Paid the One Thousand

The Georgian Bay Power Co. paid over to Artemesia township on Friday last the thousand dollars due as per their contract with the township. Mr. O'Donohue and Mr. Reasor were present and the latter gentleman presented the cheque to the council. Reeve Boyd thanked the company for their prompt payment which came on the day it fell due.

In connection with this developement The Advance has been favored with a cursory examination of the engineer's report—a most complete thing covering every phase of the proposed construction—and from this report we learn that the total estimated expenditure on the plant will be $248,181.00. All the properties above and below the falls proper needed by the company have now been acquired. This includes everything from Sloan's dam above the falls to Graham's property in the valley. The main dam will be built at the old hoop and veneer mill and and will be 42 feet in height and 72 feet long, with a discharge capacity of 200 cubic feet per second, It will be of the Amberston or A type and built of concrete. The power house in the valley will also be built of concrete and will measure 100 by 50 feet, in which will be installed two turbine wheels of the impulse type, capable of developing 1600 horsepower each. The pipe line from dam to power house will be made of 54-inch steel tubing, and will be 3000 feet in length. There will be several large reserve dams above the main dam in order to conserve water during the dry season. For the pipe line a nine-foot tunnel will be cut through the hill. Mr. O'Donohue informs the Advance that it is the purpose of the company to go ahead with the cutting of this tunnel during the present winter and with the complete development early in the coming spring. As the work progresses we will have more to say about it.

A Denial.

To the editor of The Advance:

Dear Sir—Please allow me space in your valuable paper to correct a false statement made in Mr. Adams' card to the electors. Now, I wish to say to the electors and others, that I did not say to Mr. Adams or to anyone, that I would not be in the field again, either last year, this year, or any other year. I am surprised at Mr. Adams for saying such a thing. I took him for a man of truth and principle but I find him to be the very reverse. Now, as to the letter he says I sent him, that statement is a downright falsehood. I never sent Mr. Adams a letter at any time or for any purpose.
