THE Flesherton Advance

W. H. THURSTON EDITOR

THE U. F. O. DEFEAT

The many theories advanced as to the cause of the U.F.O. Government's defeat make very interesting reading. Their name is legion, and any one of them ought to be enough to defeat any government. These range all the way from the sweeping to power of Conservatives "on the crest of a wet wave," to the attitude of J J. Morrison himself, with many other reasons sandwiched in between. Mr. Morrison says it was because "ideals were set aside and declarations of principles forgotten, not by the heart of the movement, but by those who wished to capitalize every suggestion that might bring support.

For ourselves we believe that every reason given may have been a contributing factor in bringing about Mr. Drury's defeat, but the outstanding cause was that advanced by Mr. Morrison. The party leaders forgot their pre-election pledges, not one of which they attempted to carry out. A man who will not try to keep a solemn pledge is discredited and no person will trust him. A government cannot expect to be measured by any other standard.

EDITORIAL NOTES

Col. Carmichael's official majority was 113. Markdale people think Meaford electors "knifed" them. But the Mirror states that "Meaford rallied more strongly behind Dr. Ego than it did behind Hon. I. B. Lucas the last time." So that bubble is exploded.

o o o o

A Toronto man was caught driving too fast on the Owen Sound to Meaford highway and paid $25 and costs for the luxury. The very same day he was caught speeding on the Durham Road and will answer for this on July 4th at Owen Sound. If he keeps up this gait Mr. Louis Cadesky will soon discover that his speed will speedily absorb his whole wad. His speed may be 50 but his money will go "like 60." Two bites from the same poor fish in one day was good fishing for the cops. If the Toronto Star only gave a prize rod for the biggest sucker we could name the winner.

The Duty of Fire Prevention

Carelessness with cigarette butts, cigar ends, matches, pipe ashes, camp fires, fly smudges, railway locomotives, slash-burning operations—human carelessness of some kind accounts for over 95% of the forest fires in Ontario.

It is impossible to say how many fires along railway lines are not due to engine sparks, but to the thoughtless smoker tossing away his cigarette or cigar butt. However, there is no doubt a fair number of forest fires originate in this way, and such are preventable. Each individual should realize his personal responsibility to be careful with fire in any form in northern Ontario.

Save Ontario's Forests

The Ontario fire ranger is at the mercy of all types of carelessness, and cannot prevent fires starting, as a rule. He can only attempt to limit the consequences. He is entitled to your help and co-operation by being careful with fire.
