submit the following Accounts

FIRE DEPARTMENT.

The increase in the Fire Insurance Business must be satisfactory to the Proprietors, as showing the rapid and safe progress which the Company is making. The Receipts for the past year have increased considerably over those of 1852, while the losses have materially diminished.

RECEIPTS.
1852.—£98,654 1s. 10d.
1853.—£113,822 4s. 6d.

LOSSES.
1852.—£59, 91 0s. 11d.
1853.—£42,846 1s. 0d.

These results show, notwithstanding the very numerous and destructive fires which have occurred, both in this Country and more especially in America, that great caution has been exercised in taking risks on the part of those, on whose judgment the Directors must necessarily in a great measure rely.

This Company is second to no Company doing business in the Canadas. The Subscriber is prepared to effect Insurance at moderate rates. Losses Paid promptly without reference to England.
