No Poison in Chamberlain's Cough Remedy

From Napier, New Zealand, Herald: Two years ago the Pharmacy board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in the market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by it's makers for for coughs, colds, croup and whooping cough. This remedy is for sale by W. E. Richardson.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," say R. S. Webster & Co., Udora, Ontario, Canada. For sale by W. E. Richardson.

Eugenia

One of the most sucsessful Sunday School entertainments ever held in Eugenia took place last Friday evening. The ladies provided and served a most charming tea, after which a good and lengthy programme followed, consisting of choruses by the school, also choir; recitations by most of the little people; drills and solos. Short speeches were delivered by the Rev. Mr. Thom and Rev. Mr. Wass, which were much appreciated. One special feature of the evening was a "grandmother dialogue" by six little girls and six little boys all dressed up to represent our grandmother. This was played to perfection by the little folks. Another special play was a couple of pantomimes by five young ladies "Way Down Upon the Swanee River" and "Rock of Ages." Mr. Thomas Williamson favored the audience with a number of choice selections on his gramophone. Mr. Johnathan Latimer, Supt. for Sunday School, quite ably filled the position as chairman. It would quite easily fill a page to describe everything so we will now close by saying that all who failed to attend this entertainment certainly missed something good. Many thanks are extended to those who trained the little people so well, especially to Miss Annie Wass, Miss Norma McMullen and Mrs. Jake Williams, who worked hard and succeeded. Proceeds amounted to about $25.00.

The Thin Man's Danger.

He can't resist disease germs—that's why he is such a mark for consumption. In this land of plenty thinness is wickedness, especially when it is so easily overcome with Ferrozone. This remarkable tissue builder makes you fat quickly; it does so by forming blood that's rich, nourishing and health-giving. Ferrozone supplies the nutriment needed by worn-out nerves, rapidly constructs muscle and fatty tissue. The form fills out, the cheeks redden, proving that weight is being added. To be well and stay well, use Ferrozone. Fifty chocolate coated tablets in a box for 50 cents or 6 for $2 50 at all dealers.

Inspector Campbell paid our school his usual official visit lately. His report regarding the progress of the pupils is very gratifying, and indicates a season of successful sailing under the guidance of Miss Stafford.

Mrs. Jackson of Eugenia, has been spending some weeks with friends in this vicinity

An Open Letter

To Farmers, business men and all others who are interested in good flour. The Markdale Roller Mills is in a better position now than ever to do a milling business. My trade increased in the last two years so much that I was compelled to give up chopping at the mill, hence the erection of a modern chopping plant in the old agricultural hall in the town of Markdale. I can use all the mill manufacturing my three popular brands of flour, namely, Ford's Patent, all Manitoba; Morning Glory, ½ Manitoba; Straight, ⅓ Manitoba. Last winter it was very difficult to make flour at all but I will be able this winter to supply all comers with flour fit for theking. I have a number of customers around Flesherton which I thank very much for the patronage given me and hope for a continuance of your good will. I exchange flour for wheat at the chopping mill in Markdale and you can get Manitoba flour at wholesale prices in exchange for your wheat. If you have not already tried my flour bring a grist and be convinced of what I say, or if you have not the wheat insist on your dealer giving you Ford's flour. Ford's Patent (all Manitoba) can't be beaten by any mill in Canada. I supply four bakers with Manitoba flour and it it was not as I represent it to be I could not hold their trade, besides it's considerably cheaper. Don't let the dealers stuff you with that old story that the Manitoba mill can make it better. I tell you they can't and to convince you they can't I want you to try a sack of Ford's Patent, then you will know how you have been fooled into paying fancy prices for flour not as good as you can get at home.

Morning Glory is an excellent flour being equal parts Ontario and Manitoba for which I give 34 lbs. for 60 lbs. wheat. When you bring your grist don't forget to go to the chopping mill.

Sincerely yours
JOHN W. FORD.

Terrible Murder in Melancthon.

A terrible murder was committed in Melancthon on Thursday last, when James Coulter, a farmer living on the 3rd concession of that township, killed his son aged 14, daughter aged 11 and his wife, with an axe, after which he shot himself. The details of the crime can be minutely read from signs around the home. The boy was in the barn when killed, his head being crushed in. The murderer then went to the house and killed wife and daughter as they were washing dishes. He then went upstairs, took a pistol from the bureau drawer and shot himself twice. When found a short time afterwards by neighbors the two children were still breathing but died in a little while. The parents were both dead It is supposed the deed was done in a fit of temporary insanity brought on by brooding over a business transaction.
