There seems to be a lack of definite information among municipal authorities as to whom may be committed to any house of refuge. Municipal officers should cut this out and paste it in their notebooks: Section 526 of the Consolidated Municipal Act gives the classes that may be committed to the house of refuge. They are: 1 All poor and indigent persons who are incapable of supporting themselves. 2 All persons without means of maintaining themselves and able of body to work, and who refuse or neglect to do so. 3 All persons leading a vagrant life, and exercising no ordinary calling or lawful business sufficient to gain or procure an honest living 4 All such as spend their time and property in public houses to the neglect of any lawful calling, and 5 idiots.

Smallpox In Dundalk.

Our sister town of Dundalk is at present suffering from a smallpox epidemic, some of the prominent business men being victims. There are said to be some twenty cases under treatment and at least one of the hotels is under quarantine. Among those affected are Messrs J. E Richards and J. D. Brews, merchants. The disease is said to have been brought to the town by a picture enlarging agent. Some of the victims have been ill for a couple of weeks, the disease not having been identified as smallpox, which would point to the fact that it is of a mild nature. We have not learned what steps are being taken to combat the disease, but understand that quarantine is being enforced in all suspected cases. It is a particularly serious matter for our sister town at this holiday season,

It Heals the Lungs.

An irritable throat Catarrhozone cures in five minutes, bronchitis it soothes instantly, weak lungs are nourished back to health. To be free from colds and coughs, to avoid catarrh and bronchitis use Catarrhozone; it is prescribed by more than twenty thousand physicians in America alone, and used by the people of nine nations.
